Subject: Ra-226 Source In NOLA

Good afternoon gents! After receiving information from Greg, I spoke with Steve Johnson (RAP R2) in Oak Ridge. He is the DOE contact for Arkansas and Louisiana.

We talked about the Ra-226 source about two miles NW of the Superdome (corner of Loverline Street and Coolidge Ct). The RAP team found the source while driving the area in preparation for an event at the Superdome (WWE, I think).

A woman from the NO Public Works (Sharon Robliss – 504.658.8046) called DOE HQ which got Steve Johnson involved. Steve spoke with Ji Wiley (LDEQ Radiation). I have sent Ji an email to get an update on this incident.

More to follow on Tuesday, February 26. Thanks, and take care.
