RESPONSE OF HAWKER PACIFIC AEROSPACE TO THE SUPPLEMENTAL REQUEST FOR INFORMATION DATED SEPTEMBER 24, 2007

Hawker Pacific Aerospace ("Hawker") hereby responds to the Supplemental Request for Information dated September 24, 2007 issued by the United States Environmental Protection Agency ("U.S. EPA").

U.S. EPA has issued numerous prior requests to Hawker pursuant to CERCLA Section 104(e) relating to the same matter, and each such request was fully and completely responded to by Hawker. Hawker fully responded to Section 104(e) requests issued by U.S. EPA on July 7, 1989. Hawker also submitted responses to 104(e) requests on June 14, 1991 and on June 24, 1992. More recently, Hawker responded on May 8 and June 1, 2006 to a Request for Information dated March 28, 2006. Hawker understands that the September 24, 2007 Supplemental Request for Information seeks additional information referenced in or related to the company's earlier responses. Hawker hereby incorporates its prior objections, claims of confidentiality and responses to the prior requests in this Response to the Supplement Request. To the extent not previously asserted, Hawker expressly reserves, and does not waive by this Response, privileges applicable to settlement communications, attorney work product and attorney-client communications. This Response does not constitute an admission by Hawker that it has contributed to or is responsible for any contamination of the San Fernando Valley Area 1/North Hollywood Superfund Site (the "Site").

Without waiving the foregoing, Hawker further responds as follows:

Supplemental Request No. 1

In its June 1, 2006 104(e) response to Question 15, the Company states that, in addition to its lease with the Wagner Basinger property owners, it holds separate leases with each of the "other five property owners" for the remainder of the buildings, and states, that, upon request, it will provide copies of these leases. Identify the "other five property owners" to which the Company refers, and provide the parcel numbers, acreage, and street addresses for all other properties in the San Fernando Valley ("SFV") at which the Company has operated since 1987. Provide copies of all leases entered into by the Company for property in the SFV, and include all contact information for the property owners.

RESPONSE:

Hawker operates at property commonly referred to as 11310 Sherman Way, Sun Valley, California (the "Facility"). A diagram of the Facility buildings, including street addresses and square footage for each building, is attached to this Response. In addition, Hawker attaches lease agreements for Buildings 1 through 8. These lease agreements identify the owners of the buildings and provide contact information for the owners. Hawker has not operated at any location in the SFV, other than the Facility, since 1987.

Supplemental Request No. 2

In its June 1, 2006 104(e) response to Question 34, the Company refers to a complaint filed by the Los Angeles City Attorney's office in September 2005 regarding the Company's alleged illegal discharge of hazardous substances to the sewer and states that, upon request, it will provide further information to EPA. Provide a detailed explanation of the incident and identify the substances discharged. Provide a copy of the complaint and all related documentation concerning the incident, including all documentation regarding resolution of this matter between the Company the Los Angeles City Attorney.

RESPONSE:

On September 20, 2005, the People of the State of California filed a twelve count Misdemeanor Complaint against Hawker and Erik Johnson, the Company's hazardous waste and maintenance supervisor. A copy of the Complaint is attached. In general, the Complaint alleged that Hawker and Mr. Johnson had illegally disposed of hazardous waste, including soluble nickel, soluble cadmium, and free cyanide, to the Los Angeles publicly owned treatment works ("POTW").

The investigation of the matter revealed that there had been no intentional illegal disposal of hazardous wastes by the Company or Mr. Johnson. Rather, it was determined that a benign plumbing error in the water supply to the Facility's scrubber wash down tank had the potential, although unlikely given the facts, to cause releases to the POTW. Indeed, no actual releases from the Facility to the POTW were ever confirmed. The facts concerning this matter are outlined in correspondence from Hawker's counsel to Ms. Elise Ruden, Deputy Los Angeles City Attorney, dated November 4, 2005 and December 8, 2005. This correspondence and its enclosures are attached as part of this Response. This matter was amicably resolved by a Sentencing Order, dated December 29, 2005, which is also attached. All counts against Mr. Johnson were withdrawn and all counts against the Company were withdrawn, except for Count I concerning an alleged release of soluble nickel to which Hawker pled "no contest" as part of the settlement. A copy of the Sentencing Order is also attached.

During this same time period, soil sampling was conducted at the Facility at the request of U.S. EPA. No samples were found to contain hexavalent chromium in excess of Region 9's soil screening level, and samples exceeding natural background levels were limited to sub-slab shallow soils. Thus, the sampling and earlier vadose zone studies of the area indicate that groundwater (at 300 feet deep) has not been impacted by the Facility. A copy of the Hexavalent Chromium Investigation Report, dated January 28, 2005, was previously submitted to U.S. EPA, but is again provided as part of this Response.

Supplemental Request for Information No. 3

In its June 1, 2006 104(e) response, the Company lists several waste streams that are generated at the Facility ("Facility" being initially defined as both the real property at 11310 Sherman Way and any improvements thereto, and later amended to add other properties, as identified through Company responses) and transported off-site for treatment, disposal, and/or recycling by a licensed transporter. Provide copies of all hazardous waste manifests or other documentation that evidence of the off-site disposal of wastes containing chromium from 1989 to the present.

RESPONSE:

Hawker encloses copies of Facility manifests from 1989 to the present.

Supplemental Request No. 4

In its June 1, 2006 104(e) response, the Company states that Building #7 located at 11252 Sherman Way, was added to the Facility in 1994. Clarify whether Building #7 was newly constructed in 1994 or whether it was an existing structure which was first utilized by the Company in 1994. State whether there have been any operators at Building #7 other than the Company. If so, provide the name, period of operation, and a description of operations for each other operator at Building #7.

RESPONSE:

Building #7 is a metal frame building with metal walls. In 1994, it was brought to the Sherman Way location and assembled on a newly poured foundation. It has been occupied by Hawker since that time.

agents, contractors, employees, affiliates, sublessees or invitees, without obtaining the Landlord's prior written consent, which shall not be unreasonably withheld, delayed or conditioned, except for: those Hazardous Materials listed in Exhibit A, but only to the extent those Hazardous Materials are being directly used in connection with the Tenant's business activities performed on the Leased Premises as permitted under this Section; and/or ordinary office supplies (e.g., copier toner, paper glue, liquid paper, etc. and household cleaning products) in amounts not required to be reported to any governmental authority. Whether or not the Tenant obtains such prior written consent from the Landlord (but without waiving the requirement to obtain such prior written consent), Tenant shall, at the Tenant's sole cost and expense, in its use occupancy, operation or possession of the Leased Premises, comply with all applicable permits and all current and future applicable federal, state and local laws, rules, regulations, ordinances, orders, directives, requirements, covenants, easements and restrictions of record (collectively, the "Environmental Requirements") governing or relating to: (a) environmental conditions on, in, under or about the Leased Premises, including, without limitation, soil and groundwater conditions; (b) the use, generation, handling, manufacture, production, installation, maintenance, storage, treatment, spill, release, transportation, removal and/or disposal of Hazardous Materials; (c) the posting of notices with respect to Hazardous Materials, or the providing of notices to Tenant's employees, contractors and other third parties with respect to Hazardous Materials; (d) the obtaining of all necessary licenses, permits or other authorizations relating to Hazardous Materials; and (e) the filing of all applicable applications, reports, notices, registrations or business plans regarding such Hazardous Materials with the appropriate governmental agencies or authorities. Notwithstanding the foregoing, the Tenant shall not cause or permit any Hazardous Material to be spilled or released in, on, under or about the Leased Premises, including, without limitation, through the plumbing or the industrial sanitary sewer system. The Tenant shall provide the Landlord, upon Landlord's request, with copies of all documents and information that Tenant may now or hereafter hold, including but not limited to permits, registrations, manifests, applications, reports, notices and certificates, evidencing the Tenant's compliance with the Environmental Requirements, and shall promptly upon receipt, notify the Landlord in writing (with copies of any documents involved) of any threatened or actual claim, notice, order, request for investigation or remediation, citation, warning, complaint or report pertaining to or involving a release or alleged release of Hazardous Materials or a failure or alleged failure by the Tenant or the Leased Premises to comply with any of the Environmental Requirements. Tenant shall, within ten (10) business days after the execution of this First Amendment, and on a continuing basis thereafter, provide to Landlord (without waiting for Landlord to so request) copies of Tenant's hazardous materials business plan(s), including annual inventories and any and all updates and amendments thereto, which have been or are in the future provided to any governmental agency pursuant to California Health & Safety Code Sections 25500 et seq. from the commencement date of the Existing Lease through the expiration or other termination of the Lease Term (as modified by Paragraph 3 of this First Amendment).

3.1 Definition: As used in this Lease, the term "Hazardous Materials" means any flammable items, explosives, radioactive materials, hazardous or toxic substances, material or waste or related materials, including any substances defined as or included in the definition of "hazardous substances", "hazardous wastes", "infectious wastes", "hazardous materials" or "toxic substances" now or subsequently regulated under any Environmental

Requirement, including, without limitation, petroleum-based products, printing inks, acids, pesticides, asbestos, and PCBs.

3.2 Duty to Inform the Landlord. If the Tenant knows that a Hazardous Material has come to be located in, on, under or about the Leased Premises in violation of any Environmental Requirement, the Tenant shall promptly give the Landlord written notice thereof, together with a copy of any statement, report, notice, registration, application, permit, business plan, license, claim, order, request for investigation or remediation, action, or proceeding given to, or received from, any governmental authority or private party concerning such Hazardous Material.

3.3 Removal of Hazardous Materials on Lease Termination. Any and all Hazardous Materials that became present in, on, under or about the Leased Premises through the use or occupancy of the Leased Premises by, or otherwise arising out of, or related to, the Tenant or its predecessor entities, their respective agents, affiliates, customers, employees, business associates or assigns shall hereinafter be referred to as "Tenant's Hazardous Materials". Upon expiration of the Term or earlier termination of this Lease, the Tenant shall deliver possession of the Leased Premises, including but not limited to, all related soil and groundwater, to the Landlord free from any Tenant's Hazardous Materials that are present in quantities that violate then existing Environmental Requirements. If after the expiration of the Term or earlier termination of this Lease, the Environmental Requirements change such that additional Tenant's Hazardous Materials become a violation, then Tenant agrees to promptly following Landlord's written request remove such violating Hazardous Materials at Tenant's sole cost and expense in a manner that does not unreasonably disrupt Landlord and any then current tenants of the Leased Premises. To the extent required by the preceding sentences, the Tenant shall cause any such Hazardous Material to be removed from the Leased Premises and properly transported for use, storage or disposal in accordance with all Environmental Requirements. Failure to comply with this Section shall, in addition to constituting an Event of Default under this Lease, constitute (without limiting any cause of action available to the Landlord): (a) a continuing trespass upon the Leased Premises by the Tenant; (b) a continuing nuisance; and (c) at the Landlord's option, a failure to tender possession of the Leased Premises to the Landlord with the result that the Tenant shall be deemed to be a holdover tenant of the Leased Premises until all such Hazardous Materials are removed from the Leased Premises by the Tenant at the Tenant's sole cost and expense in accordance with all Environmental Requirements.

3.4 Inspection by the Landlord. The Landlord, the Landlord's agents, employees, contractors and designated representatives, and/or the holders of any mortgages, deeds of trust or ground leases on the Leased Premises shall have the right to enter the Leased Premises at any time in the case of an emergency, and otherwise upon reasonable advance notice (which shall not be less than two business days) at reasonable times, for the purpose of inspecting the Leased Premises, including conducting an exit audit prior to the termination of the Lease, and verifying compliance by the Tenant with this Lease and all Environmental Requirements, and the Landlord (to the extent reasonable to do so) shall be entitled to employ experts and/or consultants in connection therewith to advise the Landlord with respect to the Tenant's activities, including but not limited to the Tenant's installation, operation, use, monitoring, maintenance, storage, transportation, spill or release of any Hazardous Materials on,

in, under or from the Leased Premises. The costs and expenses of such inspection shall be paid by the Landlord unless the inspection reveals that an Event of Default or a breach of this Lease by the Tenant exists, or unless the inspection is requested or ordered by a governmental authority as the result of any such existing Event of Default or breach. In such case, the Tenant shall upon request reimburse the Landlord or the Landlord's lender or ground lessor, as the case may be, for the reasonable costs and expenses of such inspections.

3.5 Indemnification. The Tenant shall indemnify, defend and hold the Landlord and the Landlord's Parties harmless from all actions (including, without limitation, investigative, remedial or enforcement actions of any kind, and administrative or judicial proceedings and orders or judgments), costs, claims, damages (including punitive damages), expenses (including attorneys', consultants' and experts' fees and court costs), amounts paid in settlement, fines, forfeitures or other civil, administrative or criminal penalties, injunctive or other relief, liabilities or losses arising from a breach of this Article III by the Tenant, its agents, employees, contractors, affiliates, sublessees or invitees.

- The following new Section 4.0.0 Open Book Account, is hereby added:

4.0.0 Open Book Account. The Tenant agrees to pay rent without any deduction or setoff whatsoever. The term "rent" as used in this Lease shall mean rent and all other amounts required to be paid by Tenant under the terms of this Lease. The amount of rent due under this lease shall be the subject of an open book account maintained by Landlord and to that end, rent owing hereunder for any and all periods shall remain open and capable of collection throughout the balance of the Term. Tenant hereby waives the statute of limitations for breach of contract as it relates to the nonpayment of rent, but does not waive the statute of limitations as it relates to an open book account.

- Section 4.0.1 Rent Adjustments is replaced in its entirety by:

The rent shall be increased annually on August 1st (the "Adjustment Date(s)") commencing on August 1, 2007. The adjusted rent as of each Adjustment Date shall be the rent set forth in Section 1.2(b) above, multiplied by a fraction, the numerator of which is the CPI figure (as defined below) for the month preceding the month during which the particular Adjustment Date occurs and the denominator of which is the CPI figure for August 1, 2006. Notwithstanding the foregoing, rent shall increase a minimum of Three Per Cent (3%) on each Adjustment Date. As used herein, the "CPI" means the Consumer Price Index for Urban Wage Earners and Clerical Workers, Los Angeles-Anaheim-Riverside, All Items (1982-1984 = 100) published by the U.S. Department of Labor, Bureau of Labor Statistics (the "Bureau"), or if such index is no longer published, the U.S. Department of Labor's most comprehensive official index then in use that most nearly corresponds to the index named above. If it is calculated from a base different from the base period (1982-1984 = 100), figures used for calculating the adjustment shall first be converted to the base period used under a formula supplied by the Bureau.

- The following new Section 4.0.2 Net Rental, is hereby added:

4.0.2 Net Rental. It is the purpose and intent of Landlord and Tenant that the Rent shall be absolutely net to Landlord, so that this Lease shall yield, net, to Landlord, the Base Rent and any other Rent specified in this Lease, in each year during the term of this Lease, and the Tenant agrees to pay as Rent any and all other costs, expenses, taxes, imposts and charges whether ordinary or extraordinary, foreseen or unforeseen, in connection with the realty and personalty leased hereunder, and in connection with the operation of the Tenant's business at the Leased Premises and the maintenance and repair of the Leased Premises and of the furnishings and equipment therein contained. The Landlord shall not be required to furnish any services or facilities or to make any repairs or alterations in or to the Leased Premises, Tenant hereby assuming the full and sole responsibility for the condition, operation, repair, replacement, maintenance and management of the Leased Premises whether interior or exterior, and whether structural or otherwise.

- Section 6.0 is replaced in its entirety by:

6.0 Kinds and Amounts. Tenant shall carry and maintain, at its sole cost and expense, the types, amounts and forms of insurance listed below. Concurrently with executing this First Amendment, Tenant shall furnish Landlord with reasonable evidence that the provisions herein have been complied with:

(a) Commercial General Liability Insurance against claims for bodily injury, personal injury and property damage based upon, involving or arising out of the Tenant's occupation, use or maintenance of the Leased Premises and all areas appurtenant to the Leased Premises, and the Tenant's business operations. Such insurance shall be on an occurrence basis providing coverage in an amount not less than Two Million Dollars ($2,000,000.00) for each occurrence and Five Million Dollars ($5,000,000.00) for all occurrences each year. Such insurance shall include an "Additional Insured -Managers or Lessors of Leased Premises" endorsement and contain the "Amendment of the Pollution Exclusion" endorsement for damage caused by heat, smoke or fumes from a hostile fire. The policy shall not contain any intra-insured exclusions as between insured persons or organizations, but shall include coverage for liability assumed under its Lease as an "insured contract" for the performance of the Tenant's indemnity obligations under this Lease.

(b) Insurance covering the buildings and improvements against loss or damage by fire and against loss or damage by other risks now or hereafter embraced by "Extended Coverage" but in any event in an amount not less than the then Full Replacement Cost.

(c) Property Damage Insurance covering all the Tenant's furniture, trade fixtures, office equipment, merchandise and other personal property in the Leased Premises and all Alterations and Tenant Improvements in the Leased Premises. This insurance should be an "all-risk" policy covering the full replacement cost of the items covered and including vandalism, malicious mischief, earthquake and sprinkler leakage coverage.

(d) Rent insurance against loss of rent due to fire and the risks now or hereafter embraced by Extended Coverage for the full rental value of the Premises for a minimum of one (1) year, and the full rental value shall include the Net Rental and any additional Rent including real estate taxes and water and sewer charges payable under the terms of this Lease. Said insurance shall provide that in the event the Lease is terminated by reason of an insured loss, the period of indemnity for such coverage shall be extended beyond the date of the completion of repairs or replacement of the Premises, to provide for one full year's loss of Rent from the date of any such loss. Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected Rent otherwise payable by Tenant, for the next twelve (12) month period. Tenant shall be liable for any deductible amount in the event of such loss.

(e) Workers' Compensation Insurance or other similar insurance pursuant to all applicable state and local statutes and regulations.

- The following new sentence is hereby added to the end of Section 7.0 Partial Damage -- Insured:

"If Tenant is required to maintain such an insurance policy and does not, then Tenant shall be liable for the amount of such insurance plus any deductibles".

- Section 7.4(a) Abatement of Rent is replaced in its entirety by:

Provided Landlord receives an equivalent amount of business interruption insurance, during the period that the Tenant is deprived of the damaged portion of the Leased Premises, and provided the damage is not due to the fault or negligence of the Tenant or its agents, Rent shall be reduced by the ratio that the rentable square footage of the Leased Premises damaged bears to the total rentable square footage of the Leased Premises.

- The following new Sections to Article VII are hereby added:

7.7 Restricted Entry to Leased Premises. In the event of earthquake or other casualty that may affect the safety of persons or property in the Leased Premises, the Landlord shall request an inspection of the Leased Premises by appropriate governmental inspectors as soon as possible. Entry into the Leased Premises by the Tenant, its employees, guests and contractors in a nondiscriminatory manner shall be restricted to the extent that such inspectors so require. The decision of any appropriate governmental inspector regarding safe entry shall be binding on the parties unless subsequently amended or revoked.

7.8 The Tenant's Personal Property. The Tenant shall be solely responsible for all costs of repairs or replacements of the Tenant's personal property, including without limitation any alterations or improvements constructed or installed by the Tenant, resulting from fire, earthquake or other casualty.

7.9 Waiver of Statutes. The provisions of this Lease, including this Article 7, constitute an express agreement between the Landlord and the Tenant with respect to

any and all damage to, or destruction of, all or any part of the Leased Premises, and any statute or regulation of the State of California, including, without limitation, Sections 1932 and 1933 of the California Civil Code, with respect to any rights or obligations concerning damage or destruction in the absence of an express agreement between the parties, and any other statute or regulation, now or hereafter in effect, shall have no application to this Lease or any damage or destruction to all or any part of the Leased Premises.

- The following new section is hereby added at the end of Section 9.0 Maintenance:

The Tenant, in keeping the Leased Premises in good order, condition and repair, shall exercise and perform good maintenance practices, specifically including the procurement and maintenance of the service contracts required below. The Tenant's obligations shall include restorations, replacements [open] or renewals when necessary to keep the Leased Premises and all improvements thereon or a part thereof in good order, condition and state of repair. The Tenant shall, at the Tenant's sole expense, maintain itself or shall procure and maintain contracts, with copies to the Landlord, in customary form and substance for, and with contractors specializing and experienced in the maintenance of the following equipment and improvements, if any, if and when installed on the Leased Premises: (a) HVAC equipment; (b) boiler, and pressure vessels; (c) fire extinguishing systems, including fire alarm and/or smoke detection; (d) landscaping and irrigation systems; (e) roof covering and drains; (f) driveways and parking lots; (g) clarifiers; (h) basic utility feeds to the perimeter of the Leased Premises; and (i) any other equipment, if reasonably required by the Landlord.

- Section 9.1(a) is replaced in its entirety by:

9.1(a) Alterations. Subject to the restrictions in this paragraph, the Tenant is responsible for all redecorating, remodeling, alterations and painting of the Leased Premises during the Term. The Tenant may not make any improvements, alterations, additions or changes to the Leased Premises (collectively, the "Alterations") without the prior written consent of the Landlord, which consent shall be requested by the Tenant not less than thirty (30) days prior to the planned commencement of such Alterations and which consent shall not be unreasonably withheld by the Landlord. Landlord may disapprove of any alterations that would increase the use, amount or exposure to, Hazardous Materials in its sole and absolute discretion. The Tenant may, however, make non-structural Alterations to the interior of the Leased Premises (excluding the roof), as long as they are not visible from the outside, do not involve puncturing, relocating or removing the roof or any existing walls, and the cumulative cost thereof during the term of this Lease (as it may be extended) does not exceed $50,000 in any particular instance or $100,000 in the aggregate. Notwithstanding the foregoing, without Landlord's consent, which may be withheld in Landlord's sole an absolute discretion, Tenant shall not install any additional equipment that involves the use of Hazardous Materials for purposes of expanding production. All or any part of the Alterations, whether made with or without the consent of the Landlord, shall, at the election of the Landlord, either be removed by the Tenant at the Tenant's sole cost and expense before the expiration of the Term or shall remain upon the Leased Premises and be surrendered therewith at the expiration of the Term or earlier termination of this Lease as the property of the Landlord. If the Landlord requires the removal of all or part of any Alterations,

the Tenant, at the Tenant's sole cost and expense, shall repair any damage to the Leased Premises caused by such removal. If the Tenant fails to remove the Alterations upon the Landlord's request, then the Landlord may (but shall not be obligated to) remove them and the cost of removal and repair of any damage together with all other damages, including holdover rent, which the Landlord may suffer by reason of the failure of the Tenant to remove the Alterations, shall be charged to the Tenant and paid by the Tenant upon demand. Notwithstanding the foregoing, however, with respect to all future Alterations desired by Lessee and consented to in writing by Lessor, Lessor shall not have the right to require Lessee to remove them at Lease expiration or termination unless Lessor reserves such right at the time that Lessor consents to the installation of such Alterations.

