Subject: Re: LOOP Docs
2002-11-13 NOAA Fisheries Reissuance LOOP Permit.pdf
2002 LOOP .pdf

These 2 LOOP docs were found in the file folder **205 C TXG290000 0003 Oil and Gas Extractions Gulf of Mexico 3 12 OGT 12 290000** from the file room. My question is as follows: **should I remove them from the file folder?**

I have a banker's box compiling LOOP docs for the creation of a possible file folder in the file room. I've copied and pasted these LOOP docs into the Admin. Record for LOOP, as well as, printed them out for the file folder temporarily storing them in the banker's box.

Thanks!

Edwina
