LOOP_Joint EPA and LDEQ permit_expired 09_30_2013.pdf
LOOP About Us - history from their website_020817.docx

Brent,

Based on the updated directions this morning, I believe that the RA needs to know that this one is (still) in house ….since there have been recent "meetings" with LDEQ regarding the pending reissuance.

(Bill visited LDEQ ~1/27-28/2017 & LDEQ discussed this facility. 6WQ-P briefed Bill on 2/1/17.)

Louisiana Offshore Oil Port (LOOP), LLC, Deepwater Port Complex, (joint venture of Marathon Pipe Line LLC, Valero Terminaling and Distribution Company, and Shell Oil Company.) (LPDES Permit No. LA0049492, AI No. 4634), The existing wastewater permit which was jointly issued by EPA & LDEQ expired September 30, 2013. EPA and LDEQ are continuing to work together on the proposed reissuance of the permit regarding appropriate permit requirements for brine discharges. This situation is similar to the Strategic Petroleum Reserves under the U.S. Department of Energy, (Big Hill Oil Storage, TX0092827, and Bryan Mound Oil Storage, TX0074012) which EPA reissued with permit requirements for brine discharges in Nov. 2014.

Rich,

I attached the existing joint permit & modification (Page 1 only). Bill signed both "for" Miguel. Also, if anyone needs more info to understand what a very big O&G operation this is, I attached a little history with link to LOOP website. (…maybe Bill could benefit from this general info??)

Thanks

K

Brent,

Sending these to you …just in case.

I did not send these last week because they will be proposed for Wooster's signature as "no-name comment letters."

-

Entergy Louisiana, LLC - Ninemile Point Electric Generating Plant, (LPDES Permit No. LA0003093, AI No. 2841), R6 proposes to issue a letter with comments to LDEQ regarding the proposed reissuance of the Louisiana Pollutant Discharge Elimination System (LPDES) permit by the regulatory due date of February 9, 2017.

Jefferson Parish Department of Sewerage, East Bank Wastewater Treatment Plant, (LPDES Permit No LA0066630, AI No. 19537), R6 proposes to issue a letter with comments to LDEQ regarding the proposed reissuance of the Louisiana Pollutant Discharge Elimination System (LPDES) permit by the regulatory due date of February 10, 2017.

Thanks

K

All…

More guidance on the weekly update below. Please send weekly updates to Brent for compilation and cc your section chief.

Today is Wednesday, so if you have something that you have not sent in for next week, please get it to Brent (and me) ASAP.

Importance: High

Folks: XA needs a weekly report/update about public events where EPA will be speaking or attending in the next month. See immediately below for a sample that David Garcia would like us to use as a model. Additional background information is farther down the thread. The public meeting/event report is due to David each Wednesday at 8:30 am. The other "actions items" report remains due to David each Wednesday at 9:00 a.m.

•□□□□□□□ Action Items (due to David Garcia by 9:00 am Wednesdays): information on memos, letters, FOIAs, permits, important correspondence going out through the next week. Submit information to clarify the action who, what, why and what happens if it does not go out.

•□□□□□□□ Public Event Items (submit input to David Garcia by 8:30 am Wednesdays): provide information on participating in public events

AD's,

Since I don't have a specific format from XA, here is a good format to follow.

•□□□□□□□□ **UIC Conference, February 21-23, Austin Texas**: Brian Graves and Phil Dellinger are on the agenda (see link below), as requested by GWPC, to provide an update on the Region 6 land ban program for hazardous waste disposal wells. Specific topics include status of workload and streamlining measures for processing petitions.

AD's and others,

Sorry for the late notice. Below is a request from XA, requesting information on any public events where EPA employees are either attending or speaking through the month of February. When I get the format being requested I will reach out to you. In the meantime, please start thinking about these events (who, what, when and where). This request should not be confused with the other list of actions you are reporting on through February 10th.

Just to be clear there are two request due tomorrow morning.

•□□□□□□□ Action Items (due to me by 9:00 am): information on memos, letters, FOIAs, permits, important correspondence going out through February 10th. Submit information to clarify the action who, what, why and what happens if it does not go out.

•□□□□□□□ Public Event Items (submit input to me by 8:30 am): provide information on participating in public events

By 10:00am tomorrow (Wednesday, February 1st), I need to collect information from you on any *public* events where our employees will be attending or speaking.

We have already been collecting this information in our weekly reports and will glean the information we have thus far. However, we need you to look further out to the whole month of February so we can populate information for HQ.

I should have more information soon on what the structure of the information is and will share that as soon as I'm able.

Call if any questions. Thanks.

Diane Taheri
