Putting this toward the top of the queue today. OCIR is looking for this TA turned around as quickly as possible (prioritized over the PFAS legislation summaries which I will also resend shortly).

Thanks,
Kaitlin

OGC and OPPT input combined in the attached TA requested by SEPW. Quick review would be appreciated as Sven mentioned he gets asked about this one daily. Please let me know if you have any questions.

Thanks,
Kaitlin

Hans—additional OGC comments attached. Can OPPT review and provide any additional OCSPP comments as appropriate? Per Sven, this should be sent this week. Review by 4pm tomorrow would be appreciated.

Thanks,
Kaitlin

Sven,

Attached please find additional PTSLO TA on the PFAS bill. We added a new comment at the beginning and edited one of the general comments. Please let us know if you have any questions.

PFAS Section 8 team – thanks for the TA comments. I checked with the requester and this was written as freestanding language. The drafters are open to alternative views and language to make it work better with TSCA. They would like the TA as soon as possible and definitely by the end of the week. I understand that it will need to be cleared by OCSPP. Please let m e know if any questions. Thanks,
Sven

Sending a few additional comments from Steve.

Sven – do you happen to know if this is intended to be an amendment to TSCA (possibly under section 8), or freestanding? If the latter, we may want to give more consideration to the language in the bill to better interface with TSCA.

Sven,

Attached are comments from PTSLO's CDR attorneys. Our PFAS attorney is currently out of the office, but we will provide any additional PFAS-specific comments next week. Thanks!