- The following is hereby added to the end of Section 9.2 Surrender:

Tenant shall have the right to remove at Tenant's sole cost and expense, upon any termination or expiration of the Lease, all its machinery, trade fixtures and equipment, including, without limitation, its plating lines, its storage tanks, its overhead cranes, its ovens and any other equipment associated therewith. Tenant shall repair, at Tenant's sole cost and expense, all damages resulting from any such removal, including, without limitation, patching and filling holes and repairing any structural damage, and shall leave the floors in a uniformly leveled and broom-clean condition.

At Landlord's option, Tenant shall remove all plating lines, storage, plating and processing tanks, their respective concrete containments and related materials and systems at Tenant's sole cost and expense and remove any Hazardous Materials discovered in connection therewith that then violate Environmental Requirements. Tenant shall repair, at Tenant's sole cost and expense, all damages resulting from any such removal, including, without limitation, patching and filling holes and repairing any structural damage, and shall leave the floors in a uniformly leveled and broom-clean condition. This means, among other things, that the Landlord has the option to require Tenant to remove all Alterations (provided new ones are so specified), including those installed in connection with the new plating lines in Building 2; provided, however, that Tenant shall not be required (a) to remove the crane system in Building Three that was installed by a third party prior to Tenant's first occupancy of the Lease Premises, or (b) to fill in the trench that contains the plating and processing tanks in Building Two, though it shall be required to remove the tanks and their respective concrete containments therein and to clean such trench once such tanks have been removed. Notwithstanding anything to the contrary expressed or implied herein, Tenant shall have no removal or clean-up obligations upon any termination or expiration of this Lease other than those set forth in this Section 9.2

- The following new Sections to Article IX are hereby added:

9.4 Compliance with Codes. The Tenant shall construct such Alterations and perform such repairs in conformance with any and all applicable rules and regulations of any federal, state, county or municipal code, ordinance or law, pursuant to a valid building permit issued by the applicable municipality and in conformance with the Landlord's construction rules and regulations. All work with respect to any Alterations must be done in a good and workmanlike manner and diligently prosecuted to completion to the end that the Leased Premises shall at all times be a complete unit except during the period of work. Upon

completion of any Alterations, the Tenant agrees to cause a Notice of Completion to be recorded in the Office of the Recorder of the county in which the Leased Premises are located in accordance with Section 3093 of the California Civil Code or any successor statute, and the Tenant shall deliver to the Landlord a reproducible copy of the "as built" drawings of the Alterations.

9.5 Builder's All Risk Insurance. In the event that the Tenant makes any Alterations, the Tenant agrees to carry "Builder's All Risk" insurance in an amount approved by the Landlord covering the construction of such Alterations, and such other insurance as the Landlord may require, it being understood and agreed that all of such Alterations shall be insured by the Tenant pursuant to Article VI of this Lease immediately upon completion thereof. In addition, the Landlord may, in its discretion, require the Tenant to obtain a lien and completion bond or some alternate form of security satisfactory to the Landlord in an amount sufficient to insure the lien-free completion of such Alterations and naming the Landlord a co-obligee.

- The following new Sections to Article X are hereby added:

10.1 The Tenant Remains Primarily Liable Upon Transfer. If the Landlord consents to any proposed assignment, transfer, mortgage or otherwise encumber this Lease or sublet or rent (or permit a third party to occupy or use) (collectively, a "Transfer"), the Tenant shall remain liable under this Lease. Neither the consent by the Landlord to any Transfer nor the collection or acceptance by the Landlord of rent from such assignee, subtenant or occupant shall be construed as a waiver or release of the Tenant from the terms and conditions of this Lease or relieve the Tenant or any subtenant, assignee or other party from obtaining the consent in writing of the Landlord to any further Transfer.

10.2 Assignment of Rents. The Tenant hereby assigns to the Landlord the rent and other sums due from any subtenant, assignee or other occupant of the Leased Premises and hereby authorizes and directs each such subtenant, assignee or other occupant to pay such rent or other sums directly to the Landlord; provided, however, that until the occurrence of an Event of Default under this Lease, the Tenant shall have the license to continue collecting such rent and other sums. Upon an Event of Default under this Lease, the Landlord shall have the right to instruct any or all such subtenants, assignees or other occupants to pay such rent or other sums directly to the Landlord, and the Tenant shall cooperate in causing such rent or other sums to be paid directly to the Landlord.

10.3 The Landlord's Costs in Giving Consent. If the Landlord consents to a transfer under this Article, the Tenant will pay the Landlord's reasonable processing costs and reasonable attorneys' fees incurred in giving such consent.

10.4 Excess Rent. The Tenant will pay to the Landlord as additional rent promptly upon receipt fifty percent (50%) of any rent or other consideration received in any proposed transfer exceeding the total rent payable under this Lease after deduction of the Tenant's reasonable costs for the Tenant Improvements and free rent concessions (prorated by

the ratio that the assignment or sublease term and square footage bears to the term and square footage of this Lease).

10.5 Transfer of Landlord's Interest. The Landlord has the right to transfer all or any portion of its interest in the Leased Premises and in this Lease and the Tenant agrees that in the event of any such transfer and a transfer of the Security Deposit, the Landlord shall automatically be released from all liability under this Lease and the Tenant agrees to look solely to such transferee for the performance of the Landlord's obligations hereunder after the date of such transfer. The Tenant further acknowledges that the Landlord may assign its interest in this Lease to a mortgage lender as additional security and agrees that such an assignment shall not release the Landlord from its obligations hereunder and that the Tenant shall continue to look to the Landlord for the performance of its obligations hereunder.

- Section 13.0 is replaced in its entirety by:

13.0 Tenant's Indemnity. The Tenant shall indemnify, protect, defend and hold the Landlord, its partners, trustees, ancillary trustees, and lenders and their respective officers, directors, shareholders, members, partners, beneficiaries, agents, servants, employees, independent contractors, attorneys, successors and assigns (the "Landlord's Parties") harmless from and against any and all claims, loss of rents and/or damages, costs, liens, judgments, penalties, loss of permits, attorneys' and consultants' fees, expenses and/or liabilities, except those caused by the Landlord's or any Landlord Party's gross negligence or willful misconduct, arising out of, resulting from, or occurring in connection with: (a) any accident, injury, death, loss or damage to any person or to any property including the person and property of the Tenant and its employees, officers, agents, contractors, guests, licensees, invitees and all other persons at any time in the Leased Premises or the common areas, (b) the occupancy or use of the Leased Premises by the Tenant, (c) the conduct of the Tenant's business ; (d) the breach by the Tenant of any obligation, covenant, representation or warranty contained in this Lease, including, without limitation, any breach by Tenant of its obligations under Article III hereof, or (e) any act, omission or negligence of the Tenant or any employee, officer, guest, licensee or invitee of the Tenant or of any agent or contractor of the Tenant or of any subtenant or subtenant's agents, employees, contractors or invitees. The foregoing shall include, but not be limited to, the defense or pursuit of any claim or any action or proceeding involved therein, and whether or not (in the case of claims made against the Landlord) litigated and/or reduced to judgment. In case any action or proceeding is brought against the Landlord by reason of any of the foregoing matters, the Tenant upon notice from the Landlord shall defend such action or proceeding at the Tenant's expense by counsel reasonably satisfactory to the Landlord, and the Landlord shall cooperate with the Tenant in such defense at the Tenant's sole cost and expense. The Landlord need not have first paid any such claim in order to be so indemnified.

- The last paragraph of Section 17.0 (on page 13 of the Lease) is replaced in its entirety by:

17.0.1 The Landlord's Remedies. Upon the occurrence of an event of default ("Event of Default"), the Landlord, at its option, without further notice or demand to the Tenant, shall have, in addition to all other rights and remedies provided in this Lease, at law or in

equity, the option to pursue any one or more of the following remedies, each and all of which shall be cumulative and nonexclusive, without any notice or demand whatsoever:

17.0.1.1 The Landlord shall have the right to terminate this Lease, in which event the Tenant shall immediately surrender the Leased Premises to the Landlord, and if the Tenant fails to do so, the Landlord may, without prejudice to any other remedy which it may have for possession or arrearages in rent, enter upon and take possession of the Leased Premises and expel or remove the Tenant and any other person who may be occupying the Leased Premises or any part thereof, without being liable for prosecution or any claim or damages therefor; and the Landlord may recover from the Tenant the following:

(i) The worth at the time of award of any unpaid rent which had been earned at the time of such termination;

(ii) The worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Tenant proves could have been reasonably avoided;

(iii) The worth at the time of award of the amount by which the unpaid rent for the balance of the Term after the time of award exceeds the amount of such rental loss that the Tenant proves could be reasonably avoided;

(iv) Any other amount necessary to compensate the Landlord for all the detriment proximately caused by the Tenant's failure to perform its obligations under this Lease or which in the ordinary course of events would be likely to result therefrom, specifically including, but not limited to, brokerage commissions and advertising expenses incurred, expenses of remodeling the Leased Premises or any portion thereof for a new tenant, whether for the same or a different use, and any special concessions made to obtain a new tenant; and

(v) At the Landlord's election, such other amounts in addition to or in lieu of the foregoing as may be permitted from time to time by applicable law.

The term "rent" as used in this Section 17.0.1 shall be deemed to be and to mean all sums of every nature required to be paid by the Tenant pursuant to the terms of this Lease, whether to the Landlord or to others. As used in Sections 17.0.1.1(i) and (ii) above, the "worth at the time of award" shall be computed by allowing interest at the rate set forth in Section 17.0.3, below, but in no case greater than the maximum amount of such interest permitted by law. As used in Section 17.0.1.1(iii) above, the "worth at the time of award" shall be computed by discounting such amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of award plus one percent (1%).

17.0.1.2 The Landlord shall have the remedy described in California Civil Code Section 1951.4 (lessor may continue lease in effect after lessee's breach and abandonment and recover rent as it becomes due, if lessee has the right to sublet or assign,

subject only to reasonable limitations). Accordingly, if the Landlord does not elect to terminate this Lease on account of any default by the Tenant, the Landlord may, from time to time, without terminating this Lease, enforce all of its rights and remedies under this Lease, including the right to recover all rent as it becomes due.

17.0.2 The Landlord's Rights With Respect to Subleases. Whether or not the Landlord elects to terminate this Lease on account of any default by the Tenant, as set forth in this Article XVII, in the event of a default by Tenant the Landlord shall have the right to terminate any and all subleases, licenses, concessions or other consensual arrangements for possession entered into by the Tenant and affecting the Leased Premises or may, in the Landlord's sole discretion, succeed to the Tenant's interest in such subleases, licenses, concessions or arrangements. In the event of the Landlord's election to succeed to the Tenant's interest in any such subleases, licenses, concessions or arrangements, the Tenant shall, as of the date of notice by the Landlord of such election, have no further right to or interest in the rent or other consideration receivable thereunder.

17.0.3 Late Charge. If the Tenant fails to pay any Rent within five (5) days after the Rent becomes due and payable, a late charge of five percent (5%) of the amount of overdue Rent shall automatically, without notice, accrue and be due and owing on the open book account. In addition, any late Rent payment and/or late charge shall automatically, without notice, bear interest from the date that Rent became due and payable to the date of payment by the Tenant at the interest rate of ten percent (10%) simple interest per annum, provided that in no case shall such rate be higher than the highest rate permitted by applicable law. Late charges and interest shall be paid within two (2) days after written demand from the Landlord, which demand may occur any time during the Term or prior to the expiration of the period attributable to the applicable statute of limitations for an open book account. If a rent check is returned for insufficient funds or otherwise is not accepted by the Landlord's bank, then in addition to other remedies, the Landlord may impose an appropriate fee which shall be paid by the Tenant upon receipt of written demand, and the Landlord may require that subsequent payments of rent be made by certified checks.

- Section 18.11 is hereby deleted.

- The following new Sections to Article XVIII are hereby added:

18.14 Estoppel Certificate. The Tenant shall at any time upon not less than ten (10) days prior written notice from the Landlord execute, acknowledge and deliver to the Landlord a statement in (i) certifying that this Lease is unmodified and in full force and effect (or, if modified, stating the nature of such modification and certifying that this Lease, as so modified, is in full force and effect) and the date to which the rent and other charges are paid in advance, if any, and (ii) acknowledging that there are not, to the Tenant's knowledge, any uncured Landlord defaults, or specifying such defaults if any are claimed. Any such statement may be conclusively relied upon by a prospective purchaser or encumbrancer of the Leased Premises. The Tenant's failure to deliver this statement within such time shall be conclusive upon the Tenant that (i) that this Lease is in full force, without modification; (ii) there are no uncured defaults in the Landlord's performance known to the Tenant; and (iii) not more than one

month's rent has been paid in advance. If the Landlord desires to finance or refinance the Leased Premises, or any part thereof, the Tenant agrees to deliver to any lender designated by the Landlord such financial statements of the Tenant as may be reasonably required by that lender, including the past three years' financial statements. All such financial statements shall be received by the Landlord in confidence and shall be used only for the specified purposes.

18.15 Exculpation Of the Landlord. Except as provided in ARTICLE XIX, it is expressly understood and agreed that notwithstanding anything in this Lease to the contrary and notwithstanding any applicable law to the contrary, the liability of the Landlord hereunder (including any successor landlord) and any recourse by the Tenant against the Landlord shall be limited solely and exclusively to the interest of the Landlord in and to the Leased Premises, and neither the Landlord nor any of the Landlord's Parties, shall have any personal liability therefor and the Tenant hereby expressly waives and releases such personal liability on behalf of itself and all persons claiming by, through or under the Tenant.

18.16 Holding Over. In the event that the Tenant shall not immediately surrender the Leased Premises to the Landlord on the expiration date of the Term or earlier termination of this Lease the Tenant shall be deemed to be a month-to-month tenant upon all of the terms and provisions of this Lease, except the monthly Rent shall be (a) for the first two months, 120% of the monthly rent in effect during the last month of the Term, and (b) thereafter 150% of such monthly rent. Holdover rent for the first two months of any holdover shall be on a per diem basis. If the Tenant shall hold over after the expiration date of the Term or earlier termination of this Lease, and the Landlord shall desire to regain possession of the Leased Premises, then the Landlord may forthwith re-enter and take possession of the Leased Premises by any legal process in force in the State of California. The Tenant shall indemnify the Landlord against all liabilities and damages sustained by the Landlord by reason of such holding over.

- Article XIX is hereby deleted and replaced in its entirety by:

XIX. Option to Renew.

19.1 Option. Provided that Tenant is not in material default under this Lease either at the time this option is exercised or at the time the Option Term commences, and provided that Tenant has not defaulted in the payment of Rent (i.e., failed to pay Rent when due or within any applicable cure periods) more than three times during the term of this Lease, Tenant shall have one (1) option (the "Option") to renew the term of this Lease for an additional five years (5) years (the "Option Term"), on all of the same terms and conditions as set forth in the Lease except as otherwise provided in this Section 19. If Tenant is in material default under this Lease either at the time the Option is exercised or at the time the Option Term commences, or if Tenant has defaulted in the payment of Rent more than three times during the term of this Lease, the Option shall be void and Tenant shall have no rights under this Section 19.

19.2 Exercise of the Option. To exercise the Option, Tenant shall provide written notice thereof to Landlord not less than 180 days before the end of the initial Lease term.

19.3 Rent During Option Term. Rent during the Option Term shall be the then fair market rental value of the Premises, but in no event less than Rent in effect immediately prior to the start of the Option Term. Fair market rental value shall be determined by the Landlord. If Tenant believes that this is an inaccurate determination of fair market rental value, Tenant shall have the right to have fair market rental value determined by appraisal. If Tenant elects to have an appraisal, each party shall appoint an appraiser, and the Rent for the Option Term shall be the average of the two appraisers' determination of fair market rent, but in no event less than Rent in effect immediately prior to the start of the Option Term. Each party shall pay the cost of its own appraiser.

4. Ratification. Except as specifically amended by this Amendment, the Existing Lease shall continue in full force and effect without modification.

(c) The consent of Lessor to any assignment or subletting shall not constitute a consent to any subsequent assignment or subletting by Lessee or to subsequent or successive assignment or subletting by the sublessee. Lessee hereby irrevocably authorizes and directs any ch sublessee, upon receipt of a written notice from Lessor stating that a Breach exists in the performance of Lessee's obligations under this Lease, to pay to ssor the rents and other charges due and to become due under the sublease. Sublessee shall rely upon any such statement and request from Lessor and all pay such rents and other charges to Lessor without any obligation or right to inquire as to whether such Breach exists and notwithstanding any notice om or claim from Lessee to the contrary. 3. **Default; Breach; Remedies.**

13.1 **Default; Breach.** Lessor and Lessee agree that if an attorney is consulted by Lessor in connection with an adjudicated Lessee Default or Breach (as hereinafter defined), $350.00 is a reasonable minimum sum per such occurrence for legal services and costs in the preparation and service of a notice of Default, and that

the subordination or non-subordination of this Lease per Paragraph 30, (vi) the guaranty of the performance of Lessee's obligations under this Lease if required under Paragraphs 1.11 and 37, (vii) the execution of any document requested under Paragraph 42 (easements), or (viii) any other documentation or information which Lessor may reasonably require of Lessee under the terms of this Lease, where any such failure continues for a period of ten (10) days following written notice by or on behalf of Lessor to Lessee.

(d) A Default by Lessee as to the terms, covenants, conditions or provisions of this Lease, or of the rules adopted under Paragraph 40 hereof, that are to be observed, complied with or performed by Lessee, other than those described in subparagraphs (a), (b) or (c), above, where such Default continues for a period of thirty (30) days after written notice thereof by or on behalf of Lessor to Lessee; provided, however, that if the nature of Lessee's Default is such that more than thirty (30) days are reasonably required for its cure, then it shall not be deemed to be a Breach of this Lease by Lessee if Lessee commences such cure within said thirty (30) day period and thereafter diligently prosecutes such cure to completion.

(e) The occurrence of any of the following events: (i) The making by lessee of any general arrangement or assignment for the benefit of creditors; (ii) Lessee's becoming a "debtor" as defined in 11 U.S.C. §101 or any successor statute thereto (unless, in the case of a petition filed against Lessee, the same is dismissed within sixty (60) days); (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where possession is not restored to Lessee within thirty (30) days; or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where such seizure is not discharged within thirty (30) days; provided, however, in the event that any provision of this subparagraph (e) is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

(f) The discovery by Lessor that any financial statement given to Lessor by Lessee or any Guarantor of Lessee's obligations hereunder was materially false.

(g) If the performance of Lessee's obligations under this Lease is guaranteed: (i) the death of a guarantor, (ii) the termination of a guarantor's liability with respect to this Lease other than in accordance with the terms of such guaranty, (iii) a guarantor's becoming insolvent or the subject of a bankruptcy filing, (iv) a guarantor's refusal to honor the guaranty, or (v) a guarantor's breach of its guaranty obligation on an anticipatory breach basis, and Lessee's failure, within sixty (60) days following written notice by or on behalf of Lessor to Lessee of any such event, to provide Lessor with written alternative assurance or security, which, when coupled with the then existing resources of Lessee, equals or exceeds the combined financial resources of Lessee and the guarantors that existed at the time of execution of this Lease.

13.2 **Remedies.** If Lessee fails to ** commence to perform any affirmative duty or obligation of Lessee under this Lease, within ten (10) days after written notice to Lessee (or in case of an emergency, without notice), Lessor may at its option (but without obligation to do so), perform such duty or obligation on Lessee's behalf, including but not limited to the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits or approvals. The costs and expenses of any such performance by Lessor shall be due and payable by Lessee to Lessor upon invoice therefor. If any check given to Lessor by Lessee shall not be honored by the bank upon which it is drawn, Lessor, at its option, may require all future payments to be made under this Lease by Lessee to be made only by cashier's check. In the event of a Breach of this Lease by Lessee, as defined in Paragraph 13.1, with or without further notice or demand, and without limiting Lessor in the exercise of any right or remedy which Lessor may have by reason of such Breach, Lessor may:

(a) Terminate Lessee's right to possession of the Premises by any lawful means, in which case this Lease and the term hereof shall terminate and Lessee shall immediately surrender possession of the Premises to Lessor. In such event Lessor shall be entitled to recover from Lessee: (i) the worth at the time of the award of the unpaid rent which had been earned at the time of termination; (ii) the worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Lessee proves could have been reasonably avoided; (iii) the worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that the Lessee proves could be reasonably avoided; and (iv) any other amount necessary to compensate Lessor for all the detriment proximately caused by the Lessee's failure to perform its obligations under this Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys' fees, and that portion of the leasing commission paid by Lessor applicable to the unexpired term of this Lease. The worth at the time of award of the amount referred to in provision (iii) of the prior sentence shall be computed by discounting such amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of award plus one percent (1%). Efforts by Lessor to mitigate damages caused by Lessee's Default or Breach of this Lease shall not waive Lessor's right to recover damages under this Paragraph. If termination of this Lease is obtained through the provisional remedy of unlawful detainer, Lessor shall have the right to recover in such proceeding the unpaid rent and damages as are recoverable therein, or Lessor may reserve therein the right to recover all or any part thereof in a separate suit for such rent and/or damages. If a notice and grace period required under subparagraphs 13.1(b), (c) or (d) was not previously given, a notice to pay rent or quit, or to perform or quit, as the case may be, given to Lessee under any statute authorizing the forfeiture of leases for unlawful detainer shall also constitute the applicable notice for grace period purposes required by subparagraphs 13.1(b), (c) or (d). In such case, the applicable grace period under subparagraphs 13.1(b), (c) or (d) and under the unlawful detainer statute shall run concurrently after the one such statutory notice, and the failure of Lessee to cure the Default within the greater of the two such grace periods shall constitute both an unlawful detainer and a Breach of this Lease entitling Lessor to the remedies provided for in this Lease and/or by said statute.

(b) Continue the Lease and Lessee's right to possession in effect (in California under California Civil Code Section 1951.4) after Lessee's Breach and abandonment and recover the rent as it becomes due, provided Lessee has the right to sublet or assign, subject only to reasonable limitations. See Paragraphs 12 and 36 for the limitations on assignment and subletting which limitations Lessee and Lessor agree are reasonable. Acts of maintenance or preservation, efforts to relet the Premises, or the appointment of a receiver to protect the Lessor's interest under the Lease, shall not constitute a termination of the Lessee's right to possession.

(c) Pursue any other remedy now or hereafter available to Lessor under the laws or judicial decisions of the state wherein the Premises are located.

(d) The expiration or termination of this Lease and/or the termination of Lessee's right to possession shall not relieve Lessee from liability under any indemnity provisions of this Lease as to matters occurring or accruing during the term hereof or by reason of Lessee's occupancy of the Premises.

