SF FILE NUMBER 5-3.15 | 1.11 | 8.10

SUMMARY OF COMMUNICATION

West called to ask a variety of questions regarding the NPL nomination of RF. I gave her info from the HRS package. She also had questions on PRP status, what happens next, etc. that I could not answer. I referred her to Jay Silvernale as a contact point on post-listing followup.

One item of note: West mentioned that the site owners received a water permit (NPDES?) last year that included a condition that the tailings be covered. I said I was unaware of this but that the subsequent RI would have to incorporate/reflect the site conditions at the time the study begins.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

Jay should expect a call from West at some point. The NPDES issue probably deserves follow up.
