Subject: Additional Items for WAR

Syed,

Here are 2 more additional WAR Items. Also, please format and add the telephone numbers. Also, I have included the order that should be used on the WAR.

(ITEM 4) LDEQ/EPA meeting on the NPDES Permitting Program: EPA and LDEQ met on Tuesday, October 10, 2017 to discuss the State's approach to NPDES permitting. The discussion included WET requirements and TMDL consistency with the permits. EPA agreed to continue

discussions on interim measures that the State may use in cases where the TMDLs need to be revised. Stacey Dwyer, Kay Schwab, Silvia Bogdan, Denise Hamilton.

(ITEM 1) EPA receives draft information from LOOP: EPA met with LOOP representatives on September 5, 2017 to discuss the EPA/LDEQ draft joint permit. LOOP agreed to provide EPA with information regarding their brine discharge and operations, results of the in-situ monitoring that is conducted every 5 years, as well as issues with the method used to conduct biomonitoring. LOOP provided a draft discussion letter on October 5, 2017 on WET and information on their brine discharge. EPA plans on providing feedback on their draft discussion document by Friday, October 13, 2017. Stacey Dwyer, Silvia Bogdan.

(ITEM 2- Monitoring meeting with LDEQ)

(ITEM 3- Region 6 Review of TX PrePublic Draft TMDL)

ITEM 5- 316 b)
