Thanks for the information. We have no need to discuss further prior to the request being sent. In New Mexico operators submit completion or recompletion notices to the Oil Conservation Division (OCD) so they don't submit them to NMED/AQB. We can access the records on file at OCD.

Thanks-

Ralph

Subject: EPA Information Request to be sent to Hilcorp

Hi Ralph,

I'm following up on the other matter I mentioned in my voice mail earlier this week,

the information request that EPA's Office of Enforcement and Compliance Assurance is planning to send to Hilcorp. EPA is seeking information re: well completion activities (NSPS OOOOa completion or recompletion event notification, required by 40 CFR §60.5420a(a)(2)), and requirements related to using a separator during well completion activities (40 CFR §60.5375a(a)(1)(iii) requires operators to have a separator onsite at each well affected facility during the entirety of the flowback period for completions and recompletions, except as provided in 40 CFR §60.5375a(a)(1)(iii)(A) through (C)).

The well completions or recompletions took place in San Juan and Rio Arriba counties, NM.

Please let me know if you'd like to discuss this further prior to HQ sending the information request.

Thanks,

Darrin
