Attachments: Hunters Point Press responses March 2 to May 4-2018.docx

Hi –

Here is an updated list of our media responses – March 2 – May 11 (including today's response to Curbed SF).

I think the version in Onedrive isn't complete, so please save this version there instead.

Would you like me to print copies for this morning's 9:30 mtg? how many?

Thanks,
mh

Subject: Request Legal review - Q&As edits

Dear Brianna,

Thanks for your tremendous work on Q&A's. I am attaching the One Drive version that I am working on. That way you can peak at what I'm doing while I'm in progress. I plan to focus on this for now before returning to FOIA request, which is less urgent and requires less brainpower. I am doing the following with Q&A's:

- Filling in some of the facts you requested that I have handy
- I left msgs w/other people re some questions I don't know the answer to. I'm not doing my own research. If they know they'll tell me. Otherwise, let's move on to be efficient.
- Re question UC-1,UC-2, D-2, I think you might have mixed up the Q & the A, so I fixed that
- I'm editing the Cs-137 Mr. Smith hit material a little to be more clear.
- I'm adding more questions that are big picture re Parcel A.
- Later I will look for the Q&A we already did Jan 2017 for Greenaction mtgs to see if we need to add anything.

Michele, to avoid confusion with Brianna's version of Q&A's, I have now renamed the previous file "press responses 4-1 to 5-4 2018." Thank you for offering that Fri morning 7:30 am, you will add the press responses that we gave in March. Even if you see redundancy, I like your suggestion to keep that separate from Brianna's version. So can you add them to the other file? Then could you save it as a new filename that shows the expanded dates? I think it is useful to keep them separated from the rest, even though there is redundancy. Enrique will probably want to know what has already been sent out to the public vs. our own internal recommendations for what to say just in case. It is also something that I can share with externally because it is already public. Michele, I added to the 4/1-4/13 document just the responses we gave to SF Curbed and SF Chron last wk. I realized I might have forgotten some in between in the last 2 wks of April. E.g. maybe Daily Journal? Could you check to see if there are missing responses in April/May?

Thank you all for working so hard to help in this important team effort!

Lily