~~13.3 Inducement Recapture In Event Of Breach. Any agreement by Lessor for free or abated rent or other charges applicable to the Premises, or for~~ the giving or paying by Lessor to or for Lessee of any cash or other bonus, inducement or consideration for Lessee's entering into this Lease, all of which concessions are hereinafter referred to as "Inducement Provisions," shall be deemed conditioned upon Lessee's full and faithful performance of all of the terms, covenants and conditions of this Lease to be performed or observed by Lessee during the term hereof as the same may be extended. Upon the occurrence of a Breach of this Lease by Lessee, as defined in Paragraph 13.1, any such inducement Provision shall automatically be deemed deleted from this Lease and of no further force or effect, and any rent, other charge, bonus, inducement or consideration theretofore abated, given or paid by Lessor under such an Inducement Provision shall be immediately due and payable by Lessee to Lessor, and recoverable by Lessor as additional rent due under this Lease, notwithstanding any subsequent cure of said Breach by Lessee. The acceptance by Lessor of rent or the cure of the Breach which initiated the operation of this Paragraph shall not be deemed a waiver by Lessor of the provisions of this Paragraph unless specifically so stated in writing by Lessor at the time of such acceptance.

~~13.4 Late Charges. Lessee hereby acknowledges that late payment by Lessee to Lessor of rent and other sums due hereunder will cause Lessor to incur~~ costs not contemplated by this Lease, the exact amount of which will be extremely difficult to ascertain. Such costs include, but are not limited to, processing and accounting charges, and late charges which may be imposed upon Lessor by the terms of any ground lease, mortgage or trust deed covering the Premises. Accordingly, if any installment of rent or any other sum due from Lessee shall not be received by Lessor or Lessor's designee within five (5) days after such amount shall be due, then, without any requirement for notice to Lessee, Lessee shall pay to Lessor a late charge equal to six percent (6%) of such overdue amount. The parties hereby agree that such late charge represents a fair and reasonable estimate of the costs Lessor will incur by reason of late payment by Lessee. Acceptance of such late charge by Lessor shall in no event constitute a waiver of Lessee's Default or Breach with respect to such overdue amount, nor prevent Lessor from exercising any of the other rights and remedies granted hereunder. In the event that a late charge is payable hereunder, whether or not collected, for three (3) consecutive installments of Base Rent, then notwithstanding Paragraph 4.1 or any other provision of this Lease to the contrary, Base Rent shall, at Lessor's option, become due and payable quarterly in advance.

13.5 **Breach by Lessor.** Lessor shall not be deemed in breach of this Lease unless Lessor fails within a reasonable time to perform an obligation required to be performed by Lessor. For purposes of this Paragraph 13.5, a reasonable time shall in no event be less than thirty (30) days after receipt by Lessor, and by the holders of any ground lease, mortgage or deed of trust covering the Premises whose name and address shall have been furnished Lessee

...mbursed therefor by the condemning authority. Lessee shall be responsible for the payment of any amount in excess of such net severance damage ...quired to complete such repair.

5. **Broker's Fee.**

15.1 The Brokers named in Paragraph 1.10 are the procuring causes of this Lease.

15.2 Upon execution of this Lease by both Parties, Lessor shall pay to said Brokers jointly, or in such separate shares as they may mutually designate in ...iting, a fee as set forth in a separate written agreement between Lessor and said Brokers (or in the event there is no separate written agreement between ...ssor and said Brokers, the sum of $ N/A) for brokerage services rendered by said Brokers to Lessor in this transaction.

15.3 Unless Lessor and Brokers have otherwise agreed in writing, Lessor further agrees that: (a) if Lessee exercises any Option (as defined in Paragraph ...1) or any Option subsequently granted which is substantially similar to an Option granted to Lessee in this Lease, or (b) if Lessee acquires any rights to the ...emises or other premises described in this Lease which are substantially similar to what Lessee would have acquired had an Option herein granted to Lessee ...en exercised, or (c) if Lessee remains in possession of the Premises, with the consent of Lessor, after the expiration of the term of this Lease after having ...led to exercise an Option, or (d) if said Brokers are the procuring cause of any other lease or sale entered into between the Parties pertaining to the Premises ...d/or any adjacent property in which Lessor has an interest, or (e) if Base Rent is increased, whether by agreement or operation of an escalation clause ...rein, then as to any of said transactions, Lessor shall pay said Brokers a fee in accordance with the schedule of said Brokers in effect at the time of the ...ecution of this Lease.

15.4 Any buyer or transferee of Lessor's interest in this Lease, whether such transfer is by agreement or by operation of law, shall be deemed to have ...sumed Lessor's obligation under this Paragraph 15. Except as otherwise provided, any unused portion of said deposit shall be refunded to Lessee without interest. Lessor's consent to any act, assignment of this Lease or subletting of the Premises by Lessee shall not constitute an acknowledgement that no Default or Breach by Lessee of this Lease exists, nor shall such consent be deemed a waiver of any then existing Default or Breach, except as may be otherwise specifically stated in writing by Lessor at the time of such consent.

(b) All conditions to Lessor's consent authorized by this Lease are acknowledged by Lessee as being reasonable. The failure to specify herein any particular condition to Lessor's consent shall not preclude the imposition by Lessor at the time of consent of such further or other conditions as are then reasonable with reference to the particular matter for which consent is being given.

Re: Rent Adjustment

Dear Mr. Lokken:

According to the terms of your leases, the rent adjustment was due September 1, 1997. The calculations are as follows:

11252 Sherman Way

$$\frac{474.2 \text{ (9/97 index)} \times 9347.00}{435.2 \text{ (9/94 index)}} = \$10{,}187.00$$

11258, 11260 Front, 11260 Back Sherman Way

$$\frac{474.2 \text{ (9/97index)} \times \$4560.00}{435.2 \text{ (9/94 index)}} = \$4{,}968.00$$

$$\$4{,}968.00 \times 3 = \$14{,}904.00$$

New rent amount for all buildings $25,091.00

The CPI increases were effective on September 1, 1997. This is an increase of $1,220.00 a month, or a total of $6,100.00 through January, 1998. Please issue a check for the increase to bring your account current.

Thank you for your attention to this matter.

LANDLORD WAIVER

THIS LANDLORD WAIVER (this "Waiver") is made and entered into as of this 1st day of December, 1998, by Industrial Centers Corp. ("Landlord"), for the benefit of Hawker Pacific Aerospace, a California corporation formerly known as Hawker Pacific Inc. ("Tenant"), and Heller Financial, Inc., individually and as agent for certain other lenders (in such capacity, "Agent").

RECITALS

WHEREAS, Landlord is the landlord of premises described on Exhibit A annexed hereto (the "Premises") which are leased to Tenant pursuant to two Lease Agreements each dated July 28, 1994, and a Lease Agreement dated September 1, 199r and a Lease Agreement dated March 31, 1997 (collectively, the "Leases"); and

WHEREAS, Agent and certain other lenders (the "Lenders") have agreed to make loans to Tenant and certain of its affiliates (collective, the "Loan"), secured in part by a security interest in all or substantially all of Tenant's personal property which now or hereafter may be located on or about the Premises (the "Collateral"); and

WHEREAS, Agent and Lenders require Landlord's consent and agreement as set forth herein as a condition to make the Loan to Tenant.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord hereby agrees as follows:

1. Consent. Landlord agrees that, at Agent's option the Collateral may remain upon the Premises and Agent may occupy the same for the purpose of preparing and processing the Collateral for sale, lease or other disposition and for the purpose of conducting a sale of the Collateral on the Premises for a period up to 90 days after (i) the exercise by Agent and Lenders of their right to the Collateral under their financing arrangements with Tenant or (ii) the receipt by Agent of written notice by Landlord directing removal thereof; provided that Agent shall be liable for rent at the rental provided under the Lease (or, if the Lease is not then in effect, at a rental to be agreed upon by Agent and Landlord), prorated on a per diem basis during the term of such occupancy by Agent. Agent's payment of rent shall not result in Agent or Lender incurring any other obligations of Tenant under the Lease. If Agent is prohibited by any process or injunction issued by any court, or by reason of any bankruptcy or insolvency proceeding involving the Tenant, from enforcing its security interest in the Collateral, the ninety (90) day period shall commence upon termination of such prohibition, so long as Agent and Lenders are at all times pursuing their remedies with due diligence.

2. Waiver. Landlord claims no interest in or lien upon any of the Collateral, and waives any lien, security interest or claim against the Collateral, whether arising under the Lease, provided by applicable law or otherwise, and any and all right of levy, distraint or execution against the Collateral for rent or other sums due or to become due Landlord. Landlord waives any and all right to require Agent or any Lender to marshal any property or assets of Tenant.

3. Personal Property. Landlord agrees that, as between Landlord, on the one hand, and Agent and Lenders, on the other hand, the Collateral shall remain personal property, notwithstanding the manner of attachment, and will not become part of the Premises.

4. Right of Entry. Agent may enter the Premises at any time to remove and/or dispose of the Collateral in the exercise of its right and remedies against Tenant and the Collateral. Agent agrees to repair any damage caused by Agent's removal of the Collateral.

5. Estoppel. Landlord certifies to Agent and Lenders and agrees as follows:

A. Valid Lease. The Lease is valid and enforceable according to its terms and has not been modified either orally or in writing.

B. No Defaults. To Landlord's knowledge, neither Landlord nor tenant is in default under the Lease, nor has any event occurred which, with the passage of time, the giving of notice, or both, would constitute an event of default or default under the Lease.

6. Notice of Default and Opportunity to Cure. Landlord agrees that in the event of any claimed breach or default by Tenant which would entitle Landlord to terminate the Lease, Landlord shall notify Agent of such claimed breach or default by certified mail, return receipt requested, or Federal Express or other reputable overnight courier, at the following address:

Heller Financial, Inc.
500 West Monroe St.
Chicago, IL 60661
Attn: _____

Upon receipt of said notice, Agent shall thereupon have 30 days to cure said default (but in no event shall Agent be required to cure any such default).

7. Governing Law. This Waiver shall be governed by and shall be construed and enforced in accordance with the internal laws of the State of California, without regard to conflicts of law principles, shall be binding upon the parties hereto and their respective heirs, successors and assigns, and may not be modified, amended or altered except by a writing signed by each of the parties hereto.

IN WITNESS WHEREOF, Landlord has caused this Waiver to be made, executed and delivered the day and year first above written for the benefit of Tenant, Agent and Lenders.

No termination, cancellation or release agreement entered into by Lessor and Lessee shall release Lessee from its obligations under this Lease with respect to Hazardous Substances or storage tanks, unless specifically so agreed by Lessor in writing at the time of such agreement.

The amount of such insurance shall be equal to the full replacement cost of the Premises, as the same shall exist from time to time, or the amount required by Lenders, but in no event more than the commercially reasonable and available insurable value thereof if, by reason of the unique nature or age of the improvements involved, such latter amount is less than full replacement cost. If Lessor is the Insuring Party, however, Lessee Owned Alterations and Utility Installations shall be insured by Lessee under Paragraph 8.4 rather than by Lessor. If the coverage is available and commercially appropriate, such policy or policies shall insure against all risks of direct physical loss or damage (except the perils of flood and/or earthquake unless required by a Lender), including coverage for any additional costs resulting from debris removal and reasonable amounts of coverage for the enforcement of any ordinance or law regulating the reconstruction or replacement of any undamaged sections of the Premises required to be demolished or removed by reason of the enforcement of any building, zoning, safety or land use laws as the result of a covered cause of loss. Said insurance shall provide that in the event the Lease is terminated by reason of an insured loss, the period of indemnity for such coverage shall be extended beyond the date of the completion of repairs or replacement of the Premises, to provide for one full year's loss of rental revenues from the date of any such loss. Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected rental income, property taxes, insurance premium costs and other expenses, if any, otherwise payable by Lessee, for the next twelve (12) month period. Lessee shall be liable for any deductible amount in the event of such loss.

~~(c) **Adjacent Premises.** If the Premises are part of a larger building, or if the Premises are part of a group of buildings owned by Lessor which are adjacent to the Premises, the Lessee shall pay for any increase in the premiums for the property insurance of such building or buildings if said increase is caused by Lessee's acts, omissions, use or occupancy of the Premises.~~

(d) **Tenant's Improvements.** If the Lessor is the Insuring Party, the Lessor shall not be required to insure Lessee Owned Alterations and Utility Installations unless the item in question has become the property of Lessor under the terms of this Lease. Such insurance shall be full replacement cost coverage ~~with a deductible of not to exceed $1,000 per occurrence.~~ The proceeds from any such insurance shall be used by Lessee for the replacement of personal property or the restoration of Lessee Owned Alterations and Utility Installations. Lessee shall be the Insuring Party with respect to the insurance required by this Paragraph 8.4 and shall provide Lessor with written evidence that such insurance is in force.

*If the Premises are restored after a casualty.

8.5 **Insurance Policies.** Insurance required hereunder shall be in companies duly licensed to transact business in the state where the Premises are located, and maintaining during the policy term a "General Policyholders Rating" of at least B+, V, ~~or such other rating as may be required by a Lender having a lien on the Premises,~~ as set forth in the most current issue of "Best's Insurance Guide." Lessee shall not do or permit to be done anything which shall invalidate the insurance policies referred to in this Paragraph 8. If Lessee is the Insuring Party, Lessee shall cause to be delivered to Lessor certified copies of policies of such insurance or certificates evidencing the existence and amounts of such insurance with the insureds and loss payable clauses as required by this Lease. No such policy shall be cancellable or subject to modification except after thirty (30) days prior written notice to Lessor. Lessee shall at least thirty (30) days prior to the expiration of such policies, furnish Lessor with evidence of renewals or "insurance binders" evidencing renewal thereof, or Lessor may order such insurance and charge the cost thereof to Lessee, which amount shall be payable by Lessee to Lessor upon demand. If the Insuring Party shall fail to procure and maintain the insurance required to be carried by the Insuring Party under this Paragraph 8, the other Party may, but shall not be required to, procure and maintain the same, but at Lessee's expense.

8.6 **Waiver of Subrogation.** Without affecting any other rights or remedies, Lessee and Lessor ("Waiving Party") each hereby release and relieve the other, and waive their entire right to recover damages (whether in contract or in tort) against the other, for loss of or damage to the Waiving Party's property arising out of or incident to the perils required to be insured against under Paragraph 8. However, Lessor may consent to subsequent sublettings and assignments of the ublease or any amendments or modifications thereto without notifying Lessee or anyone else liable on the Lease or sublease and without obtaining their onsent, and such action shall not relieve such persons from liability under this Lease or sublease.

(d) In the event of any Default or Breach of Lessee's obligations under this Lease, Lessor may proceed directly against Lessee, any Guarantors or any ne else responsible for the performance of the Lessee's obligations under this Lease, including the sublessee, without first exhausting Lessor's remedies gainst any other person or entity responsible therefor to Lessor, or any security held by Lessor or Lessee.

(f) Any assignee of, or sublessee under, this Lease shall, by reason of accepting such assignment or entering into such sublease, be deemed, for the enefit of Lessor, to have assumed and agreed to conform and comply with each and every term, covenant, condition and obligation herein to be observed or erformed by Lessee during the term of said assignment or sublease, other than such obligations as are contrary to or inconsistent with provisions of an ssignment or sublease to which Lessor has specifically consented in writing.

~~(g) The occurrence of a transaction described in Paragraph 12.1(c) shall give Lessor the right (but not the obligation) to require that the Security~~ Deposit be increased to an amount equal to six (6) times the then monthly Base Rent, and Lessor may make the actual receipt by Lessor of the amount equired to establish such Security Deposit a condition to Lessor's consent to such transaction.

12.3 **Additional Terms and Conditions Applicable to Subletting.** The following terms and conditions shall apply to any subletting by Lessee of all or any part of the Premises and shall be deemed included in all subleases under this Lease whether or not expressly incorporated therein:

(a) Lessee hereby assigns and transfers to Lessor all of Lessee's interest in all rentals and income arising from any sublease of all or a portion of the Premises heretofore or hereafter made by Lessee, and Lessor may collect such rent and income and apply same toward Lessee's obligations under this Lease; provided, however, that until a Breach (as defined in Paragraph 13.1) shall occur in the performance of Lessee's obligations under this Lease, Lessee may, except as otherwise provided in this Lease, receive, collect and enjoy the rents accruing under such sublease. Lessor shall not, by reason of this or any other assignment of such sublease to Lessor, nor by reason of the collection of the rents from a sublessee, be deemed liable to the sublessee for any failure of Lessee to perform and comply with any of Lessee's obligations to such sublessee under such sublease. Lessee hereby irrevocably authorizes and directs any such sublessee, upon receipt of a written notice from Lessor stating that a Breach exists in the performance of Lessee's obligations under this Lease, to pay to Lessor the rents and other charges due and to become due under the sublease. Sublessee shall rely upon any such statement and request from Lessor and shall pay such rents and other charges to Lessor without any obligation or right to inquire as to whether such Breach exists and notwithstanding any notice from or claim from Lessee to the contrary. Lessee shall have no right or claim against said sublessee, or, until the Breach has been cured, against Lessor, for any such rents and other charges so paid by said sublessee to Lessor.

(b) In the event of a Breach by Lessee in the performance of its obligations under this Lease, Lessor, at its option and without any obligation to do so

(b) Except as expressly otherwise provided in this Lease, the failure by Lessee to make any payment of Base Rent or any other monetary payment required to be made by Lessee hereunder, whether to Lessor or to a third party, ~~as and~~ within six(6) days of when due, the failure by Lessee to provide Lessor with reasonable evidence of insurance or surety bond required under this Lease, or the failure of Lessee to fulfill any obligation under this Lease which endangers or threatens life or property, where such failure continues for a period of three (3) days following written notice thereof by or on behalf of Lessor to Lessee, *

(c) Except as expressly otherwise provided in this Lease, the failure by Lessee to provide Lessor with reasonable written evidence (in duly executed original form, if applicable) of (i) compliance with Applicable Law per Paragraph 6.3, (ii) the inspection, maintenance and service contracts required under Paragraph 7.1(b), (iii) the recission of an unauthorized assignment or subletting per Paragraph 12.1(b), (iv) a Tenancy Statement per Paragraphs 16 or 37, (v) the subordination or non-subordination of this Lease per Paragraph 30, (vi) the guaranty of the performance of Lessee's obligations under this Lease if required under Paragraphs 1.11 and 37, (vii) the execution of any document requested under Paragraph 42 (easements), or (viii) any other documentation or information which Lessor may reasonably require of Lessee under the terms of this Lease, where any such failure continues for a period of ten (10) days following written notice by or on behalf of Lessor to Lessee.

(d) A Default by Lessee as to the terms, covenants, conditions or provisions of this Lease, or of the rules adopted under Paragraph 40 hereof, that are to be observed, complied with or performed by Lessee, other than those described in subparagraphs (a), (b) or (c), above, where such Default continues for a period of thirty (30) days after written notice thereof by or on behalf of Lessor to Lessee; provided, however, that if the nature of Lessee's Default is such that more than thirty (30) days are reasonably required for its cure, then it shall not be deemed to be a Breach of this Lease by Lessee if Lessee commences such cure within said thirty (30) day period and thereafter diligently prosecutes such cure to completion.

(e) The occurrence of any of the following events: (i) The making by lessee of any general arrangement or assignment for the benefit of creditors; (ii) Lessee's becoming a "debtor" as defined in 11 U.S.C. §101 or any successor statute thereto (unless, in the case of a petition filed against Lessee, the same is dismissed within sixty (60) days); (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where possession is not restored to Lessee within thirty (30) days; or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where such seizure is not discharged within thirty (30) days; provided, however, in the event that any provision of this subparagraph (e) is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

(f) The discovery by Lessor that any financial statement given to Lessor by Lessee or any Guarantor of Lessee's obligations hereunder was materially false.

(g) If the performance of Lessee's obligations under this Lease is guaranteed: (i) the death of a guarantor, (ii) the termination of a guarantor's liability with respect to this Lease other than in accordance with the terms of such guaranty, (iii) a guarantor's becoming insolvent or the subject of a bankruptcy filing, (iv) a guarantor's refusal to honor the guaranty, or (v) a guarantor's breach of its guaranty obligation on an anticipatory breach basis, and Lessee's failure, within sixty (60) days following written notice by or on behalf of Lessor to Lessee of any such event, to provide Lessor with written alternative assurance or security, which, when coupled with the then existing resources of Lessee, equals or exceeds the combined financial resources of Lessee and the guarantors that existed at the time of execution of this Lease.

13.2 **Remedies.** If Lessee fails to perform any affirmative duty or obligation of Lessee under this Lease, within ten (10) days after written notice to Lessee (or in case of an emergency, without notice), ** commence to Lessor may at its option (but without obligation to do so), perform such duty or obligation on Lessee's behalf, including but not limited to the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits or approvals. The costs and expenses of any such performance by Lessor shall be due and payable by Lessee to Lessor upon invoice therefor. If any check given to Lessor by Lessee shall not be honored by the bank upon which it is drawn, Lessor, at its option, may require all future payments to be made under this Lease by Lessee to be made only by cashier's check. In the event of a Breach of this Lease by Lessee, as defined in Paragraph 13.1, with or without further notice or demand, and without limiting Lessor in the exercise of any right or remedy which Lessor may have by reason of such Breach, Lessor may thirty (30) so long as such remedy complies with California law:

(a) Terminate Lessee's right to possession of the Premises by any lawful means, in which case this Lease and the term hereof shall terminate and Lessee shall immediately surrender possession of the Premises to Lessor. In such event Lessor shall be entitled to recover from Lessee: (i) the worth at the time of the award of the unpaid rent which had been earned at the time of termination; (ii) the worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Lessee proves could have been reasonably avoided; (iii) the worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that the Lessee proves could be reasonably avoided; and (iv) any other amount necessary to compensate Lessor for all the detriment proximately caused by the Lessee's failure to perform its obligations under this Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys' fees, and that portion of the leasing commission paid by Lessor applicable to the unexpired term of this Lease. The worth at the time of award of the amount referred to in provision (iii) of the prior sentence shall be computed by discounting such amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of award plus one percent (1%). Efforts by Lessor to mitigate damages caused by Lessee's Default or Breach of this Lease shall not waive Lessor's right to recover damages under this Paragraph. If termination of this Lease is obtained through the provisional remedy of unlawful detainer, Lessor shall have the right to recover in such proceeding the unpaid rent and damages as are recoverable therein, or Lessor may reserve therein the right to recover all or any part thereof in a separate suit for such rent and/or damages. If a notice and grace period required under subparagraphs 13.1(b), (c) or (d) was not previously given, a notice to pay rent or quit, or to perform or quit, as the case may be, given to Lessee under any statute authorizing the forfeiture of leases for unlawful detainer shall also constitute the applicable notice for grace period purposes required by subparagraphs 13.1(b), (c) or (d). In such case, the applicable grace period under subparagraphs 13.1(b), (c) or (d) and under the unlawful detainer statute shall run concurrently after the one such statutory notice, and the failure of Lessee to cure the Default within the greater of the two such grace periods shall constitute both an unlawful detainer and a Breach of this Lease entitling Lessor to the remedies provided for in this Lease and/or by said statute.

