Fine with me. Perhaps Bob can work on the case until Erik gets back. Connie

Because of their work on similar matters, Sara has asked if either Bob Peachey or Erik can work on this matter. She knows, of course, that Erik is on detail for two more months.

Subject: Alta Mesa ORC Referral

Hi Katie,

Please forward the following as you see fit.

NEIC conducted a Clean Air Act inspection at Alta Mesa's Little Willow Road Gathering Station and Northwest Gas Processing facilities in New Plymouth, Idaho from July 10 - 11, 2018. The inspection identified

Ex. 7(A)

NEIC: Alta Mesa operates oil and gas wells that are collected at the Little Willow Road Gathering Station. The crude oil and produced water are collected in tanks before they are loaded onto tank trucks for sale and/or disposal. Natural gas condensate and natural gas are sent via separate pipelines approximately 11 miles to Alta Mesa's Northwest Gas Processing (NWGP) facility. The gas is treated and processed at the NWGP facility and then compressed into the transmission pipeline for sale.

40 CFR 60.5365a:
You are subject to the applicable provisions of this subpart if you are the owner or operator of one or more of the onshore affected facilities listed in paragraphs (a) through (j) of this section for which you commence construction, modification, or reconstruction after **September 18, 2015**.

*Affected sources at **Little Willow Road Gathering Station** were issued new permit to construct conditions on **November 18, 2015 and February 22, 2016**, triggering NSPS OOOOa applicability.
11/18/2015 - one compressor engine and one vapor combustor
2/22/2016 - water tanks, oil tanks, pneumatic controllers, and fugitive emissions

*Affected sources at **Northwest Gas Processing** were issued new permit to construct conditions on **November 27, 2017**. Affected sources include compressor engines, condensate storage tanks, fugitive emissions, and pneumatic controllers.
