EPA - Roscmont - Corps - USFS Meeting 8/7/13
regarding 404 Mitigation

- many of Davidson Canyon parcels previously homesteads, intended to provide connectivity to public lands where possible
  ↳ large Davidson Canyon parcel intended for tribal impacts

[redacted]

- mulberry canyon [redacted]

  ↳ 310 ac parcel, 7.2 ac of drainages & ~32 ac of riparian (Xero & Meso)

- Below Pantano Dam mitigation

[redacted]

- Water Rights for Sonoita Creek Ranch would

[redacted]

- about 1700 AFY, 1700 ac of 404 mitigation lands, overall conservation lands ~4000 ac

- Pima County's letter discussion

[redacted]

- Rosemont: "What additional ideas does EPA have for mitigating? [redacted] every opportunity [redacted]

- Corps: the parcels being proposed in the draft BO is under "deed restrictions", which the corps no longer accepts, so those should be identified as specifically BO mitigation.

[redacted]

- If ILF is not successfully negotiated, then Rosemont might do permitee sponsored mitigation

- Rosemont feels Sonoita parcel could provide up to 160 credits, "even if only 1/2 of those are deemed appropriate, we are getting close to the number we need."

- Me: Quick summary of Air issues PSD $PM_{2.5}$, NOx deposition, visibility impacts to Class I areas

- [redacted]
