OK, I can ask if Ohio will be doing any more sampling.
Does ATSDR think we need more sampling to determine the risk level?
How much more sampling?

Brian,

We just spoke with the AK monitoring group + ATSDR. In light of the OEPA Order, ATSDR's next steps hinge on a few questions for Ohio EPA, which they hope you can ask your Ohio counterparts accordingly:

1. Will Ohio EPA or SWAQA perform additional sampling at AK Middletown? If so, can they share the sampling plan?

2. Will Ohio EPA or SWAQA share any additional Hamilton county historical VOC sampling locations that ATSDR may not be aware of (i.e., not in AQS), including any monitoring campaigns from the past that may have measured emissions from AK Steel?

Thanks,

Gina
