Thanks, Sonia.

NPDES goes to Ryan Bahr's team in WD (cc'd). We'll also evaluate re: CWA311.

Not sure if this should go to you but USCG has concern about this company's compliance with their permit. They have been responding to sheen in the canal and Lake Michigan.

If this is not in your shop, please forward it on. The NRC report number is 1168227.
