Subject: Draft Answers to Lane Plating CAG Info Request

Kenneth,

Please add or revise below before we

Hi Olinka and the Highland Hills Community Action Committee,

I have received a few communications from Paul White regarding some questions you asked him regarding the Community Advisory Group for the Lane Plating Works Superfund site. Kenneth and I spoke with Molly Byers last Thursday, but I would like to repeat some of the information we shared then. It may be easier in the future to contact me directly as it tends to slow down the communication process. Please see the below answers to your inquiry:

1. When is the first CAG meeting?
   The first CAG community meeting is potentially scheduled for late October, 2019.

2. Who are the local residents appointed to the CAG?
   The final list of the CAG will be provided once all members have been confirmed. City Councilpersons from Districts 4, 7 and 9 provided two names from each district. CAG membership was also offered to representatives from state, local and non-government agencies.

3. Are there additional CAG spots open for (non-council appointed) residents?
   CAG's are open to elect and remove members during the entirety of their relationship to the site.

4. Are the meetings going to be open to the public?
   As CAG's are self-regulating, they have the option to meet privately or in a public setting.

5. Is there a new EPA liaison coordinating the CAG?
   The first few CAG meeting will be coordinated by our contracted facilitator, Mr. Michael Lythcott. EPA will also assist with these meetings.

6. When are you going to reveal sampling results?
   EPA plans to release the sampling results in October, 2019, and discuss them at the planned CAG community meeting

7. Has DISD been notified about Lane Plating?
   EPA has coordinated with the Dallas Independent School District regarding site access agreements for our sampling plan. (Kenneth please revise for accuracy)
