Subject: RE: Trash TMDL Call follow-up
Attachments: DRAFT_TrashTMDL_EndpointDetails_JointUpdate_v2.docx

Hello All,

I've attached a table from DOEE to help guide our discussions on TMDL implementation and follow-up monitoring. I cannot thank George and others in DOEE enough for putting in the time and effort to take the first draft. We provided preliminary edits to the table structure and footnotes, but I'm hoping that we can all plan to take these next few weeks to review in greater depth and provide revisions/input during the next call.

It looks like the only follow-up item we have left from the last call is for EPA to send the final status report once filed.

Thank you and talk to you all soon,

Jillian Adair

Thank you for sending that along, Jonathan. We really appreciate DOEE going through the exercise even if the numbers weren't directly comparable in the end. The information is good to have on hand.

I've attached the meeting notes from our call. Please take a look at our next steps and let me know if I mischaracterized or missed anything.

I've also attached the draft public solicitation document. Please feel free to edit substantially and add comments. I cannot thank MDE and DOEE enough for your patience on this.

Talk to you soon,

Subject: Trash TMDL Call follow-up - SF/DC Comparison

Hi All,

Just following up from our call this morning to provide the full analysis we performed investigating the potential applicability of San Francisco's trash loading rates to the Anacostia TMDL. The overall conclusion we reached was that the SF study did not lend itself to such a comparison. The attached spreadsheet provides more detail. It makes estimates of DC trash loads using San Francisco's loading rates where possible, but more importantly highlights the numerous ways the two jurisdictions' approaches aren't comparable.

Best,

Jonathan Champion
