Kay,

I have no input. Have we checked with Paul Juarez because he was our Toxicity coordinator?

Hi Isaac,

While you were busy wrapping up Los Alamos, efforts began with Laura Philipps @ HQs regarding input on WET testing for LOOP. There was a call on Friday that Taim & Paul K. attended. LDEQ & LOOP's consultant are also offering their understanding re: WET. See info below & I will also forward Doug LaBar's recent email. We are getting confused. If you can provide any input, please do.

Thanks

K

Here's a copy of the method Doug LaBar was referencing in our phone conversation with LOOP.

Jenniffer,

Attached is the method. Please see Section 13.6.13.1 which states that the salinity of the test water must be in the range of 5 to 32 ppt. Thanks for your help on this.

If you have any questions, please feel free to contact me.
