Ryan Chouest PowerPoint Bullets for 6/20/10
Operational Period 6/21/2010 Sampling Period

- Since 1350 hrs 06/19/2010 the Ryan Chouest has been sailing on the new course towards Port St. Joe as planned.

- The pattern of increasing and decreasing fluorometer measurements is relatively consistent with the oiling extent for 06/19/2010.

- The Ryan Chouest will continue to make transects NW to SE to collect water/mousse samples at suitable locations. Further trials of the casting system and further sampling/geochemical testing will occur.