(b) Continue the Lease and Lessee's right to possession in effect (in California under California Civil Code Section 1951.4) after Lessee's Breach and abandonment and recover the rent as it becomes due, provided Lessee has the right to sublet or assign, subject only to reasonable limitations. See Paragraphs 12 and 36 for the limitations on assignment and subletting which limitations Lessee and Lessor agree are reasonable. Acts of maintenance or preservation, efforts to relet the Premises, or the appointment of a receiver to protect the Lessor's interest under the Lease, shall not constitute a termination of the Lessee's right to possession.

(c) Pursue any other remedy now or hereafter available to Lessor under the laws or judicial decisions of the state wherein the Premises are located.

(d) The expiration or termination of this Lease and/or the termination of Lessee's right to possession shall not relieve Lessee from liability under any indemnity provisions of this Lease as to matters occurring or accruing during the term hereof or by reason of Lessee's occupancy of the Premises.

~~13.3 Inducement Recapture In Event Of Breach. Any agreement by Lessor for free or abated rent or other charges applicable to the Premises, or~~ the giving or paying by Lessor to or for Lessee of any cash or other bonus, inducement or consideration for Lessee's entering into this Lease, all of which concessions are hereinafter referred to as "Inducement Provisions," shall be deemed conditioned upon Lessee's full ~~and~~ faithful performance of all of the terms, covenants and conditions of this Lease to be performed or observed by Lessee during the term hereof as the same may be extended. Upon the occurrence of a Breach of this Lease by Lessee, as defined in Paragraph 13.1, any such inducement Provision shall automatically be deemed deleted from this Lease and of no further force or effect, and any rent, other charge, bonus, inducement or consideration theretofore abated, given or paid by Lessor under such an Inducement Provision shall be immediately due and payable by Lessee to Lessor, and recoverable by Lessor as additional rent due under this Lease, notwithstanding any subsequent cure of said Breach by Lessee. The acceptance by Lessor of rent or the cure of the Breach which initiated the operation of this Paragraph shall not be deemed a waiver by Lessor of the provisions of this Paragraph unless specifically so stated in writing by Lessor at the time of such acceptance.

~~13.4 Late Charges. Lessee hereby acknowledges that late payment by Lessee to Lessor of rent and other sums due hereunder will cause Lessor to incur~~

terminate this Lease as of the date the condemning authority takes such possession. If Lessee does not terminate this Lease in accordance with the foregoin this Lease shall remain in full force and effect as to the portion of the Premises remaining, except that the Base Rent shall be reduced in the same proportic as the rentable floor area of the Premises taken bears to the total rentable floor area of the building located on the Premises. No reduction of Base Rent sh occur if the only portion of the Premises taken is land on which there is no building. Any award for the taking of all or any part of the Premises under the pow of eminent domain or any payment made under threat of the exercise of such power shall be the property of Lessor, whether such award shall be made compensation for diminution in value of the leasehold or for the taking of the fee, or as severance damages; provided, however, that Lessee shall be entitled any compensation separately awarded to Lessee for Lessee's relocation expenses and/or loss of Lessee's Trade Fixtures. In the event that this Lease is n terminated by reason of such condemnation, Lessor shall to the extent of its net severance damages received, over and above the legal and other expens incurred by Lessor in the condemnation matter, repair any damage to the Premises caused by such condemnation, except to the extent that Lessee has bee reimbursed therefor by the condemning authority. Lessee shall be responsible for the payment of any amount in excess of such net severance damage required to complete such repair.

15.3 Unless Lessor and Brokers have otherwise agreed in writing, Lessor further agrees that: (a) if Lessee exercises any Option (as defined in Paragraph 39.1) or any Option subsequently granted which is substantially similar to an Option granted to Lessee in this Lease, or (b) if Lessee acquires any rights to the Premises or other premises described in this Lease which are substantially similar to what Lessee would have acquired had an Option herein granted to Lessee been exercised, or (c) if Lessee remains in possession of the Premises, with the consent of Lessor, after the expiration of the term of this Lease after having failed to exercise an Option, or (d) if said Brokers are the procuring cause of any other lease or sale entered into between the Parties pertaining to the Premises and/or any adjacent property in which Lessor has an interest, or (e) if Base Rent is increased, whether by agreement or operation of an escalation clause herein, then as to any of said transactions, Lessor shall pay said Brokers a fee in accordance with the schedule of said Brokers in effect at the time of the execution of this Lease.

15.4 Any buyer or transferee of Lessor's interest in this Lease, whether such transfer is by agreement or by operation of law, shall be deemed to have assumed Lessor's obligation under this Paragraph 15. Each Broker shall be a third party beneficiary of the provisions of this Paragraph 15 to the extent of its interest in any commission arising from this Lease and may enforce that right directly against Lessor and its successors.

15.5 Lessee and Lessor each represent and warrant to the other that it has had no dealings with any person, firm, broker or finder (other than the Brokers, if any named in Paragraph 1.10) in connection with the negotiation of this Lease and/or the consummation of the transaction contemplated hereby, and that no broker or other person, firm or entity other than said named Brokers is entitled to any commission or finder's fee in connection with said transaction. 17. **Lessor's Liability.** The term "**Lessor**" as used herein shall mean the owner or owners at the time in question of the fee title to the Premises, or, if this is a sublease, of the Lessee's interest in the prior lease. In the event of a transfer of Lessor's title or interest in the Premises or in this Lease, Lessor shall deliver to the transferee or assignee (in cash or by credit) any unused Security Deposit held by Lessor at the time of such transfer or assignment. Except as provided in Paragraph 15, upon such transfer or assignment and delivery of the Security Deposit, as aforesaid, the prior Lessor shall be relieved of all liability with respect to the obligations and/or covenants under this Lease thereafter to be performed by the Lessor. Subject to the foregoing, the obligations and/or covenants in this Lease to be performed by the Lessor shall be binding only upon the Lessor as hereinabove defined.

18. **Severability.** The invalidity of any provision of this Lease, as determined by a court of competent jurisdiction, shall in no way affect the validity of any other provision hereof.

19. **Interest on Past-Due Obligations.** Any monetary payment due Lessor hereunder, other than late charges, not received by Lessor within thirty (30) days following the date on which it was due, shall bear interest from the thirty-first (31st) day after it was due at the ~~rate of 10% per annum,~~ prime rate but not exceeding the maximum rate allowed by law, ~~in addition to the late charge provided for in Paragraph 13.4.~~

20. **Time of Essence.** Time is of the essence with respect to the performance of all obligations to be performed or observed by the Parties under this Lease.

21. **Rent Defined.** All monetary obligations of Lessee to Lessor under the terms of this Lease are deemed to be rent.

22. **No Prior or Other Agreements; Broker Disclaimer.** This Lease contains all agreements between the Parties with respect to any matter mentioned herein, and no other prior or contemporaneous agreement or understanding shall be effective. ~~Lessor and Lessee each represents and warrants to the Brokers that it has made, and is relying solely upon, its own investigation as to the nature, quality, character and financial responsibility of the other Party to this Lease and as to the nature, quality and character of the Premises. Brokers have no responsibility with respect thereto or with respect to any default or breach hereof by either Party.~~

23. **Notices.**

23.1 All notices required or permitted by this Lease shall be in writing and may be delivered in person (by hand or by messenger or courier service) or may be sent by ~~regular,~~ certified or registered mail or U.S. Postal Service Express Mail, with postage prepaid, or by overnight courier ~~facsimile transmission,~~ and shall be deemed sufficiently given if served in a manner specified in this Paragraph 23. The addresses noted adjacent to a Party's signature on this Lease shall be that Party's address for delivery or mailing of notice purposes. Either Party may by written notice to the other specify a different address for notice purposes, ~~except that upon Lessee's taking possession of the Premises, the Premises shall constitute Lessee's address for the purpose of mailing or delivering notices to Lessee.~~ A copy of all notices required or permitted to be given to Lessor hereunder shall be concurrently transmitted to such party or parties at such addresses as Lessor may from time to time hereafter designate by written notice to Lessee.

23.2 Any notice sent by registered or certified mail, return receipt requested, shall be deemed given on the date of delivery shown on the receipt card, or if no delivery date is shown, the postmark thereof. ~~If sent by regular mail the notice shall be deemed given forty-eight (48) hours after the same is addressed as required herein and mailed with postage prepaid.~~ Notices delivered by United States Express Mail or overnight courier that guarantees next day delivery shall be deemed given twenty-four (24) hours after delivery of the same to the United States Postal Service or courier. ~~If any notice is transmitted by facsimile transmission or similar means, the same shall be deemed served or delivered upon telephone confirmation of receipt of the transmission thereof, provided a copy is also delivered via delivery or mail.~~ If notice is received on a Sunday or legal holiday, it shall be deemed ... either party

This Lease shall be binding upon the parties, their personal representatives, successors and assigns and be governed by the laws of the State in which the Premises are located. Any litigation between the Parties hereto concerning this Lease shall be initiated in the county in which the Premises are located.

30. Subordination; Attornment; Non-Disturbance.

30.1 Subordination. This Lease and any Option granted hereby shall be subject and subordinate to any ground lease, mortgage, deed of trust, or other hypothecation or security device (collectively, "Security Device"), now or hereafter placed by Lessor upon the real property of which the Premises are a part, to any and all advances made on the security thereof, and to all renewals, modifications, consolidations, replacements and extensions thereof. Lessee agrees that the Lenders holding any such Security Device shall have no duty, liability or obligation to perform any of the obligations of Lessor under this Lease, but that in the event of Lessor's default with respect to any such obligation, Lessee will give any Lender whose name and address have been furnished Lessee in writing for such purpose notice of Lessor's default and allow such Lender thirty (30) days following receipt of such notice for the cure of said default before invoking any remedies Lessee may have by reason thereof. If any Lender shall elect to have this Lease and/or any Option granted hereby superior to the lien of its Security Device and shall give written notice thereof to Lessee, this Lease and such Options shall be deemed prior to such Security Device, notwithstanding the relative dates of the documentation or recordation thereof.

30.2 Attornment. Subject to the non-disturbance provisions of Paragraph 30.3, Lessee agrees to attorn to a Lender or any other party who acquires ownership of the Premises by reason of a foreclosure of a Security Device, and that in the event of such foreclosure, such new owner shall not: (i) be liable for any act or omission of any prior lessor or with respect to events occurring prior to acquisition of ownership, (ii) be subject to any offsets or defenses which Lessee might have against any prior lessor, or (iii) be bound by prepayment of more than one (1) month's rent.

30.3 Non-Disturbance. With respect to Security Devices entered into by Lessor after the execution of this Lease, Lessee's subordination of this Lease shall be subject to receiving assurance (a "non-disturbance agreement") from the Lender that Lessee's possession and this Lease, including any options to extend the term hereof, will not be disturbed so long as Lessee is not in Breach hereof and attorns to the record owner of the Premises.

30.4 Self-Executing. The agreements contained in this Paragraph 30 shall be effective without the execution of any further documents; provided, however, that, upon written request from Lessor or a Lender in connection with a sale, financing or refinancing of the Premises, Lessee and Lessor shall execute such further writings as may be reasonably required to separately document any such subordination or non-subordination, attornment and/or non-disturbance agreement as is provided for herein.

31. Attorney's Fees.

If any Party or Broker brings an action or proceeding to enforce the terms hereof or declare rights hereunder, the Prevailing Party (as hereafter defined) or Broker in any such proceeding, action, or appeal thereon, shall be entitled to reasonable attorney's fees. Such fees may be awarded in the same suit or recovered in a separate suit, whether or not such action or proceeding is pursued to decision or judgment. The term, **"Prevailing Party"** shall include, without limitation, a Party or Broker who substantially obtains or defeats the relief sought, as the case may be, whether by compromise, settlement, judgment, or the abandonment by the other Party or Broker of its claim or defense. The attorney's fees award shall not be computed in accordance with any court fee schedule, but shall be such as to fully reimburse all attorney's fees reasonably incurred. Lessor shall be entitled to attorney's fees, costs and expenses incurred in the preparation and service of notices of Default and consultations in connection therewith, whether or not a legal action is subsequently commenced in connection with such Default or resulting Breach.

32. **Lessor's Access; Showing Premises; Repairs.** Lessor and Lessor's agents shall have the right to enter the Premises at any time, in the case of an emergency, and otherwise at reasonable times for the purpose of showing the same to prospective purchasers, lenders, or lessees, and making such alterations, repairs, improvements or additions to the Premises or to the building of which they are a part, as Lessor may reasonably deem necessary*. Lessor may at any time place on or about the Premises or building any ordinary "For Sale" signs and Lessor may at any time during the last one hundred twenty (120) days of the term hereof place on or about the Premises any ordinary "For Lease" signs. All such activities of Lessor shall be without abatement of rent or liability to Lessee.

*provided Lessee's use of the Premises is not diminished thereby.

~~33. Auctions. Lessee shall not conduct, nor permit to be conducted, either voluntarily or involuntarily, any auction upon the Premises without first having obtained Lessor's prior written consent. Notwithstanding anything to the contrary in this Lease, Lessor shall not be obligated to exercise any standard of reasonable judgment in determining whether to grant such consent.~~

34. Signs. Lessee ~~shall not~~ may place any lawful sign upon the Premises~~, except that Lessee may, with Lessor's prior written consent, install (but not on the roof) such signs as are reasonably required to advertise Lessee's own business. The installation of any sign on the Premises by or for Lessee shall be subject to the provisions of Paragraph 7 (Maintenance, Repairs, Utility Installations, Trade Fixtures and Alterations). Unless otherwise expressly agreed herein, Lessor reserves all rights to the use of the roof and the right to install, and all revenues from the installation of, such advertising signs on the Premises, including the roof, so as not unreasonably interfere with the conduct of Lessee's business.~~

35. Termination; Merger. Unless specifically stated otherwise in writing by Lessor, the voluntary or other surrender of this Lease by Lessee, the mutual termination or cancellation hereof, or a termination hereof by Lessor for Breach by Lessee, shall automatically terminate any sublease or lesser estate in the Premises; provided, however, Lessor shall, in the event of any such surrender, termination or cancellation, have the option to continue any one or all of any existing subtenancies. Lessor's failure within ten (10) days following any such event to make a written election to the contrary by written notice to the holder of any such lesser interest, shall constitute Lessor's election to have such event constitute the termination of such interest.

36. Consents.

~~(a) Except for Paragraph 33 hereof (Auctions) or as otherwise provided herein,~~ wherever in this Lease the consent of a Party is required to an act by or for the other Party, such consent shall not be unreasonably withheld or delayed. Lessor's actual reasonable costs and expenses (including but not limited to architects', attorneys', engineers' or other consultants' fees) incurred in the consideration of, or response to, a request by Lessee for any Lessor consent pertaining to this Lease or the Premises, including but not limited to consents to an assignment, a subletting or the presence or use of a Hazardous Substance, Hazardous Substance Practice or storage tank, shall be paid by Lessee to Lessor upon receipt of an invoice and supporting documentation therefor.

Subject to Paragraph 12.2(e) (applicable to assignment or subletting), Lessor may, as a condition to considering any such request by Lessee, require that Lessee deposit with Lessor an amount of money (in addition to the Security Deposit held under Paragraph 5) reasonably calculated by Lessor to represent the cost Lessor will incur in considering and responding to Lessee's request. Except as otherwise provided, any unused portion of said deposit shall be refunded to Lessee without interest. Lessor's consent to any act, assignment of this Lease or subletting of the Premises by Lessee shall not constitute an acknowledgement that no Default or Breach by Lessee of this Lease exists, nor shall such consent be deemed a waiver of any then existing Default or Breach, except as may be otherwise specifically stated in writing by Lessor at the time of such consent.

(b) All conditions to Lessor's consent authorized by this Lease are acknowledged by Lessee as being reasonable. The failure to specify herein any particular condition to Lessor's consent shall not preclude the imposition by Lessor at the time of consent of such further or other conditions as are then reasonable with reference to the particular matter for which consent is being given.

~~37. Guarantor.~~

~~37.1 If there are to be any Guarantors of this Lease per Paragraph 1.11, the form of the guaranty to be executed by each such Guarantor shall be the form most recently published by the American Industrial Real Estate Association, and each said Guarantor shall have the same obligations as Lessee under this Lease, including but not limited to the obligation to provide the Tenancy Statement and information called for by Paragraph 16.~~

37.2 It shall constitute a Default of the Lessee under this Lease if any such Guarantor fails or refuses, upon reasonable request by Lessor to give: (a) evidence of the due execution of the guaranty called for by this Lease, including the authority of the Guarantor (and of the party signing on Guarantor's behalf) to obligate such Guarantor on said guaranty, and including in the case of a corporate Guarantor, a certified copy of a resolution of its board of directors

(a) Lessee shall have no right to exercise an Option, notwithstanding any provision in the grant of Option to the contrary: (i) during the period commencing with the giving of any notice of Default under Paragraph 13.1 and continuing until the noticed Default is cured, or (ii) during the period of time any monetary obligation due Lessor from Lessee is unpaid (without regard to whether notice thereof is given Lessee), or (iii) during the time Lessee is in Breach of this Lease, or (iv) in the event that Lessor has given to Lessee three (3) or more *proper notices of Default under Paragraph 13.1, whether or not the Defaults are cured, during the twelve (12) month period immediately preceding the exercise of the Option.

ragraph 8 except to the extent of the cost attributable to liability insurance carried by Lessor in excess of $1,000,000 per occurrence. Premiums for policy
riods commencing prior to or extending beyond the Lease term shall be prorated to correspond to the Lease term. Payment shall be made by Lessee to
ssor within ten (10) days following receipt of an invoice for any amount due.

8.2 **Liability Insurance.**

(a) **Carried by Lessee.** Lessee shall obtain and keep in force during the term of this Lease a Commercial General Liability policy of insurance
otecting Lessee and Lessor (as an additional insured) against claims for bodily injury, personal injury and property damage

damage to the Premises. The amount of such insurance shall be equal to the full replacement cost of the Premises, as the same shall exist from time to time, or the amount required by Lenders, but in no event more than the commercially reasonable and available insurable value thereof if, by reason of the unique nature or age of the improvements involved, such latter amount is less than full replacement cost. If Lessor is the insuring Party; however, Lessee Owned Alterations and Utility Installations shall be insured by Lessee under Paragraph 8.4 rather than by Lessor. If the coverage is available and commercially appropriate, such policy or policies shall insure against all risks of direct physical loss or damage (except the perils of flood and/or earthquake unless required by a Lender), including coverage for any additional costs resulting from debris removal and reasonable amounts of coverage for the enforcement of any ordinance or law regulating the reconstruction or replacement of any undamaged sections of the Premises required to be demolished or removed by reason of the enforcement of any building, zoning, safety or land use laws as the result of a covered cause of loss. Said policy or policies shall also contain an agreed valuation provision in lieu of any coinsurance clause, waiver of subrogation, and inflation guard protection causing an increase in the annual property insurance coverage amount by a factor of not less than the adjusted U.S. Department of Labor Consumer Price Index for All Urban Consumers for the city nearest to where the Premises are located. ~~If such insurance coverage has a deductible clause, the deductible amount shall not exceed $1,000 per occurrence and Lessee shall be liable for such deductible amount in the event of an insured Loss, as defined in Paragraph 8.1(e).~~

(b) **Rental Value.** The insuring Party shall, in addition, obtain and keep in force during the term of this Lease a policy or policies in the name of Lessor, with loss payable to Lessor and Lender(s), insuring the loss of the full rental and other charges payable by Lessee to Lessor under this Lease for one (1) year (including all real estate taxes, insurance costs, and any scheduled rental increases). Said insurance shall provide that in the event the Lease is terminated by reason of an insured loss, the period of indemnity for such coverage shall be extended beyond the date of the completion of repairs or replacement of the Premises, to provide for one full year's loss of rental revenues from the date of any such loss. Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected rental income, property taxes, insurance premium costs and other expenses, if any, otherwise payable by Lessee, for the next twelve (12) month period. Lessee shall be liable for any deductible amount in the event of such loss.

~~(c) **Adjacent Premises.** If the Premises are part of a larger building, or if the Premises are part of a group of buildings owned by Lessor which are adjacent to the Premises, the Lessee shall pay for any increase in the premiums for the property insurance of such building or buildings if said increase is caused by Lessee's acts, omissions, use or occupancy of the Premises.~~

(d) **Tenant's Improvements.** If the Lessor is the insuring Party, the Lessor shall not be required to insure Lessee Owned Alterations and Utility Installations unless the item in question has become the property of Lessor under the terms of this Lease. If Lessee is the insuring Party, the policy carried by Lessee under this Paragraph 8.3 shall insure Lessee Owned Alterations and Utility Installations.

8.4 **Lessee's Property Insurance.** Subject to the requirements of Paragraph 8.5, Lessee at its cost shall either by separate policy or, at Lessor's option, by endorsement to a policy already carried, maintain insurance coverage on all of Lessee's personal property, Lessee Owned Alterations and Utility Installations in, on, or about the Premises similar in coverage to that carried by the insuring Party under Paragraph 8.3. Such insurance shall be full replacement cost coverage ~~with a deductible of not to exceed $1,000 per occurrence.~~ The proceeds from any such insurance shall be used by Lessee for the replacement of personal property or the restoration of Lessee Owned Alterations and Utility Installations. Lessee shall be the insuring Party with respect to the insurance required by this Paragraph 8.4 and shall provide Lessor with written evidence that such insurance is in force.

8.5 **Insurance Policies.** Insurance required hereunder shall be in companies duly licensed to transact business in the state where the Premises are located, and maintaining during the policy term a "General Policyholders Rating" of at least B+, V, ~~or such other rating as may be required by a Lender having lien on the Premises,~~ as set forth in the most current issue of "Best's Insurance Guide." Lessee shall not do or permit to be done anything which shall invalidate the insurance policies referred to in this Paragraph 8. If Lessee is the insuring Party, Lessee shall cause to be delivered to Lessor certified copies of policies of such insurance or certificates evidencing the existence and amounts of such insurance with the insureds and loss payable clauses as required by this Lease. No such policy shall be cancellable or subject to modification except after thirty (30) days prior written notice to Lessor. Lessee shall at least thirty (30) days prior to the expiration of such policies, furnish Lessor with evidence of renewals or "insurance binders" evidencing renewal thereof, or Lessor may order such insurance and charge the cost thereof to Lessee, which amount shall be payable by Lessee to Lessor upon demand. If the insuring Party shall fail to procure and maintain the insurance required to be carried by the insuring Party under this Paragraph 8, the other Party may, but shall not be required to, procure and maintain the same, but at Lessee's expense.

