Brian – Yes, USG contacted me on Wednesday to schedule the 113 conference. They asked for our modeling files yesterday afternoon. Most likely we will be sending these files to USG.

Thanks.

Dan:

Did USG call you to set up a conference?

I'm guessing we should reply to MPCA with "please don't forward the modeling, we would rather forward and discuss it with USG directly", is that right?

Subject: USG

Hi Brian,

I just wanted to let you know that USG contacted Katie and asked to meet. We had a call with them today. They of course had questions about the NOV, MN SIP and stated that they felt the alleged violations were unusual/unique. We were not able to provide them with much information, however I did want to let you know that while we certainly did not make any disparaging remarks, we did state, as you are aware, that the MPCA agreed that the approach seems a little unusual to us as well.

They also asked to be provided with the modeling information that EPA used, and while I believe this is public information, I wanted to double check if it is OK to provide? or if you will be willing to provide it directly?

Thanks,
Sarah
