Subject: FW: AK Steel Data

Michael, George is going to provide us what we need. Once I have the final pdf, I will send to Bob.

Subject: RE: AK Steel Data

This data is considered preliminary. The instrument raw data and associated quality control information have not been reviewed against our laboratory standard operating procedures (SOPs)by the primary analyst and a second, trained analyst. The data are pending a final data verification as specified in our laboratory data verification SOP. Until the final report is issued, these preliminary results are subject to change.

We have the AK steel preliminary report already in PDF with the Preliminary Report part in bold, red font. Let me see if we can add a draft watermark to the entire report.

Hi George,

Thanks for expediting the QA/QC. Do you have sample language with the appropriate caveats? Justin received Excel files from your team and, before releasing, we plan to convert them to pdfs, add a "DRAFT" watermark and include caveat language in the footer.

Any language or other guidance would be appreciated. Thank you!

Katie Siegel, Chief
Air Toxics and Assessment Branch
Air and Radiation Division
U.S. EPA Region 5

Ok thanks
This is helpful information. We will send them the draft data.

Thanks
Ed