8.6 **Waiver of Subrogation.** Without affecting any other rights or remedies, Lessee and Lessor ("Waiving Party") each hereby release and relieve the other, and waive their entire right to recover damages (whether in contract or in tort) against the other, for loss of or damage to the Waiving Party's property arising out of or incident to the perils required to be insured against under Paragraph 8. The effect of such releases and waivers of the right to recover damages shall not be limited by the amount of insurance carried or required, or by any deductibles applicable thereto.

8.7 **Indemnity.** Except for Lessor's negligence and/or breach of express warranties, Lessee shall indemnify, protect, defend and hold harmless the Premises, Lessor and its agents, Lessor's master or ground lessor, partners and Lenders, from and against any and all claims, loss of rents and/or damages, costs, liens, judgments, penalties, permits, attorney's and consultant's fees, expenses and/or liabilities arising out of, involving, or in dealing with, the occupancy of the Premises by Lessee, the conduct of Lessee's business, any act, omission or neglect of Lessee, its agents, contractors, employees or invitees, and out of any Default or Breach by Lessee in the performance in a timely manner of any obligation on Lessee's part to be performed under this Lease. The foregoing shall include, but not be limited to, the defense or pursuit of any claim or any action or proceeding involved therein, and whether or not (in the case of claims made against Lessor) litigated and/or reduced to judgment, and whether well founded or not. In case any action or proceeding be brought against Lessor by reason of any of the foregoing matters, Lessee upon notice from Lessor shall defend the same at Lessee's expense by counsel reasonably satisfactory to Lessor and Lessor shall cooperate with Lessee in such defense. Lessor need not have first paid any such claim in order to be so indemnified.

8.8 **Exemption of Lessor from Liability.** Lessor shall not be liable for injury or damage to the person or goods, wares, merchandise or other property of Lessee, Lessee's employees, contractors, invitees, customers, or any other person in or about the Premises, whether such damage or injury is caused by or results from fire, steam, electricity, gas, water or rain, or from the breakage, leakage, obstruction or other defects of pipes, fire sprinklers, wires, appliances, plumbing, air conditioning or lighting fixtures, or from any other cause, whether the said injury or damage results from conditions arising upon the Premises or upon other portions of the building of which the Premises are a part, or from other sources or places, and regardless of whether the cause of such damage or injury or the means of repairing the same is accessible or not. Lessor shall not be liable for any damages arising from any act or neglect of any other tenant of Lessor. Notwithstanding Lessor's negligence or breach of this Lease, Lessor shall under no circumstances be liable for injury to Lessee's business or for any loss of income or profit therefrom.

(b) **"Premises Total Destruction"** shall mean damage or destruction to the Premises, other than Lessee Owned Alterations and Utility Installations and the repair cost of which damage or destruction is 50% or more of the then Replacement Cost of the Premises immediately prior to such damage or destruction, excluding from such calculation the value of the land and Lessee Owned Alterations and Utility Installations.

(c) The consent of Lessor to any assignment or subletting shall not constitute a consent to any subsequent assignment or subletting by Lessee or to subsequent or successive assignment or subletting by the sublessee. Lessor shall not, by reason of this or any other signment of such sublease to Lessor, nor by reason of the collection of the rents from a sublessee, be deemed liable to the sublessee for any failure of ssee to perform and comply with any of Lessee's obligations to such sublessee under such sublease. Lessee hereby irrevocably authorizes and directs any ch sublessee, upon receipt of a written notice from Lessor stating that a Breach exists in the performance of Lessee's obligations under this Lease, to pay to ssor the rents and other charges due and to become due under the sublease. Sublessee shall rely upon any such statement and request from Lessor and all pay such rents and other charges to Lessor without any obligation or right to inquire as to whether such Breach exists and notwithstanding any notice m or claim from Lessee to the contrary. Lessee shall have no right or claim against said sublessee, or, until the Breach has been cured, against Lessor, for y such rents and other charges so paid by said sublessee to Lessor.

(b) Except as expressly otherwise provided in this Lease, the failure by Lessee to make any payment of Base Rent or any other monetary payment required to be made by Lessee hereunder, whether to Lessor or to a third party, within six(6) days of ~~as and~~ when due, the failure by Lessee to provide Lessor with reasonable evidence of insurance or surety bond required under this Lease, or the failure of Lessee to fulfill any obligation under this Lease which endangers or threatens life or property, where such failure continues for a period of three (3) days following written notice thereof by or on behalf of Lessor to Lessee, *

(c) Except as expressly otherwise provided in this Lease, the failure by Lessee to provide Lessor with reasonable written evidence (in duly executed original form, if applicable) of (i) compliance with Applicable Law per Paragraph 6.3, (ii) the inspection, maintenance and service contracts required under Paragraph 7.1(b), (iii) the recission of an unauthorized assignment or subletting per Paragraph 12.1(b), (iv) a Tenancy Statement per Paragraphs 16 or 37, (v) the subordination or non-subordination of this Lease per Paragraph 30, (vi) the guaranty of the performance of Lessee's obligations under this Lease if required under Paragraphs 1.11 and 37, (vii) the execution of any document requested under Paragraph 42 (easements), or (viii) any other documentation or information which Lessor may reasonably require of Lessee under the terms of this Lease, where any such failure continues for a period of ten (10) days following written notice by or on behalf of Lessor to Lessee.

(d) A Default by Lessee as to the terms, covenants, conditions or provisions of this Lease, or of the rules adopted under Paragraph 40 hereof, that are to be observed, complied with or performed by Lessee, other than those described in subparagraphs (a), (b) or (c), above, where such Default continues for a period of thirty (30) days after written notice thereof by or on behalf of Lessor to Lessee; provided, however, that if the nature of Lessee's Default is such that more than thirty (30) days are reasonably required for its cure, then it shall not be deemed to be a Breach of this Lease by Lessee if Lessee commences such cure within said thirty (30) day period and thereafter diligently prosecutes such cure to completion.

(e) The occurrence of any of the following events: (i) The making by lessee of any general arrangement or assignment for the benefit of creditors; (ii) Lessee's becoming a "debtor" as defined in 11 U.S.C. §101 or any successor statute thereto (unless, in the case of a petition filed against Lessee, the same is dismissed within sixty (60) days); (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where possession is not restored to Lessee within thirty (30) days; or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where such seizure is not discharged within thirty (30) days; provided, however, in the event that any provision of this subparagraph (e) is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

(f) The discovery by Lessor that any financial statement given to Lessor by Lessee or any Guarantor of Lessee's obligations hereunder was materially false.

(g) If the performance of Lessee's obligations under this Lease is guaranteed: (i) the death of a guarantor, (ii) the termination of a guarantor's liability with respect to this Lease other than in accordance with the terms of such guaranty, (iii) a guarantor's becoming insolvent or the subject of a bankruptcy filing, (iv) a guarantor's refusal to honor the guaranty, or (v) a guarantor's breach of its guaranty obligation on an anticipatory breach basis, and Lessee's failure, within sixty (60) days following written notice by or on behalf of Lessor to Lessee of any such event, to provide Lessor with written alternative assurance or security, which, when coupled with the then existing resources of Lessee, equals or exceeds the combined financial resources of Lessee and the guarantors that existed at the time of execution of this Lease.

13.2 **Remedies.** If Lessee fails to ** commence to perform any affirmative duty or obligation of Lessee under this Lease, within ~~ten (10)~~ thirty (30) days after written notice to Lessee (or in case of an emergency, without notice), Lessor may at its option (but without obligation to do so), perform such duty or obligation on Lessee's behalf, including but not limited to the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits or approvals. The costs and expenses of any such performance by Lessor shall be due and payable by Lessee to Lessor upon invoice therefor. If any check given to Lessor by Lessee shall not be honored by the bank upon which it is drawn, Lessor, at its option, may require all future payments to be made under this Lease by Lessee to be made only by cashier's check. In the event of a Breach of this Lease by Lessee, as defined in Paragraph 13.1, with or without further notice or demand, and without limiting Lessor in the exercise of any right or remedy which Lessor may have by reason of such Breach, Lessor may so long as such remedy complies with California law:

(a) Terminate Lessee's right to possession of the Premises by any lawful means, in which case this Lease and the term hereof shall terminate and Lessee shall immediately surrender possession of the Premises to Lessor. In such event Lessor shall be entitled to recover from Lessee: (i) the worth at the time of the award of the unpaid rent which had been earned at the time of termination; (ii) the worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Lessee proves could have been reasonably avoided; (iii) the worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that the Lessee proves could be reasonably avoided; and (iv) any other amount necessary to compensate Lessor for all the detriment proximately caused by the Lessee's failure to perform its obligations under this Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys' fees, and that portion of the leasing commission paid by Lessor applicable to the unexpired term of this Lease. The worth at the time of award of the amount referred to in provision (iii) of the prior sentence shall be computed by discounting such amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of award plus one percent (1%). Efforts by Lessor to mitigate damages caused by Lessee's Default or Breach of this Lease shall not waive Lessor's right to recover damages under this Paragraph. If termination of this Lease is obtained through the provisional remedy of unlawful detainer, Lessor shall have the right to recover in such proceeding the unpaid rent and damages as are recoverable therein, or Lessor may reserve therein the right to recover all or any part thereof in a separate suit for such rent and/or damages. If a notice and grace period required under subparagraphs 13.1(b), (c) or (d) was not previously given, a notice to pay rent or quit, or to perform or quit, as the case may be, given to Lessee under any statute authorizing the forfeiture of leases for unlawful detainer shall also constitute the applicable notice for grace period purposes required by subparagraphs 13.1(b), (c) or (d). In such case, the applicable grace period under subparagraphs 13.1(b), (c) or (d) and under the unlawful detainer statute shall run concurrently after the one such statutory notice, and the failure of Lessee to cure the Default within the greater of the two such grace periods shall constitute both an unlawful detainer and a Breach of this Lease entitling Lessor to the remedies provided for in this Lease and/or by said statute.

(b) Continue the Lease and Lessee's right to possession in effect (in California under California Civil Code Section 1951.4) after Lessee's Breach and abandonment and recover the rent as it becomes due, provided Lessee has the right to sublet or assign, subject only to reasonable limitations. See Paragraphs 12 and 36 for the limitations on assignment and subletting which limitations Lessee and Lessor agree are reasonable. Acts of maintenance or preservation, efforts to relet the Premises, or the appointment of a receiver to protect the Lessor's interest under the Lease, shall not constitute a termination of the Lessee's right to possession.

(c) Pursue any other remedy now or hereafter available to Lessor under the laws or judicial decisions of the state wherein the Premises are located.

(d) The expiration or termination of this Lease and/or the termination of Lessee's right to possession shall not relieve Lessee from liability under any indemnity provisions of this Lease as to matters occurring or accruing during the term hereof or by reason of Lessee's occupancy of the Premises.

~~13.3 Inducement Recapture In Event Of Breach. Any agreement by Lessor for free or abated rent or other charges applicable to the Premises, or~~ the giving or paying by Lessor to or for Lessee of any cash or other bonus, inducement or consideration for Lessee's entering into this Lease, all of which concessions are hereinafter referred to as "Inducement Provisions," shall be deemed conditioned upon Lessee's ~~full and~~ faithful performance of all of the terms, covenants and conditions of this Lease to be performed or observed by Lessee during ~~the term hereof~~ as the same may be extended. Upon the occurrence of a Breach of this Lease by Lessee, as defined in Paragraph 13.1, any ~~such inducement~~ Provision shall automatically be deemed deleted from this Lease and of no further force or effect, and any rent, other charge, ~~bonus,~~ inducement or consideration theretofore abated, given or paid by Lessor under such an Inducement Provision shall be immediately ~~due and~~ payable by Lessee to Lessor, and recoverable by Lessor as additional rent due under this Lease, notwithstanding any subsequent ~~cure of~~ said Breach by Lessee. The acceptance by Lessor of rent or the cure of the Breach which initiated the operation of this Paragraph shall ~~not be~~ deemed a waiver by Lessor of the provisions of this Paragraph unless specifically so stated in writing by Lessor at the time of such ~~acceptance.~~

~~13.4 Late Charges. Lessee hereby acknowledges that late payment by Lessee to Lessor of rent and other sums due hereunder will cause Lessor~~

terminate this Lease as of the date the condemning authority takes such possession. If Lessee does not terminate this Lease in accordance with the foregoin this Lease shall remain in full force and effect as to the portion of the Premises remaining, except that the Base Rent shall be reduced in the same proportic as the rentable floor area of the Premises taken bears to the total rentable floor area of the building located on the Premises. No reduction of Base Rent sh occur if the only portion of the Premises taken is land on which there is no building. Any award for the taking of all or any part of the Premises under the pow of eminent domain or any payment made under threat of the exercise of such power shall be the property of Lessor, whether such award shall be made a compensation for diminution in value of the leasehold or for the taking of the fee, or as severance damages; provided, however, that Lessee shall be entitled any compensation separately awarded to Lessee for Lessee's relocation expenses and/or loss of Lessee's Trade Fixtures. In the event that this Lease is n terminated by reason of such condemnation, Lessor shall to the extent of its net severance damages received, over and above the legal and other expense incurred by Lessor in the condemnation matter, repair any damage to the Premises caused by such condemnation, except to the extent that Lessee has bee reimbursed therefor by the condemning authority. Lessee shall be responsible for the payment of any amount in excess of such net severance damage required to complete such repair.

15.4 Any buyer or transferee of Lessor's interest in this Lease, whether such transfer is by agreement or by operation of law, shall be deemed to have assumed Lessor's obligation under this Paragraph 15. 17. **Lessor's Liability.** The term **"Lessor"** as used herein shall mean the owner or owners at the time in question of the fee title to the Premises, or, if this is a sublease, of the Lessee's interest in the prior lease. In the event of a transfer of Lessor's title or interest in the Premises or in this Lease, Lessor shall deliver to the transferee or assignee (in cash or by credit) any unused Security Deposit held by Lessor at the time of such transfer or assignment. Except as provided in Paragraph 15, upon such transfer or assignment and delivery of the Security Deposit, as aforesaid, the prior Lessor shall be relieved of all liability with respect to the obligations and/or covenants under this Lease thereafter to be performed by the Lessor. Subject to the foregoing, the obligations and/or covenants in this Lease to be performed by the Lessor shall be binding only upon the Lessor as hereinabove defined.

18. **Severability.** The invalidity of any provision of this Lease, as determined by a court of competent jurisdiction, shall in no way affect the validity of any other provision hereof.

19. **Interest on Past-Due Obligations.** Any monetary payment due Lessor hereunder, other than late charges, not received by Lessor within thirty (30) days following the date on which it was due, shall bear interest from the thirty-first (31st) day after it was due at the ~~rate of 12% per annum,~~ prime rate but not exceeding the maximum rate allowed by law, ~~in addition to the late charge provided for in Paragraph 13.4.~~

Lessee agrees that the Lenders holding any such Security Device shall have no duty, liability or obligation to perform any of the obligations of Lessor under this Lease, but that in the event of Lessor's default with respect to any such obligation, Lessee will give any Lender whose name and address have been furnished Lessee in writing for such purpose notice of Lessor's default and allow such Lender thirty (30) days following receipt of such notice for the cure of said default before invoking any remedies Lessee may have by reason thereof. If any Lender shall elect to have this Lease and/or any Option granted hereby superior to the lien of its Security Device and shall give written notice thereof to Lessee, this Lease and such Options shall be deemed prior to such Security Device, notwithstanding the relative dates of the documentation or recordation thereof.

30.2 Attornment. Subject to the non-disturbance provisions of Paragraph 30.3, Lessee agrees to attorn to a Lender or any other party who acquires ownership of the Premises by reason of a foreclosure of a Security Device, and that in the event of such foreclosure, such new owner shall not: (i) be liable for any act or omission of any prior lessor or with respect to events occurring prior to acquisition of ownership, (ii) be subject to any offsets or defenses which Lessee might have against any prior lessor, or (iii) be bound by prepayment of more than one (1) month's rent.

30.3 Non-Disturbance. 30.4 Self-Executing. The agreements contained in this Paragraph 30 shall be effective without the execution of any further documents; provided, however, that, upon written request from Lessor or a Lender in connection with a sale, financing or refinancing of the Premises, Lessee and Lessor shall execute such further writings as may be reasonably required to separately document any such subordination or non-subordination, attornment and/or non-disturbance agreement as is provided for herein.

*provided Lessee's use of the Premises is not diminished thereby.

~~3. Auctions. Lessee shall not conduct, nor permit to be conducted, either voluntarily or involuntarily, any auction upon the Premises without first having obtained Lessor's prior written consent. 7.4 **Ownership; Removal; Surrender; and Restoration.**

(a) **Ownership.** ~~Subject to Lessor's right to require their removal or become the owner thereof as hereinafter provided in this Paragraph 7.4~~, All Alterations and Utility Additions made to the Premises by Lessee shall be the property of and owned by Lessee, ~~but considered a part of the Premises. Lessor~~ may, at any time and at its option, elect in writing to Lessee to be the owner of all or any specified part of the Lessee Owned Alterations ~~and Utility Installations~~. Unless otherwise instructed per subparagraph 7.4(b) hereof, all Lessee Owned Alterations and Utility ~~Installations shall~~, at the expiration or earlier termination of this Lease, become the property of Lessor and remain upon and be ~~surrendered by Lessee~~ with the Premises.

(b) **Removal.** Unless otherwise ~~agreed in writing, Lessor~~ may require that any or all Lessee Owned Alterations or Utility Installations be removed by the expiration or earlier ~~termination~~ of this Lease, notwithstanding their installation may have been consented to by Lessor. Lessor may require the removal at ~~any time of all or any part of any Lessee Owned Alterations or Utility Installations made without the required consent of Lessor.~~

(c) **Surrender/Restoration.** Lessee shall surrender the Premises by the end of the last day of the Lease term or any earlier termination date, with all of the improvements, parts and surfaces thereof clean and free of debris and in good operating order, condition and state of repair, ordinary wear and tear excepted. *"**Ordinary wear and tear**" shall not include any damage or deterioration that would have been prevented by good maintenance practice or by Lessee performing all of its obligations under this Lease. Except as otherwise agreed or specified in writing by Lessor, the Premises, as surrendered, shall include the Utility Installations. The obligation of Lessee shall include the repair of any damage occasioned by the installation, maintenance or removal of Lessee's Trade Fixtures, furnishings, equipment, and Alterations and/or Utility Installations, as well as the removal of any storage tank installed by or for Lessee, and the removal, replacement, or remediation of any soil, material or ground water contaminated by Lessee, all as may then be required by Applicable Law and/or good practice. Lessee's Trade Fixtures shall remain the property of Lessee and shall be removed by Lessee subject to its obligation to repair and restore the Premises per this Lease. *except to the extent Lessor is obligated to maintain or repair the Premises.

8. **Insurance; Indemnity.**

8.1 **Payment For Insurance.** Regardless of whether the Lessor or Lessee is the insuring Party, Lessee shall pay for all insurance required under this Paragraph 8 except to the extent of the cost attributable to liability insurance carried by Lessor in excess of $1,000,000 per occurrence. Premiums for policy periods commencing prior to or extending beyond the Lease term shall be prorated to correspond to the Lease term. Payment shall be made by Lessee to Lessor within ten (10) days following receipt of an invoice for any amount due.

8.2 **Liability Insurance.**

(a) **Carried by Lessee.** Lessee shall obtain and keep in force during the term of this Lease a Commercial General Liability policy of insurance protecting Lessee and Lessor (as an additional insured) against claims for bodily injury, personal injury and property damage based upon, involving or arising out of the ownership, use, occupancy or maintenance of the Premises and all areas appurtenant thereto. Such insurance shall be on an occurrence basis providing single limit coverage in an amount not less than $1,000,000 per occurrence with an "Additional Insured-Managers or Lessors of Premises" Endorsement and contain the "Amendment of the Pollution Exclusion" for damage caused by heat, smoke or fumes from a hostile fire. The policy shall not contain any intra-insured exclusions as between insured persons or organizations, but shall include coverage for liability assumed under this Lease as an "insured contract" for the performance of Lessee's indemnity obligations under this Lease. The limits of said insurance required by this Lease or as carried by Lessee shall not, however, limit the liability of Lessee nor relieve Lessee of any obligation hereunder. All insurance to be carried by Lessee shall be primary to and not contributory with any similar insurance carried by Lessor, whose insurance shall be considered excess insurance only.

(b) **Carried By Lessor.** In the event Lessor is the insuring Party, Lessor shall also maintain liability insurance described in Paragraph 8.2(a), above, in addition to, and not in lieu of, the insurance required to be maintained by Lessee. Lessee shall not be named as an additional insured therein.

8.3 **Property Insurance-Building, Improvements and Rental Value.**

(a) **Building and Improvements.** The insuring Party shall obtain and keep in force during the term of this Lease a policy or policies in the name of Lessor, with loss payable to Lessor and to the holders of any mortgages, deeds of trust or ground leases on the Premises ("Lender(s)"), insuring loss or

...coverage amount by a factor of not less than the adjusted U.S. Department of Labor Consumer Price Index for All Urban Consumers for the city nearest to where the Premises are located. ~~If such insurance coverage has a deductible clause, the deductible amount shall not exceed $1,000 per occurrence and Lessee shall be liable for such deductible amount in the event of an Insured Loss, as defined in Paragraph 9.1(a).~~

(b) **Rental Value.** The insuring Party shall, in addition, obtain and keep in force during the term of this Lease a policy or policies in the name of Lessor, with loss payable to Lessor and Lender(s), insuring the loss of the full rental and other charges payable by Lessee to Lessor under this Lease for one (1) year (including all real estate taxes, insurance costs, and any scheduled rental increases). Said insurance shall provide that in the event the Lease is terminated by reason of an insured loss, the period of indemnity for such coverage shall be extended beyond the date of the completion of repairs or replacement of the Premises, to provide for one full year's loss of rental revenues from the date of any such loss. Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected rental income, property taxes, insurance premium costs and other expenses, if any, otherwise payable by Lessee, for the next twelve (12) month period. Lessee shall be liable for any deductible amount in the event of such loss.

