1/7/20 – Agenda items for today's briefing:

Ex. 5 Deliberative Process (DP)

The National Western Master Plan, the Globeville Neighborhood Plan Elyria and Swansea Neighborhoods Plan and the NWCC Master Plan all point toward an increase in residential and mixed use populations within the areas near the Coliseum property. The Denver Coliseum location offers opportunities for retail and /or other mixed uses that can add to the flavor of the growing arts district and River North. Although a specific reuse of the Coliseum building itself has not been identified as part of the Master Plan process, the North Denver Cornerstone Collaborative is expected to continue looking at redevelopment and reuse options for the structure once the New Arena becomes operational.
