TO: DAVID SCHALLER

FROM: ROSEMARY BELESS
KERRY GEE
ED OSIKA
UNITED PARK CITY MINES

DATE 7-11-88

TIME 1:00 p

SUBJECT
RICHARDSON FLAT TAILINGS

SF FILE NUMBER
5-3.15

SUMMARY OF COMMUNICATION

I met with the above three individuals, along with Floyd Nichols, Sandra Moreno, and Jay Silvernale. Osika is VP of United Park City Mines, Gee is a geologist with the firm, and Beless is an outside attorney representing the firm. Issues discussed included general NPL rulemaking process; removal-remedial program distinctions; removal efforts to-date; and likely next steps in the remedial process.

We shared the non-docket file on Richardson Flat Tailings with Beless, Gee & Osika.

After a discussion of EPA's PRP search and notice letter process, Beless requested early notice of potential liability — specifically, while the HRS public comment period is still open. No EPA commitment was made to this time frame.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

Floyd Nichols will followup w/ UPCM on removal issues while Jay Silvernale offered to do the same on remedial planning, while noting issues the Branch has with staff and other resources available to get involved with the site at this time.