~~(c) **Adjacent Premises.** If the Premises are part of a larger building, or if the Premises are part of a group of buildings owned by Lessor which are adjacent to the Premises, the Lessee shall pay for any increase in the premiums for the property insurance of such building or buildings if said increase is caused by Lessee's acts, omissions, use or occupancy of the Premises.~~

(d) **Tenant's Improvements.** If the Lessor is the insuring Party, the Lessor shall not be required to insure Lessee Owned Alterations and Utility Installations unless the item in question has become the property of Lessor under the terms of this Lease. If Lessee is the insuring Party, the policy carried by Lessee under this Paragraph 8.3 shall insure Lessee Owned Alterations and Utility Installations. *If the Premises are restored after a casualty.

8.4 **Lessee's Property Insurance.** Subject to the requirements of Paragraph 8.5, Lessee at its cost shall either by separate policy or, at Lessor's option, by endorsement to a policy already carried, maintain insurance coverage on all of Lessee's personal property, Lessee Owned Alterations and Utility Installations in, on, or about the Premises similar in coverage to that carried by the insuring Party under Paragraph 8.3. Such insurance shall be full replacement cost coverage ~~with a deductible of not to exceed $1,000 per occurrence.~~ The proceeds from any such insurance shall be used by Lessee for the replacement of personal property or the restoration of Lessee Owned Alterations and Utility Installations.* Lessee shall be the insuring Party with respect to the insurance required by this Paragraph 8.4 and shall provide Lessor with written evidence that such insurance is in force.

8.5 **Insurance Policies.** Insurance required hereunder shall be in companies duly licensed to transact business in the state where the Premises are located, and maintaining during the policy term a "General Policyholders Rating" of at least B+, V, ~~or such other rating as may be required by a Lender having lien on the Premises,~~ as set forth in the most current issue of "Best's Insurance Guide." Lessee shall not do or permit to be done anything which shall invalidate the insurance policies referred to in this Paragraph 8. If Lessee is the insuring Party, Lessee shall cause to be delivered to Lessor certified copies of policies of such insurance or certificates evidencing the existence and amounts of such insurance with the insureds and loss payable clauses as required by this Lease. No such policy shall be cancellable or subject to modification except after thirty (30) days prior written notice to Lessor. Lessee shall at least thirty (30) days prior to the expiration of such policies, furnish Lessor with evidence of renewals or "insurance binders" evidencing renewal thereof, or Lessor may order such insurance and charge the cost thereof to Lessee, which amount shall be payable by Lessee to Lessor upon demand. If the insuring Party shall fail to procure and maintain the insurance required to be carried by the insuring Party under this Paragraph 8, the other Party may, but shall not be required to, procure and maintain the same, but at Lessee's expense.

8.6 **Waiver of Subrogation.** Without affecting any other rights or remedies, Lessee and Lessor ("Waiving Party") each hereby release and relieve the other, and waive their entire right to recover damages (whether in contract or in tort) against the other, for loss of or damage to the Waiving Party's property arising out of or incident to the perils required to be insured against under Paragraph 8. The effect of such releases and waivers of the right to recover damages shall not be limited by the amount of insurance carried or required, or by any deductibles applicable thereto.

8.7 **Indemnity.** Except for Lessor's negligence **or willful acts or omissions and/or breach of express warranties, Lessee shall indemnify, protect, defend and hold harmless the Premises, Lessor and its agents, Lessor's master or ground lessor, partners and Lenders, from and against any and all claims, loss of rents and/or damages, costs, liens, judgments, penalties, permits, attorney's and consultant's fees, expenses and/or liabilities arising out of, involving, or in dealing with, the occupancy of the Premises by Lessee, the conduct of Lessee's business, any act, omission or neglect of Lessee, its agents, contractors, employees or invitees, and out of any Default or Breach by Lessee in the performance in a timely manner of any obligation on Lessee's part to be performed under this Lease. The foregoing shall include, but not be limited to, the defense or pursuit of any claim or any action or proceeding involved therein, and whether or not (in the case of claims made against Lessor) litigated and/or reduced to judgment, and whether well founded or not. In case any action or proceeding be brought against Lessor by reason of any of the foregoing matters, Lessee upon notice from Lessor shall defend the same at Lessee's expense by counsel reasonably satisfactory to Lessor and Lessor shall cooperate with Lessee in such defense. Lessor need not have first paid any such claim in order to be so indemnified.

8.8 **Exemption of Lessor from Liability.** Lessor shall not be liable for injury or damage to the person or goods, wares, merchandise or other property of Lessee, Lessee's employees, contractors, invitees, customers, or any other person in or about the Premises, whether such damage or injury is caused by or results from fire, steam, electricity, gas, water or rain, or from the breakage, leakage, obstruction or other defects of pipes, fire sprinklers, wires, appliances, plumbing, air conditioning or lighting fixtures, or from any other cause, whether the said injury or damage results from conditions arising upon the Premises or upon other portions of the building of which the Premises are a part, or from other sources or places, and regardless of whether the cause of such damage or injury or the means of repairing the same is accessible or not. Lessor shall not be liable for any damages arising from any act or neglect of any other tenant of Lessor. Notwithstanding Lessor's negligence or breach of this Lease, Lessor shall under no circumstances be liable for injury to Lessee's business or for any loss of income or profit therefrom.

Damage or Destruction.

9.1 **Definitions.**

(a) **"Premises Partial Damage"** shall mean damage or destruction to the improvements on the Premises, other than Lessee Owned Alterations and Utility Installations, the repair cost of which damage or destruction is less than 50% of the then Replacement Cost of the Premises immediately prior to such damage or destruction, excluding from such calculation the value of the land and Lessee Owned Alterations and Utility Installations.

(b) **"Premises Total Destruction"** shall mean damage or destruction to the Premises, other than Lessee Owned Alterations and Utility Installations the repair cost of which damage or destruction is 50% or more of the then Replacement Cost of the Premises immediately prior to such damage or destruction, excluding from such calculation the value of the land and Lessee Owned Alterations and Utility Installations.

(c) **"Insured Loss"** shall mean damage or destruction to improvements on the Premises, other than Lessee Owned Alterations and Utility Installations, which was caused by an event required to be covered by the insurance described in Paragraph 8.3(a), irrespective of any deductible amounts or coverage limits involved.

(d) **"Replacement Cost"** shall mean the cost to repair or rebuild the improvements owned by Lessor at the time of the occurrence to their condition existing immediately prior thereto, including demolition, debris removal and upgrading required by the operation of applicable building codes, ordinances or laws, and without deduction for depreciation.

(e) **"Hazardous Substance Condition"** shall mean the occurrence or discovery of a condition involving the presence of, or a contamination by, a Hazardous Substance as defined in Paragraph 6.2(a), in, on, or under the Premises.

9.2 **Partial Damage – Insured Loss.** If a Premises Partial Damage that is an Insured Loss occurs, then Lessor shall, at Lessor's expense, repair such damage (but not Lessee's Trade Fixtures or Lessee Owned Alterations and Utility Installations) ~~as soon as reasonably possible~~ and this Lease shall continue in full force and effect; provided, however, that Lessee shall, at Lessor's election, make the repair of any damage or destruction the total cost to repair of which is 10,000 or less, and, in such event, Lessor shall make the insurance proceeds available to Lessee on a reasonable basis for that purpose. Notwithstanding the foregoing, if the required insurance was not in force or the insurance proceeds are not sufficient to effect such repair, the insuring Party shall promptly contribute the shortage in proceeds (except as to the deductible which is Lessee's responsibility) as and when required to complete said repairs. In the event, however, the shortage in proceeds was due to the fact that, by reason of the unique nature of the improvements, full replacement cost insurance coverage was not commercially reasonable and available, Lessor shall have no obligation to pay for the shortage in insurance proceeds or to fully restore the unique aspects of the Premises unless Lessee provides Lessor with the funds to cover same, or adequate assurance thereof, within ten (10) days following receipt of written notice of such shortage and request therefor. If Lessor receives said funds or adequate assurance thereof within said ten (10) days, ...

9.4 **Total Destruction.** Notwithstanding any other as of provision hereof, if a Premises Total Destruction occurs (including any destruction required by any authorized public authority), this Lease shall terminate ~~sixty (60) days following~~ the date of such Premises Total Destruction, whether or not the damage or destruction is an Insured Loss or was caused by a negligent or willful act of Lessee. In the event, however, that the damage or destruction was caused by Lessee, Lessor shall have the right to recover Lessor's damages from Lessee except as released and waived in Paragraph 8.6.

9.5 **Damage Near End of Term.** If at any time during the last six (6) months of the term of this Lease there is damage for which the cost to repair exceeds one (1) month's Base Rent, whether or not an insured Loss, Lessor may, at Lessor's option, terminate this Lease effective sixty (60) days following the date of occurrence of such damage by giving written notice to Lessee of Lessor's election to do so within ~~thirty (30)~~ days after the date of occurrence of such damage. Provided, however, if Lessee at that time has an exercisable option to extend this Lease or to purchase the Premises, then Lessee may preserve this lease by, within twenty (20) days following the occurrence of the damage, or before the expiration of the time provided in such option for its exercise, whichever is earlier ("**Exercise Period**"), (i) exercising such option and (ii) providing Lessor with any shortage in insurance proceeds (or adequate assurance thereof) needed to make the repairs. If Lessee duly exercises such option during said Exercise Period and provides Lessor with funds (or adequate assurance thereof) to cover any shortage in insurance proceeds, Lessor shall, at Lessor's expense repair such damage as soon as reasonably possible and this Lease shall continue in full force and effect. If Lessee fails to exercise such option and provide such funds or assurance during said Exercise Period, then Lessor may at Lessor's option terminate this Lease as of the ~~expiration of said sixty (60) day period following~~ the occurrence of such damage by giving written notice to Lessee of Lessor's election to do so within ten (10) days after the expiration of the Exercise Period, notwithstanding any term or provision in the grant of option to the contrary.

9.6 **Abatement of Rent; Lessee's Remedies.**

(a) In the event of damage described in Paragraph 9.2 9.3, 9.4 or 9.5 ~~("Partial Damage - Insured")~~, whether or not Lessor or Lessee repairs or restores the Premises, the Base Rent, Real Property Taxes, insurance premiums, and other charges, if any, payable by Lessee hereunder for the period during which such damage or repair or the restoration continues ~~(not to exceed the period for which rental value insurance is required under Paragraph 8.3(b))~~, shall be abated in proportion to the degree to which Lessee's use of the Premises is impaired. Except for abatement of Base Rent, Real Property Taxes, insurance premiums, and other charges, if any, as aforesaid, all other obligations of Lessee hereunder shall be performed by Lessee, and Lessee shall have no claim against Lessor for any damage suffered by reason of any such repair or restoration.

(b) If Lessor shall be obligated to repair or restore the Premises under the provisions of this Paragraph 9 and shall not commence, in a substantial and meaningful way, the repair or restoration of the Premises within ninety (90) days after such obligation shall accrue, Lessee may, at any time prior to the commencement of such repair or restoration, give written notice to Lessor and to any Lenders of which Lessee has actual notice of Lessee's election to terminate this Lease on a date not less than sixty (60) days following the giving of such notice. If Lessee gives such notice to Lessor and such Lenders and such repair or restoration is not commenced within thirty (30) days after receipt of such notice, this Lease shall terminate as of the date specified in said notice. If Lessor or a Lender commences the repair or restoration of the Premises within thirty (30) days after receipt of such notice, this Lease shall continue in full force and effect. "**Commence**" as used in this Paragraph shall mean either the unconditional authorization of the preparation of the required plans, or the beginning of the actual work on the Premises, whichever first occurs.

9.7 **Hazardous Substance Conditions.** If a Hazardous Substance Condition occurs, ***unless Lessee is legally responsible therefor*** shall make the investigation and remediation thereof required by Applicable Law and this Lease shall continue in full force and effect, but subject to Lessor's rights under Paragraph 13), Lessor may at Lessor's option either (i) investigate and remediate such Hazardous Substance Condition, if required, as soon as reasonably possible at Lessor's expense, in which event this Lease shall continue in full force and effect, or (ii) if the estimated cost to investigate and remediate such condition exceeds twelve (12) times the then monthly Base Rent or $100,000, whichever is greater, give written notice to Lessee within thirty (30) days after receipt by Lessor of knowledge of the occurrence of such Hazardous Substance Condition of Lessor's desire to terminate this Lease as of the date sixty (60) days following the giving of such notice. In the event Lessor elects to give such notice of Lessor's intention to terminate this Lease, Lessee shall have the right within ten (10) days after the receipt of such notice to give written notice to Lessor of Lessee's commitment to pay for the investigation and remediation of such Hazardous Substance Condition totally at Lessee's expense and without reimbursement from Lessor except to the extent of an amount equal to twelve (12) times the then monthly Base Rent or $100,000, whichever is greater. Lessee shall provide Lessor with the funds required of Lessee or satisfactory assurance thereof within thirty (30) days following Lessee's said commitment. In such event this Lease shall continue in full force and effect, and Lessor shall proceed to make such investigation and remediation as soon as reasonably possible and the required funds are available. If Lessee does not give such notice and provide the required funds or assurance thereof within the times specified above, this Lease shall terminate as of the date specified in Lessor's notice of termination. If a Hazardous Substance Condition occurs ****, there shall be abatement of Lessee's obligations under this Lease to the same extent as provided in Paragraph 9.6(a) for a period of not to exceed twelve (12) months.

9.8 **Termination - Advance Payments.** Upon termination of this Lease pursuant to this Paragraph 9, an equitable adjustment shall be made concerning advance Base Rent and any other advance payments made by Lessee to Lessor. Lessor shall, in addition, return to Lessee so much of Lessee's Security Deposit as has not been, or is not then required to be, used by Lessor under the terms of this Lease.

9.9 **Waive Statutes.** Lessor and Lessee agree that the terms of this Lease shall govern the effect of any damage to or destruction of the Premises with respect to the termination of this Lease and hereby waive the provisions of any present or future statute to the extent inconsistent herewith.

Real Property Taxes. ****for which Lessee is not legally responsible

10.1 (a) **Payment of Taxes.** Lessee shall pay the Real Property Taxes, as defined in Paragraph 10.2, applicable to the Premises during the term of this Lease. Subject to Paragraph 10.1(b), all such payments shall be made ~~at least ten (10) days~~ prior to the delinquency date of the applicable installment. Lessee will promptly furnish Lessor with satisfactory evidence that such taxes have been paid. If any such taxes to be paid by Lessee shall cover any period of time prior to or after the expiration or earlier termination of the term hereof, Lessee's share of such taxes shall be equitably prorated to cover only the period of time within the tax fiscal year this Lease is in effect, and Lessor shall reimburse Lessee for any overpayment after such proration. If Lessee shall fail to pay any Real Property Taxes required by this Lease to be paid by Lessee, Lessor shall have the right to pay the same, and Lessee shall reimburse Lessor therefor upon demand.

~~(b) Advance Payment. In order to insure payment when due and before delinquency of any or all Real Property Taxes, Lessor reserves the right, at~~ Lessor's option, to estimate the current Real Property Taxes applicable to the Premises, and to require such current year's Real Property Taxes ~~to be~~ paid in advance to Lessor by Lessee, either: (i) in a lump sum amount equal to the installment due, at least twenty (20) days prior to the ~~applicable~~ delinquency date, or (ii) monthly in advance with the payment of the Base Rent. If Lessor elects to require payment monthly in advance, the monthly payment shall be that equal monthly amount which, over the number of months remaining before the month in which the applicable tax installment would become delinquent (and without interest thereon), would provide a fund large enough to fully discharge before delinquency the estimated installment of taxes to be paid. When the actual amount of the applicable tax bill is known, the amount of such equal monthly advance payment shall be adjusted as required to provide the fund needed to pay the applicable taxes before delinquency. If the amounts paid to Lessor by Lessee under the provisions of this Paragraph are insufficient to discharge the obligations of Lessee to pay such Real Property Taxes as the same become due, Lessee shall pay to Lessor, upon Lessor's demand, such additional sums as are necessary to pay such obligations. All moneys paid to Lessor under this Paragraph may be intermingled with other moneys of Lessor and shall not bear interest. In the event of a Breach by Lessee in the performance of the obligations of Lessee under this Lease, then any balance of funds paid to Lessor under the provisions of this Paragraph may, subject to proration as provided in Paragraph 10.1(a), at the option of Lessor, be treated as an additional Security Deposit under Paragraph 5.

12.2 Terms and Conditions Applicable to Assignment and Subletting.

(a) Regardless of Lessor's consent, any assignment or subletting shall not: (i) be effective without the express written assumption by such assignee ›ublessee of the obligations of Lessee under this Lease, (ii) release Lessee of any obligations hereunder, or (iii) alter the primary liability of Lessee for the ›ment of Base Rent and other sums due Lessor hereunder or for the performance of any other obligations to be performed by Lessee under this Lease.

(b) Lessor may accept any rent or performance of Lessee's obligations from any person other than Lessee pending approval or disapproval of an ›gnment. (c) The consent of Lessor to any assignment or subletting shall not constitute a consent to any subsequent assignment or subletting by Lessee or to › subsequent or successive assignment or subletting by the sublessee. However, Lessor may consent to subsequent sublettings and assignments of the ›lease or any amendments or modifications thereto without notifying Lessee or anyone else liable on the Lease or sublease and without obtaining their ›sent, and such action shall not relieve such persons from liability under this Lease or sublease.

(d) In the event of any Default or Breach of Lessee's obligations under this Lease, Lessor may proceed directly against Lessee, any Guarantors or any › else responsible for the performance of the Lessee's obligations under this Lease, including the sublessee, without first exhausting Lessor's remedies ›inst any other person or entity responsible therefor to Lessor, or any security held by Lessor or Lessee.

~~(g) The occurrence of a transaction described in Paragraph 12.1(c) shall give Lessor the right (but not the obligation) to require that the Security~~ ›posit be increased to an amount equal to six (6) times the then monthly Base Rent, and Lessor may make the ~~actual receipt by Lessor of the amount~~ ›uired to establish such Security Deposit a condition to Lessor's consent to such transaction.

(h) Lessor, as a condition to giving its consent to any assignment or subletting, may require that the amount and adjustment structure of the rent ~~›able under this lease be adjusted to what is then the market value and/or adjustment structure for property similar to the Premises as then constituted.~~

The sum so calculated shall constitute the new monthly rent hereunder, but in no event, shall such new monthly rent be less than the rent payable for the month immediately preceding the date for rent adjustment.

(c) Pending receipt of the required C.P.I. and determination of the actual adjustment, Lessee shall pay an estimated adjusted rental, as reasonably determined by Lessor by reference to the then available C.P.I. information. A. Lessor hereby grants to Lessee the option to extend the term of this Lease for a 5 year period commencing when the prior term expires upon each and all of the following terms and conditions:

(i) Lessee gives to Lessor, and Lessor actually receives, on a date which is prior to the date that the option period would commence (if exercised) by at least six (6) ~~and not more than nine (9)~~ months, a written notice of the exercise of the option to extend this lease for said additional term, time being of the essence. If said notification of the exercise of said option is not so given and received, this option shall automatically expire;

The sum calculated shall constitute the new monthly rent during the option period, but, in no event, shall such new monthly rent be less than the rent payable for the month immediately preceding the commencement of the option period.

(c) Pending receipt of the required C.P.I. and determination of the actual adjustment, Lessee shall pay an estimated adjusted rental, as reasonably determined by Lessor by reference to the then available C.P.I. information. 59. In the event of a breach by Lessor described in paragraph 13.5, Lessee may require performance by Lessor in less than 30 days if said earlier performance is required by any governmental entity, is recommended by a licensed structural engineer, or in the event that Lessee's property is being damaged as a result of said breach. Neither a delay in the approval or disapproval of such assignment nor the acceptance of Rent or performance shall constitute a waiver or stoppel of Lessor's right to exercise its remedies for Lessee's Default or Breach.

(c) Lessor's consent to any assignment or subletting shall not constitute a consent to any subsequent assignment or subletting.

(d) In the event of any Default or Breach by Lessee, Lessor may proceed directly against Lessee, any Guarantors or anyone else responsible for the erformance of the Lessee's obligations under this Lease, including any assignee or sublessee, without first exhausting Lessor's remedies against any other erson or entity responsible therefor to Lessor, or any security held by Lessor.

(e) The occurrence of any of the following events: (i) the making of any general arrangement or assignment for the benefit of creditors; (ii) becoming a **"debtor"** as defined in 11 U.S.C. §101 or any successor statute thereto (unless, in the case of a petition filed against Lessee, the same is dismissed within sixty (60) days); (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where possession is not restored to Lessee within thirty (30) days; or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where such seizure is not discharged within thirty (30) days; provided, however, in the event that any provision of this subparagraph (e) is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

13.2 **Remedies.** If Lessee fails to commence to perform any of its affirmative duties or obligations, within ~~ten (10)~~ thirty (30) days after written notice (or in case of an emergency, without notice), Lessor may, at its option, perform such duty or obligation on Lessee's behalf, including but not limited to the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits or approvals. The costs and expenses of any such performance by Lessor shall be due and payable by Lessee upon receipt of invoice therefor. If any check given to Lessor by Lessee shall not be honored by the bank upon which it is drawn, Lessor, at its option, may require all future payments to be made by Lessee to be by cashier's check. In the event of a Breach, Lessor may, ~~with or without further notice or demand, and~~ without limiting Lessor in the exercise of any right or remedy which Lessor may have by reason of such Breach: so long as such remedy complies with California law:

(a) Terminate Lessee's right to possession of the Premises by any lawful means, in which case this Lease shall terminate and Lessee shall immediately surrender possession to Lessor. In such event Lessor shall be entitled to recover from Lessee: (i) the unpaid Rent which had been earned at the time of termination; (ii) the worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Lessee proves could have been reasonably avoided; (iii) the worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that the Lessee proves could be reasonably avoided; and (iv) any other amount necessary to compensate Lessor for all the detriment proximately caused by the Lessee's failure to perform its obligations under this Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys' fees, and that portion of any leasing commission paid by Lessor applicable to the unexpired term of this Lease. The worth at the time of award of the amount referred to in provision (iii) of the immediately preceding sentence shall be computed by discounting such amount at the discount rate of the Federal Reserve Bank of the District within which the Premises are located at the time of award plus one percent (1%). Efforts by Lessor to mitigate damages caused by Lessee's Breach of this Lease shall not waive Lessor's right to recover damages under Paragraph 12. If termination of this Lease is obtained through the provisional remedy of unlawful detainer, Lessor shall have the right to recover in such proceeding the unpaid Rent and damages as are recoverable therein, or Lessor may reserve the right to recover all or any part thereof in a separate suit. If a notice and grace period required under Paragraph 13.1 was not previously given, a notice to pay rent or quit, or to perform or quit given to Lessee under the unlawful detainer statute shall also constitute the notice required by Paragraph 13.1. In such case, the applicable grace period required by Paragraph 13.1 and the unlawful detainer statute shall run concurrently, and the failure of Lessee to cure the Default within the greater of the two such grace periods shall constitute both an unlawful detainer and a Breach of this Lease entitling Lessor to the remedies provided for in this Lease and/or by said statute.

