Andrea,
I think it's going to be another 60 days (end of May) b/c we have the voluminous Arco Anaconda/CFAC FOIA to finish first, and the second VBI70 netted over 3,000 documents (plus I'm out much of the first half of May).

Hi, Steve. I didn't hear back from you on this, so I didn't reach out to Andrea. If you could reach out to her to discuss coming up with a date, I'd appreciate it. I don't want us to get dinged in the CMS system for being overdue and this one is very overdue. Is April 30th a realistic due date?

Thanks.

Hi, Steve. I wanted to check if you were ok with me following up with Andrea Madigan on this? I believe she said she was going to ask Mark Chalfant. If not, no worries. I'm still learning so thought I'd check first.

Thanks.

Hi Stephanee – I'm checking with Andrea Madigan on this. The attorney who has been working on this response is out of the office until Feb. 19th, so it likely will be later next week when I hear back.

Thanks,

Good morning, Steve. I wanted to follow up with you to see if you have had a chance to decide on a new extension date yet. The current one on record is December 4, 2018. Please let me know.

Thank you.

Missy,

It looks as if Steve Wharton is still working on this file, and we do need an extension. Likewise, I am copying this doc to Stephanee because she will be working with the CMS files.

Stephanee,

I have the CMS file and I will bring it down to you.

Hi Diana – Yes, I have the original request from CDPHE, which deals with the state's concerns about the removal action at the VB/I-70 site and the potential impact of that work on the state's Hazardous Substance Response Fund. Our response to the state's request is dependent upon a records search that the Superfund Legal Enforcement program is conducting, which is not yet complete. We will need another extension, due primarily to the shutdown, but also to the extensive number of records we need to review. I've copied Andrea Madigan here, so we can develop a reasonable estimate for a new due date.

Thanks,
Steve

Steve,

I am looking for this final response on the "CDPHE," from Martha Rudolph, Director of Environmental Programs, CDPHE. Attempting to locate this document.

My corresponding notes indicate that you might have the file.

Please advise.

Thank you.

Hi Missy – Please see Mark Chalfant's response below. The Superfund Remedial Program managers have had discussions with their CDPHE counterparts on this issue, so I don't believe that an interim response is warranted in this case. If possible, we would like to extend the due date for this response to January 31, 2019.

Please let us know.

Steve,
We are making headway on the FOIA which will inform the response to Ms. Rudolph. I see the current deadline is tomorrow. Have you requested an extension? I don't anticipate that we will be in a position to respond substantively until the end of January. If it would be helpful, I would be happy to draft an interim response, which acknowledges the letter and explains that a substantive response is forthcoming.
Thanks,
Mark

Diana - The response is dependent upon a records search the CERCLA Legal Enforcement Program is conducting. They are still a ways from completing that search, so we will need another extension.

Please let me know if you have any questions.

Dear Missy and Steve:

I am looking for the final response to the Colorado Department of Public and Health/Environment document. I do not need the CMS Control sheet, I have this, and I have the letter Ms. Martha Rudolph wrote to Bill Murray.

I am in need of the response letter; signed by Steve Wharton or Betsy.

Steve,

My notes indicate that you previously requested for a 3-week extension on the file which will be 12/04/2018? Who has responded to this document? Did it get to Betsy?

Missy,

I am hoping if the file-doc is already closed out, I am needing the response letter to Martha Rudolph.

Will Missy and Steve please inform me.

Thank you.
