**Subject**: RE: Revised Rosemont briefing materials in response to Giles/Beauvais request

This looks really good. Kathy said she was preparing something for Tuesday's briefing with Rob and possibly more people, but this may be sufficient – or most of what we need.

My sincere apologies for the numerous revisions circulated. The attached copy contains one further edit recommended by Jason to clarify the point raised by Elizabeth. I believe this now has full concurrence from both ERS and Wetlands.

**Importance:** High

# Deliberative Process / Ex. 5

**EPA considers the loss of jurisdictional surface waters resulting from the groundwater consequences of the 404 discharge to be a regulated secondary impact of the CWA Section 404 action.** Although the Corps has covered these impacts in analogous situations elsewhere in the country, the Corps presently does not agree with EPA's position on this matter for Rosemont Mine.