(b) Continue the Lease and Lessee's right to possession and recover the Rent as it becomes due, in which event Lessee may sublet or assign, subject only to reasonable limitations. Acts of maintenance, efforts to relet, and/or the appointment of a receiver to protect the Lessor's interest, shall not constitute a termination of the Lessee's right to possession.

(c) Pursue any other remedy now or hereafter available under the laws or judicial decisions of the state wherein the Premises are located. The expiration or termination of this Lease and/or the termination of Lessee's right to possession shall not relieve Lessee from liability under any indemnity provisions of this Lease as to matters occurring or accruing during the term hereof or by reason of Lessee's occupancy of the Premises.

13.3 **Inducement Recapture.** Any agreement for free or abated rent or other charges, or for the giving or paying by Lessor to or for Lessee of any cash or other bonus, inducement or consideration for Lessee's entering into this Lease, all of which concessions are hereinafter referred to as **"Inducement Provisions,"** shall be deemed conditioned upon Lessee's full and faithful performance of all of the terms, covenants and conditions of this Lease. Upon Breach of this Lease by Lessee, any such Inducement Provision shall automatically be deemed deleted from this Lease and or no further force or effect, and any rent, other charge, bonus, inducement or consideration theretofore abated, given or paid by Lessor under such an inducement Provision shall be immediately due and payable by Lessee to Lessor, notwithstanding any subsequent cure of said Breach by Lessee. Accordingly, if any Rent shall not be received by Lessor within five (5) days after such amount all be due, then, without any requirement for notice to Lessee, Lessee shall pay to Lessor a one-time late charge equal to ten percent (10%) of each such erdue amount. The parties hereby agree that such late charge represents a fair and reasonable estimate of the costs Lessor will incur by reason of such e payment. Acceptance of such late charge by Lessor shall in no event constitute a waiver of Lessee's Default or Breach with respect to such overdue nount, nor prevent the exercise of any of the other rights and remedies granted hereunder. In the event that a late charge is payable hereunder, whether or t collected, for three (3) consecutive installments of Base Rent, then notwithstanding any provision of this Lease to the contrary,Base Rent shall, at Lessor's tion, become due and payable quarterly in advance.

The costs and expenses of any such inspections shall be paid by the party requesting same nless a Default or Breach of this Lease, violation of Applicable Law, or a contamination, caused or materially contributed to by Lessee is found to exist or be mminent, or unless the inspection is requested or ordered by a governmental authority as the result of any such existing or imminent violation or contamination. In any such case, Lessee shall upon request reimburse Lessor or Lessor's Lender, as the case may be, for the costs and expenses of such nspections.

7. **Maintenance; Repairs; Utility Installations; Trade Fixtures and Alterations.**

good order, condition and state of repair. ~~If Lessee occupies the Premises for seven (7) years or more, Lessor may require Lessee to repaint the exterior o he buildings on the Premises as reasonably required, but not more frequently than once every seven (7) years.~~

(b) Lessee shall, at Lessee's sole cost and expense, procure and maintain contracts, with copies to Lessor, in customary form and substance for, anc vith contractors specializing and experienced in, the inspection, maintenance and service of the following equipment and improvements, if any, located on the Premises: (i) heating, air conditioning and ventilation equipment, (ii) boiler, fired or unfired pressure vessels, (iii) fire sprinkler and/or standpipe and hose or other automatic fire extinguishing systems, including fire alarm and/or smoke detection, (iv) landscaping and irrigation systems, (v) roof covering and drain maintenance and (vi) asphalt and parking lot maintenance.

7.2 **Lessor's Obligations.** Except for the warranties and agreements of Lessor contained in Paragraphs 2.2 (relating to condition of the Premises), 2.3 (relating to compliance with covenants, restrictions and building code), 9 (relating to destruction of the Premises) and 14 (relating to condemnation of the Premises), it is intended by the Parties hereto that Lessor have no obligation, in any manner whatsoever, to repair and maintain the Premises, the improvements located thereon, or the equipment therein, whether structural or non structural, all of which obligations are intended to be that of the Lessee under Paragraph 7.1 hereof. It is the intention of the Parties that the terms of this Lease govern the respective obligations of the Parties as to maintenance and repair of the Premises. Lessee and Lessor expressly waive the benefit of any statute now or hereafter in effect to the extent it is inconsistent with the terms of this Lease with respect to, or which affords Lessee the right to make repairs at the expense of Lessor or to terminate this Lease by reason of, any needed repairs.

7.3 **Utility Installations; Trade Fixtures; Alterations.**

(a) **Definitions; Consent Required.** The term **"Utility Installations"** is used in this Lease to refer to all carpeting, window coverings, air lines, power panels, electrical distribution, security, fire protection systems, communication systems, lighting fixtures, heating, ventilating, and air conditioning equipment, plumbing, and fencing in, on or about the Premises. The term **"Trade Fixtures"** shall mean Lessee's machinery and equipment that can be removed without doing material damage to the Premises. The term **"Alterations"** shall mean any modification of the improvements on the Premises from that which are provided by Lessor under the terms of this Lease, other than Utility Installations or Trade Fixtures, whether by addition or deletion. **"Lessee Owned Alterations and/or Utility Installations"** are defined as Alterations and/or Utility Installations made by lessee that are not yet owned by Lessor as defined in Paragraph 7.4(a). Lessee shall not make any Alterations or Utility Installations in, on, under or about the Premises without Lessor's prior written consent. Lessee may, however, make non-structural Utility Installations to the interior of the Premises (excluding the roof), as long as they are not visible from the outside, do not involve puncturing, relocating or removing the roof or any existing walls, and the cumulative cost thereof during the term of this Lease as extended does not exceed $25,000.

(b) **Consent.** Any Alterations or Utility Installations that Lessee shall desire to make and which require the consent of the Lessor shall be presented to Lessor in written form with proposed detailed plans. All consents given by Lessor, whether by virtue of Paragraph 7.3(a) or by subsequent specific consent, shall be deemed conditioned upon: (i) Lessee's acquiring all applicable permits required by governmental authorities, (ii) the furnishing of copies of such permits together with a copy of the plans and specifications for the Alteration or Utility Installation to Lessor prior to commencement of the work thereon, and (iii) the compliance by Lessee with all conditions of said permits in a prompt and expeditious manner. Any Alterations or Utility Installations by Lessee during the term of this Lease shall be done in a good and workmanlike manner, with good and sufficient materials, and in compliance with all Applicable Law. ~~Lessee~~ shall promptly upon completion thereof furnish Lessor with as-built plans and specifications therefor. Lessor may ~~(but without obligation to do so)~~ condition its consent to any requested Alteration or Utility Installation that costs $10,000 ~~or more~~ upon Lessee's providing Lessor with a lien and completion bond in an amount equal to one and one-half times the estimated cost of such Alteration or Utility Installation and/or upon Lessee's posting an additional Security Deposit ~~with Lessor under Paragraph 36 hereof.~~

(c) **Indemnification.** Lessee shall pay, when due, all claims for labor or materials furnished or alleged to have been furnished to or for Lessee at or for use on the Premises, which claims are or may be secured by any mechanics' or materialmen's lien against the Premises or any interest therein. Lessee shall give Lessor not less than ten (10) days' notice prior to the commencement of any work in, on or about the Premises, and Lessor shall have the right to post notices of non-responsibility in or on the Premises as provided by law. If Lessee shall, in good faith, contest the validity of any such lien, claim or demand, then Lessee shall, at its sole expense defend and protect itself, Lessor and the Premises against the same and shall pay and satisfy any such adverse judgment that may be rendered thereon before the enforcement thereof against the Lessor or the Premises. If Lessor shall require, Lessee shall furnish to Lessor a surety bond satisfactory to Lessor in an amount equal to one and one-half times the amount of such contested lien claim or demand, indemnifying Lessor against liability for the same, as required by law for the holding of the Premises free from the effect of such lien or claim. In addition, Lessor may require Lessee to pay Lessor's attorney's fees and costs in participating in such action if Lessor shall decide it is to its best interest to do so.

7.4 **Ownership; Removal; Surrender; and Restoration.**

(a) **Ownership.** ~~Subject to Lessor's right to require their removal or become the owner thereof as hereinafter provided in this Paragraph 7.4,~~ All Alterations and Utility Additions made to the Premises by Lessee shall be the property of and owned by Lessee, ~~but considered a part of the Premises. Lessor~~ may, at any time and at its option, elect in writing to Lessee to be the owner of all or any specified part of the Lessee Owned Alterations ~~and Utility Installations.~~ Unless otherwise instructed per subparagraph 7.4(b) hereof, all Lessee Owned Alterations and Utility ~~Installations shall,~~ at the expiration or earlier termination of this Lease, become the property of Lessor and remain upon and be ~~surrendered by Lessee~~ with the Premises.

(b) **Removal.** Unless otherwise agreed ~~in writing, Lessor~~ may require that any or all Lessee Owned Alterations or Utility Installations be removed by the expiration or earlier ~~termination of this~~ Lease, notwithstanding their installation may have been consented to by Lessor. Lessor may require the removal at ~~any time of all or any part of any Lessee Owned Alterations or Utility Installations made without the required consent of Lessor.~~

(c) **Surrender/Restoration.** Lessee shall surrender the Premises by the end of the last day of the Lease term or any earlier termination date, with all of the improvements, parts and surfaces thereof clean and free of debris and in good operating order, condition and state of repair, ordinary wear and tear excepted. *"Ordinary wear and tear" shall not include any damage or deterioration that would have been prevented by good maintenance practice or by Lessee performing all of its obligations under this Lease. Except as otherwise agreed or specified in writing by Lessor, the Premises, as surrendered, shall include the Utility Installations. The obligation of Lessee shall include the repair of any damage occasioned by the installation, maintenance or removal of Lessee's Trade Fixtures, furnishings, equipment, and Alterations and/or Utility Installations, as well as the removal of any storage tank installed by or for Lessee, and the removal, replacement, or remediation of any soil, material or ground water contaminated by Lessee, all as may then be required by Applicable Law and/or good practice. Lessee's Trade Fixtures shall remain the property of Lessee and shall be removed by Lessee subject to its obligation to repair and restore the Premises per this Lease. *except to the extent Lessor is obligated to maintain or repair the Premises.

8. **Insurance; Indemnity.**

8.1 **Payment For Insurance.** Regardless of whether the Lessor or Lessee is the insuring Party, Lessee shall pay for all insurance required under this Paragraph 8 except to the extent of the cost attributable to liability insurance carried by Lessor in excess of $1,000,000 per occurrence. Premiums for policy periods commencing prior to or extending beyond the Lease term shall be prorated to correspond to the Lease term. Payment shall be made by Lessee to Lessor within ten (10) days following receipt of an invoice for any amount due.

8.2 **Liability Insurance.**

(a) **Carried by Lessee.** Lessee shall obtain and keep in force during the term of this Lease a Commercial General Liability policy of insurance protecting Lessee and Lessor (as an additional insured) against claims for bodily injury, personal injury and property damage based upon, involving or arising out of the ownership, use, occupancy or maintenance of the Premises and all areas appurtenant thereto. Such insurance shall be on an occurrence basis providing single limit coverage in an amount not less than $1,000,000 per occurrence with an "Additional Insured-Managers or Lessors of Premises" endorsement and contain the "Amendment of the Pollution Exclusion" for damage caused by heat, smoke or fumes from a hostile fire. The policy shall not contain any Intra-Insured exclusions as between insured persons or organizations, but shall include coverage for liability assumed under this Lease as an "insured contract" for the performance of Lessee's indemnity obligations under this Lease. The limits of said insurance required by this Lease or as carried by Lessee shall not, however, limit the liability of Lessee nor relieve Lessee of any obligation hereunder. All insurance to be carried by Lessee shall be primary to and not contributory with any similar insurance carried by Lessor, whose insurance shall be considered excess insurance only.

(b) **Carried By Lessor.** In the event Lessor is the insuring Party, Lessor shall also maintain liability insurance described in Paragraph 8.2(a), above, in addition to, and not in lieu of, the insurance required to be maintained by Lessee. Lessee shall not be named as an additional insured therein.

8.3 **Property Insurance-Building, Improvements and Rental Value.**

(a) **Building and Improvements.** The insuring Party shall obtain and keep in force during the term of this Lease a policy or policies in the name of Lessor, with loss payable to Lessor and to the holders of any mortgages, deeds of trust or ground leases on the Premises ("Lender(s)"), insuring loss or

... coverage amount by a factor of not less than the adjusted U.S. Department of Labor Consumer Price Index for All Urban Consumers for the city nearest to where the Premises are located. ~~If such insurance coverage has a deductible clause, the deductible amount shall not exceed $1,000 per occurrence and Lessee shall be liable for such deductible amount in the event of an Insured Loss, as defined in Paragraph 9.1(a).~~

(b) **Rental Value.** The Insuring Party shall, in addition, obtain and keep in force during the term of this Lease a policy or policies in the name of Lessor, with loss payable to Lessor and Lender(s), insuring the loss of the full rental and other charges payable by Lessee to Lessor under this Lease for one (1) year (including all real estate taxes, insurance costs, and any scheduled rental increases). Said insurance shall provide that in the event the Lease is terminated by reason of an insured loss, the period of indemnity for such coverage shall be extended beyond the date of the completion of repairs or replacement of the Premises, to provide for one full year's loss of rental revenues from the date of any such loss. Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected rental income, property taxes, insurance premium costs and other expenses, if any, otherwise payable by Lessee, for the next twelve (12) month period. Lessee shall be liable for any deductible amount in the event of such loss.

~~(c) Adjacent Premises. If the Premises are part of a larger building, or if the Premises are part of a group of buildings owned by Lessor which are adjacent to the Premises, the Lessee shall pay for any increase in the premiums for the property insurance of such building or buildings if said increase is caused by Lessee's acts, omissions, use or occupancy of the Premises.~~

(d) **Tenant's Improvements.** If the Lessor is the Insuring Party, the Lessor shall not be required to insure Lessee Owned Alterations and Utility Installations unless the item in question has become the property of Lessor under the terms of this Lease. If Lessee is the Insuring Party, the policy carried by Lessee under this Paragraph 8.3 shall insure Lessee Owned Alterations and Utility Installations. *If the Premises are restored after a casualty.

8.4 **Lessee's Property Insurance.** Subject to the requirements of Paragraph 8.5, Lessee at its cost shall either by separate policy or, at Lessor's option, by endorsement to a policy already carried, maintain insurance coverage on all of Lessee's personal property, Lessee Owned Alterations and Utility Installations in, on, or about the Premises similar in coverage to that carried by the Insuring Party under Paragraph 8.3. Such insurance shall be full replacement cost coverage ~~with a deductible of not to exceed $1,000 per occurrence.~~ The proceeds from any such insurance shall be used by Lessee for the replacement of personal property or the restoration of Lessee Owned Alterations and Utility Installations.* Lessee shall be the Insuring Party with respect to the insurance required by this Paragraph 8.4 and shall provide Lessor with written evidence that such insurance is in force.

8.5 **Insurance Policies.** Insurance required hereunder shall be in companies duly licensed to transact business in the state where the Premises are located, and maintaining during the policy term a "General Policyholders Rating" of at least B+, V, ~~or such other rating as may be required by a Lender having a lien on the Premises,~~ as set forth in the most current issue of "Best's Insurance Guide." Lessee shall not do or permit to be done anything which shall invalidate the insurance policies referred to in this Paragraph 8. If Lessee is the Insuring Party, Lessee shall cause to be delivered to Lessor certified copies of policies of such insurance or certificates evidencing the existence and amounts of such insurance with the insureds and loss payable clauses as required by this Lease. No such policy shall be cancellable or subject to modification except after thirty (30) days prior written notice to Lessor. Lessee shall at least thirty (30) days prior to the expiration of such policies, furnish Lessor with evidence of renewals or "insurance binders" evidencing renewal thereof, or Lessor may order such insurance and charge the cost thereof to Lessee, which amount shall be payable by Lessee to Lessor upon demand. If the Insuring Party shall fail to procure and maintain the insurance required to be carried by the Insuring Party under this Paragraph 8, the other Party may, but shall not be required to, procure and maintain the same, but at Lessee's expense.

8.6 **Waiver of Subrogation.** Without affecting any other rights or remedies, Lessee and Lessor ("Waiving Party") each hereby release and relieve the other, and waive their entire right to recover damages (whether in contract or in tort) against the other, for loss of or damage to the Waiving Party's property arising out of or incident to the perils required to be insured against under Paragraph 8. The effect of such releases and waivers of the right to recover damages shall not be limited by the amount of insurance carried or required, or by any deductibles applicable thereto.

8.7 **Indemnity.** Except for Lessor's negligence **or willful acts or omissions and/or breach of express warranties, Lessee shall indemnify, protect, defend and hold harmless the Premises, Lessor and its agents, Lessor's master or ground lessor, partners and Lenders, from and against any and all claims, loss of rents and/or damages, costs, liens, judgments, penalties, permits, attorney's and consultant's fees, expenses and/or liabilities arising out of, involving, or in dealing with, the occupancy of the Premises by Lessee, the conduct of Lessee's business, any act, omission or neglect of Lessee, its agents, contractors, employees or invitees, and out of any Default or Breach by Lessee in the performance in a timely manner of any obligation on Lessee's part to be performed under this Lease. The foregoing shall include, but not be limited to, the defense or pursuit of any claim or any action or proceeding involved therein, and whether or not (in the case of claims made against Lessor) litigated and/or reduced to judgment, and whether well founded or not. In case any action or proceeding be brought against Lessor by reason of any of the foregoing matters, Lessee upon notice from Lessor shall defend the same at Lessee's expense by counsel reasonably satisfactory to Lessor and Lessor shall cooperate with Lessee in such defense. Lessor need not have first paid any such claim in order to be so indemnified.

8.8 **Exemption of Lessor from Liability.** Lessor shall not be liable for injury or damage to the person or goods, wares, merchandise or other property of Lessee, Lessee's employees, contractors, invitees, customers, or any other person in or about the Premises, whether such damage or injury is caused by or results from fire, steam, electricity, gas, water or rain, or from the breakage, leakage, obstruction or other defects of pipes, fire sprinklers, wires, appliances, plumbing, air conditioning or lighting fixtures, or from any other cause, whether the said injury or damage results from conditions arising upon the Premises or upon other portions of the building of which the Premises are a part, or from other sources or places, and regardless of whether the cause of such damage or injury or the means of repairing the same is accessible or not. Lessor shall not be liable for any damages arising from any act or neglect of any other tenant of Lessor. Notwithstanding Lessor's negligence or breach of this Lease, Lessor shall under no circumstances be liable for injury to Lessee's business or for any loss of income or profit therefrom.

Damage or Destruction.

9.1 **Definitions.**

(a) **"Premises Partial Damage"** shall mean damage or destruction to the improvements on the Premises, other than Lessee Owned Alterations and Utility Installations, the repair cost of which damage or destruction is less than 50% of the then Replacement Cost of the Premises immediately prior to such damage or destruction, excluding from such calculation the value of the land and Lessee Owned Alterations and Utility Installations.

(b) **"Premises Total Destruction"** shall mean damage or destruction to the Premises, other than Lessee Owned Alterations and Utility Installations the repair cost of which damage or destruction is 50% or more of the then Replacement Cost of the Premises immediately prior to such damage or destruction, excluding from such calculation the value of the land and Lessee Owned Alterations and Utility Installations.

(c) **"Insured Loss"** shall mean damage or destruction to improvements on the Premises, other than Lessee Owned Alterations and Utility Installations, which was caused by an event required to be covered by the insurance described in Paragraph 8.3(a), irrespective of any deductible amounts or coverage limits involved.

(d) **"Replacement Cost"** shall mean the cost to repair or rebuild the improvements owned by Lessor at the time of the occurrence to their condition existing immediately prior thereto, including demolition, debris removal and upgrading required by the operation of applicable building codes, ordinances or laws, and without deduction for depreciation.

(e) **"Hazardous Substance Condition"** shall mean the occurrence or discovery of a condition involving the presence of, or a contamination by, a Hazardous Substance as defined in Paragraph 6.2(a), in, on, or under the Premises.

9.2 **Partial Damage – Insured Loss.** If a Premises Partial Damage that is an Insured Loss occurs, then Lessor shall, at Lessor's expense, repair such damage (but not Lessee's Trade Fixtures or Lessee Owned Alterations and Utility Installations) ~~as soon as reasonably possible~~ *** and this Lease shall continue in full force and effect; provided, however, that Lessee shall, at Lessor's election, make the repair of any damage or destruction the total cost to repair of which is $10,000 or less, and, in such event, Lessor shall make the insurance proceeds available to Lessee on a reasonable basis for that purpose. Notwithstanding the foregoing, if the required insurance was not in force or the insurance proceeds are not sufficient to effect such repair, the insuring Party shall promptly contribute the shortage in proceeds (except as to the deductible which is Lessee's responsibility) as and when required to complete said repairs. In the event, however, the shortage in proceeds was due to the fact that, by reason of the unique nature of the improvements, full replacement cost insurance coverage was not commercially reasonable and available, Lessor shall have no obligation to pay for the shortage in insurance proceeds or to fully restore the unique aspects of the Premises unless Lessee provides Lessor with the funds to cover same, or adequate assurance thereof, within ten (10) days following receipt of written notice of such shortage and request therefor. If Lessor receives said funds or adequate assurance thereof within said ten (10) days ...

...termination. ... Lessee shall terminate as of the date specified in

9.4 **Total Destruction.** Notwithstanding any other provision hereof, if a Premises Total Destruction occurs (including any destruction required by any authorized public authority), this Lease shall terminate ~~sixty (60) days following~~ as of the date of such Premises Total Destruction, whether or not the damage or destruction is an Insured Loss or was caused by a negligent or willful act of Lessee. In the event, however, that the damage or destruction was caused by Lessee, Lessor shall have the right to recover Lessor's damages from Lessee except as released and waived in Paragraph 8.6.

