Ocean Veritas PowerPoint Bullets for 6/22/2010
Operational Period: 6/21/2010 Sampling Period

- The crew continues to struggle with the slip ring assembly on the primary CTD; therefore no new casts have been made for the operating period of 6/21/2010. There is no data to report.

- A replacement slip ring assembly to solve the CTD issues is scheduled to arrive at Port Fourchon at 2230hrs on 6/21 and scheduled to be installed at 0600hrs on 6/22.
