Green/Duwamish River Watershed Pollutant Loading Assessment
Steering Committee

8/22/14 Action Item:

1. **Identify representatives.**
2. **Does this group need a charter?**

Material below from December 10, 2013

Steering Committee

To manage this project, a multi-agency, multi-department Steering Committee will be formed. Its primary roles include:

- Contract and financial management
- Project management
- Dispute resolution

Staff representatives on the Steering Committee will also be expected to attend meetings of the TAC, as Ecology programs are not invited members of the TAC.

The Steering Committee will consist of:

Representing	Management Representative	Staff Representative
Ecology Northwest Regional Office, Sponsor	Josh Baldi, Regional Director, SMT Sponsor	
Ecology Water Quality Program	Kevin Fitzpatrick, Section Manager	Unknown
Ecology Toxics Cleanup Program	Bob Warren, Section Manager Ron Timm, alternate	Mahbub Alam
USEPA Region X, Sponsor		
USEPA Office of Water		Laurie Mann
USEPA OSWER
