Thanks. Can you research to see if there is one related to Deepwater port discharges or any discharges to federal waters beyond the territorial seas?

The only 2 catex's I know of are the Texas territorial seas GP and coastal waters GP. I'm not sure of where 1 begins and the other ends. I know that was the general crux of the argument LOOP counsel was trying to put forth.

Sincerely,

Keith Hayden

Have a question about whether or not there may be any Cat-Exs that would apply to the discharges at the LOOP facility.
