LOOP pemit modification Outfall 029 letter dated 081015.pdf

I am on leave this afternoon. I have attached the only Permit Mod. that I recall.
I have forwarded this to Isaac & Brent in case they have received something that I am not aware of.
Also, since things have now been elevated to the EPA/LDEQ management level, I am not "coordinating" with LDEQ unless specifically requested to do so by EPA management. LDEQ may have received additional info ??? (Sonja Loyd, Jenniffer Sheppard)

Thanks
K
