Perhaps Rusty should work in time for a courtesy review of his slides by the relevant programs ☺. I think there will be no shortage of exciting topics!

Thanks again Rusty!

Rusty, you can also discuss your efforts on PFAS compounds (just make sure the slides do not conflict with anything said in the soon to be released Management Plan).

Nancy,

I would be happy to be the EPA representative in this activity. I will also do my best to broadly represent the EPA in the short talk (but will look for help from your organization to provide the regulatory perspective).

Best,

Rusty

Rusty,
Would you be able to be our EPA speaker/participant as per the attached? The session we are invited to speak in is "the changing toxicology landscape": Challenges and the future of Risk Assessment. Perhaps you could give an overview of the new tools and approaches as they are being used to inform different regulatory risk assessment (hazard and exposure) needs. Of course you could highlight TSCA (and we'd be happy to help with slides) but also other regulatory programs as well, as all of EPA is offered just this one spot on the agenda.

Thoughts?

Nancy,

Please see the attached invitation to the December NTP BSC meeting and celebration of NTP's 40th year. I hope you can make it.

Linda
