Taim,

Back ~2014, I seem to recall that Isaac & Brent were considering a "joint" State/EPA public notice (PN) …with LDEQ taking the "lead," if all of the federal regulatory requirements for PN could be met. For LDEQ, the Permittee pays for PN so this may have been a thought due to available EPA PN $??

K

Hi Kay,

Do you happen to have the methodology for public noticing the joint LDEQ/EPA LOOP permit? Stacey was hunting for that today.

Thanks.

Taim.
