Meeting Recap.
San Diego SIP Bump-Up 2008 & 2015 Ozone Standards
CARB, SD APCD & US EPA
May 3, 2019, 2:00 – 3:00 p.m.

Attendees

CARB		SD APCD	US EPA
Ariel Fideldy	Stephanie Parent	Nick Cormier	John Kelly
Jinhyok Heo	Leo Ramirez		Anita Lee
Mark Hixson	Carol Sutkus		Nancy Levin
Nesamani Kalandiyur	Melissa Venecek		Jeff Wehling

1. Continuation of RACT Demonstration with EPA Staff
    a. Discussed:
        i. Moderate 2008 Ozone NAAQS were due in 2017 and EPA is reviewing San Diego's now and will take action on it.
        ii. 2015 RACT SIP – RACT SIP is due no later than 8/3/2020. The Implementation date is no later than 1/1/2023.
        iii. 2008 Ozone SIP Bump-Up – Region 9 staff proposed that development of a table describing the various anticipated RACT items and due dates to be used as a guide until the final rule is published in the Federal Register would be useful. **John, can you work on this or request this from OAQPS?**

2. Update on Milestone Compliance Demonstrations (MCDs) Requirements
    a. OAQPS has not yet provided any further direction on this.
    b. For now, CARB and the District will continue to use South Coast as a model.

3. Section 185 Fee Program and Due Date Requirements
    a. Deadlines will depend on what classification the District bumps up to and whether or not the particular ozone standard is revoked.
    b. The question came up whether a District can implement two programs at once (i.e., for the 75 and 70 ppb standards). It is uncertain.

4. Local Contingency Measures
    a. Current approach is similar to recent EPA-approved San Joaquin Valley Plan, www.govinfo.gov/content/pkg/FR-2019-03-25/pdf/2019-05159.pdf
    b. Need at least one District measure/rule with a trigger.

5. Next San Diego/CARB/US EPA call Friday, August 2, 2019, 2:00 - 3:00 p.m. There will be other calls between the District and CARB between now and then.
