Subject: FW: Issue with new offshore loading terminals

All, Attached for your information is a copy of the briefing sheet OAQPS-NSR is planning to present to David Harlow (I understood Anna Wood was going to be in the meeting too?) for their meeting today. As a side note, I just received a phone call from a third potential permit applicant that is wanting to build a DWP with a SPM off the coast of Texas – sounds similar to LOOP's operation. They anticipate submitting an application for a DWP license/Air permit around 6+ months from now. Thanks

Melanie,

Here is what I am using to brief my management on the offshore loading issue. I'll let you know what we hear from David Harlow today.

Dave
