John,

Thanks for the information. NRC recently made public the detailed report of our April inspection. I have attached it as an FYI.

Regards,
Richard

Hi,

Thought you might want to see the attached news report to air on NBC Bay Area tonight. I just learned about this from a friend. If the statements are true on the face they are disturbing.

What doesn't make sense to me is why the individuals involved didn't contact other regulatory agencies or NGOs and waited this long to speak up.
