Jennifer,

Let's table the update for the March meeting. The date is March 19th at Focus Points, 2501 E 48th Avenue.

Later in the month I will check back with you for details about the update for the March agenda.

Hi Kim. Unfortunately, we are not confirmed. Since another shutdown still looms, EPA staff just can't plan past Feb. 15. Further, due to the recent shutdown in Dec/ Jan. we do not have enough time to plan for a quarterly meeting by Feb. 19, even if the government does remain open.

However, if the government does remain open, Jesse (he's back from Puerto Rico) and I could attend your CAG meeting on the 19th.

Also, I'm about to send an email to you and the rest of the CAG and other stakeholders on our mailing list that the Notice of Intent to Delete for VB/I-70 OU1 published today in the Federal Register. I will send that email here in a minute with details and how/where to provide public comment...

Today, I'm trying to catch up from the furlough. I'll go ahead and tentatively confirm now, and hopefully will really be able to confirm in a day or two.
