**Subject**: Confirmation for City of Dallas Meeting on Lane Plating Works Inc. Superfund Site

Good morning Paul,

I am happy to share that EPA will be able to staff the community meeting requested for March 7th, 2019, during the planning meeting Councilman Atkins hosted earlier this week. Our attendance is subject to the EPA remaining open through March 7th. We will need to revisit the date if we are subject to another furlough.

As per the group discussion, EPA will give a 15 minute briefing related to the Lane Plating Works Superfund site to explain that contamination is currently limited to on-site, city drinking water is safe, and to provide information about the site moving forward (Superfund process, site sampling etc.). As city and local government officials will host the meeting, we are confident this will provide a positive message regarding the safety of citizens affected by the site.

EPA would also like to request a planning meeting much like the one we had yesterday to discuss meeting logistics and expectations. Please let us know a time and date so that we can move forward with the process.

Thank you for all the flexibility, and we look forward to working with everyone soon.
