(Camp Grant 7.5' Quad)

Rockford / Peoples Ave Winnebago Co. 1 20103001

In operation from 1947-1972 40 acre site former sand and gravel pit. Nine (9) private and industrial wells were contaminated and abandoned. Now covered except for about 10 acres, used what looked like foundry sand for cover. Feds did a report on the site - Leachate Damage Assessment Peoples Study of the Rockford / Peoples Ave. Dump EPA-530-SW-517 June 1976 by Kenneth A. Shuster. 5-20-80 Bob Wengrow took a soil sample from the central part of the site at approx 6 in below ground surface - Sample had 980 PPb PCBs. WPC has no file on this site. LPC has some info in main file, Ray has a separate GW file on site. Bob Wengrow will send us his copy of the Fed report. Most of the above info was from Bob Wengrow per phone conversation on 2/19/82.

Site took everything municipal, industrial ect., had an incinerator on site. Site is about 1/4 mile from Rock River. Was excavated 30-40' below grade

May want to check c Winnebago Co Health Dept.