9.5 **Damage Near End of Term.** If at any time during the last six (6) months of the term of this Lease there is damage for which the cost to repair exceeds one (1) month's Base Rent, whether or not an Insured Loss, Lessor may, at Lessor's option, terminate this Lease effective sixty (60) days following the date of occurrence of such damage by giving written notice to Lessee of Lessor's election to do so within ~~thirty (30)~~ days after the date of occurrence of such damage. Provided, however, if Lessee at that time has an exercisable option to extend this Lease or to purchase the Premises, then Lessee may preserve this Lease by, within twenty (20) days following the occurrence of the damage, or before the expiration of the time provided in such option for its exercise, whichever is earlier ("Exercise Period"), (i) exercising such option and (ii) providing Lessor with any shortage in insurance proceeds (or adequate assurance thereof) needed to make the repairs. If Lessee duly exercises such option during said Exercise Period and provides Lessor with funds (or adequate assurance thereof) to cover any shortage in insurance proceeds, Lessor shall, at Lessor's expense repair such damage as soon as reasonably possible and this Lease shall continue in full force and effect. If Lessee fails to exercise such option and provide such funds or assurance during said Exercise Period, then Lessor may at Lessor's option terminate this Lease as of the ~~expiration of said sixty (60) day period following~~ the occurrence of such damage by giving written notice to Lessee of Lessor's election to do so within ten (10) days after the expiration of the Exercise Period, notwithstanding any term or provision in the grant of option to the contrary.

9.6 **Abatement of Rent; Lessee's Remedies.**

(a) In the event of damage described in Paragraph 9.2, 9.3, 9.4 or 9.5 ~~(Partial Damage - Insured)~~, whether or not Lessor or Lessee repairs or restores the Premises, the Base Rent, Real Property Taxes, insurance premiums, and other charges, if any, payable by Lessee hereunder for the period during which such damage or repair or the restoration continues ~~(not to exceed the period for which rental value insurance is required under Paragraph 8.3(b))~~, shall be abated in proportion to the degree to which Lessee's use of the Premises is impaired. Except for abatement of Base Rent, Real Property Taxes, insurance premiums, and other charges, if any, as aforesaid, all other obligations of Lessee hereunder shall be performed by Lessee, and Lessee shall have no claim against Lessor for any damage suffered by reason of any such repair or restoration.

(b) If Lessor shall be obligated to repair or restore the Premises under the provisions of this Paragraph 9 and shall not commence, in a substantial and meaningful way, the repair or restoration of the Premises within ninety (90) days after such obligation shall accrue, Lessee may, at any time prior to the commencement of such repair or restoration, give written notice to Lessor and to any Lenders of which Lessee has actual notice of Lessee's election to terminate this Lease on a date not less than sixty (60) days following the giving of such notice. If Lessee gives such notice to Lessor and such Lenders and such repair or restoration is not commenced within thirty (30) days after receipt of such notice, this Lease shall terminate as of the date specified in said notice. If Lessor or a Lender commences the repair or restoration of the Premises within thirty (30) days after receipt of such notice, this Lease shall continue in full force and effect. "Commence" as used in this Paragraph shall mean either the unconditional authorization of the preparation of the required plans, or the beginning of the actual work on the Premises, whichever first occurs.

9.7 **Hazardous Substance Conditions.** If a Hazardous Substance Condition occurs, ***unless Lessee is legally responsible therefor*** *** (in which case Lessee shall make the investigation and remediation thereof required by Applicable Law and this Lease shall continue in full force and effect, but subject to Lessor's rights under Paragraph 13), Lessor may at Lessor's option either (i) investigate and remediate such Hazardous Substance Condition, if required, as soon as reasonably possible at Lessor's expense, in which event this Lease shall continue in full force and effect, or (ii) if the estimated cost to investigate and remediate such condition exceeds twelve (12) times the then monthly Base Rent or $100,000, whichever is greater, give written notice to Lessee within thirty (30) days after receipt by Lessor of knowledge of the occurrence of such Hazardous Substance Condition of Lessor's desire to terminate this Lease as of the date sixty (60) days following the giving of such notice. In the event Lessor elects to give such notice of Lessor's intention to terminate this Lease, Lessee shall have the right within ten (10) days after the receipt of such notice to give written notice to Lessor of Lessee's commitment to pay for the investigation and remediation of such Hazardous Substance Condition totally at Lessee's expense and without reimbursement from Lessor except to the extent of an amount equal to twelve (12) times the then monthly Base Rent or $100,000, whichever is greater. Lessee shall provide Lessor with the funds required of Lessee or satisfactory assurance thereof within thirty (30) days following Lessee's said commitment. In such event this Lease shall continue in full force and effect, and Lessor shall proceed to make such investigation and remediation as soon as reasonably possible and the required funds are available. If Lessee does not give such notice and provide the required funds or assurance thereof within the times specified above, this Lease shall terminate as of the date specified in Lessor's notice of termination. If a Hazardous Substance Condition occurs **** there shall be abatement of Lessee's obligations under this Lease to the same extent as provided in Paragraph 9.6(a) for a period of not to exceed twelve (12) months.

9.8 **Termination - Advance Payments.** Upon termination of this Lease pursuant to this Paragraph 9, an equitable adjustment shall be made concerning advance Base Rent and any other advance payments made by Lessee to Lessor. Lessor shall, in addition, return to Lessee so much of Lessee's Security Deposit as has not been, or is not then required to be, used by Lessor under the terms of this Lease.

9.9 **Waive Statutes.** Lessor and Lessee agree that the terms of this Lease shall govern the effect of any damage to or destruction of the Premises with respect to the termination of this Lease and hereby waive the provisions of any present or future statute to the extent inconsistent herewith.

Real Property Taxes. ****for which lessee is not legally responsible

10.1 (a) **Payment of Taxes.** Lessee shall pay the Real Property Taxes, as defined in Paragraph 10.2, applicable to the Premises during the term of this Lease. Subject to Paragraph 10.1(b), all such payments shall be made ~~at least ten (10) days~~ prior to the delinquency date of the applicable installment. Lessee shall promptly furnish Lessor with satisfactory evidence that such taxes have been paid. If any such taxes to be paid by Lessee shall cover any period of time prior to or after the expiration or earlier termination of the term hereof, Lessee's share of such taxes shall be equitably prorated to cover only the period of time within the tax fiscal year this Lease is in effect, and Lessor shall reimburse Lessee for any overpayment after such proration. If Lessee shall fail to pay any Real Property Taxes required by this Lease to be paid by Lessee, Lessor shall have the right to pay the same, and Lessee shall reimburse Lessor therefor upon demand.

~~(b) Advance Payment. In order to insure payment when due and before delinquency of any or all Real Property Taxes, Lessor reserves the right, at~~ Lessor's option, to estimate the current Real Property Taxes applicable to the Premises, and to require such current year's Real Property ~~Taxes to be~~ paid in advance to Lessor by Lessee, either: (i) in a lump sum amount equal to the installment due, at least twenty (20) days prior to the ~~applicable~~ delinquency date, or (ii) monthly in advance with the payment of the Base Rent. If Lessor elects to require payment monthly in advance, ~~the monthly~~ payment shall be that equal monthly amount which, over the number of months remaining before the month in which the applicable ~~tax installment~~ would become delinquent (and without interest thereon), would provide a fund large enough to fully discharge before delinquency the estimated installment of taxes to be paid. When the actual amount of the applicable tax bill is known, the amount of such equal ~~monthly advance~~ payment shall be adjusted as required to provide the fund needed to pay the applicable taxes before delinquency. If the amounts ~~paid to~~ Lessor by Lessee under the provisions of this Paragraph are insufficient to discharge the obligations of Lessee to pay such Real Property ~~Taxes as~~ the same become due, Lessee shall pay to Lessor, upon Lessor's demand, such additional sums as necessary to pay such ~~obligations. All~~ moneys paid to Lessor under this Paragraph may be intermingled with other moneys of Lessor and shall not bear interest. In the event ~~of a Breach~~ by Lessee in the performance of the obligations of Lessee under this Lease, then any balance of funds paid to Lessor under provisions of this Paragraph may, subject to proration as provided in Paragraph 10.1(a), at the option of Lessor, be treated as an additional Security Deposit ~~under Paragraph 5.~~

10.2 **Definition of "Real Property Taxes."** As used herein, the term "Real Property Taxes" shall include any form of real estate tax or assessment, general, special, ordinary or extraordinary, and any license fee, commercial rental tax, improvement bond or bonds, levy or tax (other than inheritance, personal income or estate taxes) imposed upon the Premises by any authority having the direct or indirect power to tax, including any city, state or federal government, or any school, agricultural, sanitary, fire, street, drainage or other improvement district thereof, levied against any legal or equitable interest of Lessor in the Premises or in the real property of which the Premises are a part, Lessor's right to rent or other income therefrom, and/or Lessor's business of leasing the Premises. The term "Real Property Taxes" shall also include any tax, fee, levy, assessment or charge, or any increase therein, imposed by reason of events occurring, or changes in applicable law taking effect, during the term of this Lease, including but not limited to a change in the ownership of the Premises or in the improvements thereon.

Assignment and Subletting.

12.1 Lessor's Consent Required.

(a) Lessee shall not voluntarily or by operation of law assign, transfer, mortgage or otherwise transfer or encumber (collectively, "**assignment**") or ılet all or any part of Lessee's interest in this Lease or in the Premises without Lessor's prior written consent given under and subject to the terms of agraph 36.

(b) A change in the control of Lessee shall constitute an assignment requiring Lessor's consent. The transfer, on a cumulative basis, of twenty-five cent (25%) or more of the voting control of Lessee shall constitute a change in control for this purpose.

(c) The involvement of Lessee or its assets in any transaction, or series of transactions (by way of merger, sale, acquisition, financing, refinancing, ısfer, leveraged buy-out or otherwise), whether or not a formal assignment or hypothecation of this Lease or Lessee's assets occurs, which results or will ult in a reduction of the Net Worth of Lessee, as hereinafter defined, by an amount equal to or greater than twenty-five percent (25%) of such Net Worth of see as it was represented to Lessor at the time of the execution by Lessor of this Lease or at the time of the most recent assignment to which Lessor has ısented, or as it exists immediately prior to said transaction or transactions constituting such reduction, at whichever time said Net Worth of Lessee was or is ater, shall be considered an assignment of this Lease by Lessee to which Lessor may reasonably withhold its consent. "**Net Worth of Lessee**" for poses of this Lease shall be the net worth of Lessee (excluding any guarantors) established under generally accepted accounting principles consistently plied.

(d) An assignment or subletting of Lessee's interest in this Lease without Lessor's specific prior written consent shall, at Lessor's option, be a Default able after notice per Paragraph 13.1(c), or a noncurable Breach without the necessity of any notice and grace period. 49. RENT ESCALATIONS

(a) On September 1, annually commencing 1995 for the term of the lease and any options, the monthly rent payable under paragraph 4 of the attached Lease shall be adjusted by the increase, if any, from the date this Lease commenced, in the Consumer Price Index of the Bureau of Labor Statistics of the U.S. Department of Labor for Urban Wage Earners and Clerical Workers, Los Angeles-Long Beach-Anaheim, California (1967=100), "All Items", herein referred to as "C.P.I."

(b) The monthly rent payable in accordance with paragraph (a) of this Addendum shall be calculated as follows: the rent payable for the first month of the term of this Lease, as set forth in paragraph 4 of the attached Lease, shall be multiplied by a fraction the numerator of which shall be the C.P.I. of the calendar month during which the adjustment is to take effect, and the denominator of which shall be the C.P.I. for the calendar month in which the original Lease term commences. The sum so calculated shall constitute the new monthly rent hereunder, but in no event, shall such new monthly rent be less than the rent payable for the month immediately preceding the date for rent adjustment.

(c) Pending receipt of the required C.P.I. and determination of the actual adjustment, Lessee shall pay an estimated adjusted rental, as reasonably determined by Lessor by reference to the then available C.P.I. information. (d) In the event the compilation and/or publication of the C.P.I. shall be transferred to any other governmental department or bureau or agency or shall be discontinued, then the index most nearly the same as the C.P.I. shall be used to make such calculation. In the event that Lessor and Lessee cannot agree on such alternative index, then the matter shall be submitted for decision to the American Arbitration Association in accordance with the then rules of said association and the decision of the arbitrators shall be binding upon the parties. The cost of said Arbitrators shall be paid equally by Lessor and Lessee.

50. OPTION TO EXTEND

A. Lessor hereby grants to Lessee the option to extend the term of this Lease for a 5 year period commencing when the prior term expires upon each and all of the following terms and conditions:

(i) Lessee gives to Lessor, and Lessor actually receives, on a date which is prior to the date that the option period would commence (if exercised) by at least six (6) ~~and not more than nine (9)~~ months, a written notice of the exercise of the option to extend this lease for said additional term, time being of the essence. If said notification of the exercise of said option is not so given and received, this option shall automatically expire;

(ii) The provisions of paragraph 39, including the provision relating to default of Lessee set forth in paragraph 39.4 of this Lease are conditions of this Option;

(iii) All of the terms and conditions of this Lease except where specifically modified by this option shall apply;

(iv) The monthly rent for each month of the option period shall be * ~~calculated as follows:~~

~~(a) As used herein, the term "C.P.I." shall mean the Consumer Price Index of the Bureau of Labor~~ Statistics of the U.S. Department of Labor for Urban Wage Earners and Clerical Workers, Los Angeles-Long Beach-Anaheim, California (1967=100), "All Items", herein referred to as "C.P.I."

(b) The rent payable for the first month of the initial term of this Lease, as set forth in paragraph 4 of the attached lease, shall be multiplied by a fraction the numerator of which shall be the C.P.I. of the calendar month during which the option period commences and the denominator of which shall be the C.P.I. for the month in which the original Lease term commenced. The sum calculated shall constitute the new monthly rent during the option period, but, in no event, shall such new monthly rent be less than the rent payable for the month immediately preceding the commencement of the option period.

(c) Pending receipt of the required C.P.I. and determination of the actual adjustment, Lessee shall pay an estimated adjusted rental, as reasonably determined by Lessor by reference to the then available C.P.I. information. Upon notification of the actual adjustment after publication of the required C.P.I., any overpayment shall be credited against the next installment of rent due, and any underpayment shall be immediately due and payable by Lessee. 51. To the extent that any provision(s) in this Addendum conflict(s) with any provision(s) in this Lease, the provisions(s) of this Addendum shall be superior to the provision(s) of this Lease, and every effort shall be made to interpret this Lease and Addendum so as to give effect to the provisions of this Addendum, even if such interpretation conflicts with any provision(s) of this Lease.

52. Lessor agrees to take all action required by any Applicable Law (as defined in the Lease) so that the improvements on the Premises, other than any improvement made by Lessee, will comply with all Applicable Laws which take effect after the Commencement Date and that such action shall be performed within the time frame set forth in the Applicable Law. Lessee shall not be required to make alternations to the Premises to conform with an Applicable Law unless Lessee's particular use of the Premises shall cause the Premises to be in non-conformance with the Applicable Law. However, Lessor is not obligated to take any action hereunder to the extent that the requirement of any Applicable Law is imposed by reason of any act or omission of Lessee, including but not limited to Lessee's Utility Installations and Alternations of the Premises. Lessor hereby represents and warrants to Lessee that Lessor has received no actual notices of violations of any Applicable Law with respect to the Premises.

56. Any repairs required of Lessor under Paragraphs 9.2, 9.3, 9.4 and 9.5 of the Lease shall be commenced and reasonably proceeding no later than 60 days following the date of such Partial Damage and shall be substantially complete within 180 days following the date of such Partial Damage except as to those matters not materially affecting Lessee's use of the Premises and, as to those matters, Lessor shall diligently complete repairs as soon as is reasonably possible. If said repairs are not commenced and reasonably proceeding or, as to matters materially affecting Lessee's use of the Premises, substantially completed as set forth above, Lessee shall have the option of terminating the Lease.

in paragraph 12.2(b) of this Lease, Lessor's failure to approve or disapprove a proposed assignment or sublease within ten (10) working days of Lessee's written request for consent to the assignment or sublease and receipt by Lessor of all information reasonably requested by it pertaining to the proposed assignment or sublease, shall be deemed to be an approval of same by the Lessor.

59. In the event of a breach by Lessor described in paragraph 13.5, Lessee may require performance by Lessor in less than 30 days if said earlier performance is required by any governmental entity, is recommended by a licensed structural engineer, or in the event that Lessee's property is being damaged as a result of said breach. In the event that Lessor cannot reasonably complete its performance within 30 days, Lessor shall in all events substantially complete said performance within 180 days after Lessor's receipt of written notice of the breach from Lessee, except as to matters not materially affecting Lessee's use of the Premises and as to those matters, Lessor shall diligently complete its performance as soon as is reasonably possible.

62. Notwithstanding anything in this Lease to the contrary, Lessee shall have the right, in the ordinary course of its business, to generate, possess, store, use, transport, or dispose of a Hazardous Substance so long as Lessee's generation, possession, storage, use, transportation or disposal of a Hazardous Substance does not violate Applicable Law. Similarly, Lessee shall have the right, in the ordinary course of its business, to install or use any above or below ground storage tank so long as such installation or use does not violate Applicable Law, and Lessee shall be permitted to dispose of any Hazardous Substance (including through the plumbing or sanitary sewer system) so long as such disposal does not violate Applicable Law. INVESTIGATION OF UNPERMITTED DISCHARGES AT 11240 SHERMAN WAY

Hawker Pacific Aerospace, dba Hawker Pacific, Inc – Flight Accessory Service, located at 11240 Sherman Way, Sun Valley, CA 91352, is suspected to have illegally discharged industrial wastewater to the Los Angeles City sanitary sewer without an Industrial Wastewater Permit and discharged wastewater in excess of the pollutant limitations as described in the Los Angeles Municipal Code (LAMC) 64.30 and Title 22 of the California Code of Regulations (CCR). The discharge violations were discovered in the City of Los Angeles Bureau of Sanitation Industrial Waste Management Divisions Zero Dischargers Program. Zero dischargers in the program are identified as facilities with wastewater-generating operations/processes defined by one or more federal categories, but do not use the Los Angeles sanitary sewer system for disposal of the industrial wastewater. The Zero Discharger Program monitors these facilities through facility inspection and surreptitious 24-hour sampling of the sewer line connected to the facility.

Between July 20, 2004 and December 8, 2004, analysis of wastewater (see table 1) taken from a sewer maintenance hole [SMH] at 11240 Sherman Way (directly downstream of the sewer connection(s) from Hawker Pacific, Inc – Flight Accessory Service) showed forty-three samples exceeding the limit for free cyanide of 2.0 milligrams per liter (mg/L) as described in LAMC 64.30, with four samples also exceeding the limit for total cyanide of 10.0 mg/L as described in LAMC 64.30. There were five samples exceeding the limit for soluble cadmium of 1.0 mg/L as described in Title 22 of the CCR, with one of the samples exceeding the LAMC limits of 15 mg/L for total copper and of 12 mg/L for total nickel, and the Title 22 limit of 20 mg/L for soluble nickel. The types and concentration of pollutants detected at the monitoring point indicate an industrial source. Wastewater samples show that industrial wastewater was discharged to the sewer on eleven days (7/22 (Thu), 9/6 (Mon), 9/7 (Tue), 9/29 (Wed), 10/4 (Mon), 10/5 (Tue), 10/14 (Thu), 11/6 (Tue), 11/7 (Wed), 11/8 (Thu), 12/7 (Tue)) during the monitoring period, Hawker Pacific Aerospace does not have an Industrial Wastewater Permit to discharge industrial wastewater to the Los Angeles City sewer.

The Los Angeles Municipal Code, Section 64.30 B.2. designates specific pollutant limits for the concentration of nickel (12 mg/L), free cyanide (2.0 mg/L) and total cyanide (10.0 mg/L) in the industrial wastewater discharged into the Publicly Owned Treatment Works (POTW), the Los Angeles City sanitary sewer system. Concentrations exceeding these limits are misdemeanor violations. The limits do not apply where permit or National Categorical Pretreatment Standards imposes more restrictive limitations.

The California Code of Regulations, Title 22-66261.24, defines the soluble threshold limit concentration (STLC) for nickel at 20 mg/L and for cadmium at 1 mg/L. Exceeding these concentrations designates such waste as "hazardous" due to the pollutant's toxicity. California Health & Safety Code Section 25189.5 prohibits the disposal of hazardous waste to any facility or treatment facility that is unauthorized to accept such waste. Under the Health & Safety Code, improper disposal of hazardous waste is a felony.

Background Information

Hawker Pacific, Inc. performs copper, nickel, brass, and chromium electroplating of aircraft parts. The discharge of industrial wastewater to the POTW is a privilege granted by the possession of a valid Industrial Wastewater Permit issued by the City of Los Angeles' Board of Public Works, Bureau of Sanitation, Industrial Waste Management Division. The permit contains specific discharge requirements, general discharge prohibitions, authorizes monitoring and enforcement activities, imposes reporting requirements on specific permittees, and sets fees for the recovery of program costs. Hawker Pacific, Inc. held an Industrial Water Permit, (# W-456607) from April 30, 1993 until November 30. 1994. The Permit was canceled when Hawker Pacific Inc. voluntarily sealed the sewer connection and it was determined that no industrial wastewater was being discharged to the POTW. Hawker Pacific, Inc. claimed that it disposes its wastewater through recycling and offsite disposal.

The generated wastewater goes to a high temperature boiler (about 125 C) and the water vapor is then vacuumed out as distillate and stored in a 3,500 gallon tank. The distilled water also supplied to the need of the shop. The wastes are hauled away by an outside company.

Hawker Pacific, Inc. was placed into the zero dischargers program because one, or more, federally categorical operations exist, industrial wastewater is generated from the operation(s), and a potential exists to discharge the wastewater to the City sewer. An authorized representative from the facility must sign a "Categorical Zero Discharge Certificate" each year. Environmental Health and Safety Manager Erik Johnson signed the current "Categorical Zero Discharge Certificate" on December 17, 2004. The facility is subject to one inspection per year for verification. An inspection of the facility was performed on December 17, 2004 and previous to that on November 24, 2003. At both times, the inspector did not observe that the facility was discharging its industrial wastewater to the sanitary sewer. IWMD also schedules surreptitious sampling bracketing the zero discharge company to verify the zero discharge status.

Hawker Pacific Inc. was discovered to be discharging its industrial waste during the scheduled verification that began on July 20, 2004. The types and concentrations of pollutants discovered at the down stream SMH during the scheduled sample verification, which began July 20, 2005 indicate that Hawker Pacific, Inc. was discharging its industrial waste to the city sewer.

MONITORING

In the Zero Discharge Program, Monitoring is performed from two sewer maintenance holes, one directly upstream and one downstream of the facility's discharge point to the City's sanitary sewer. If the upstream SMH is a terminus, only the downstream SMH is monitored.

According to the permit records, Hawker Pacific, Inc. point of discharge is to the sanitary sewer on Sherman Way. This sewer connection(s) is bracketed by the upstream terminal SMH (SIMMS 400-14-018) at 11310 Sherman Way, and the downstream SMH (SIMMS 400-14-019) at 11240 Sherman Way since the upstream SMH is terminus, only the downstream SMH was monitored.

Re: People v. Hawker Pacific, et al.
Case No. 5CR02646

Dear Ms. Ruden:

As you know, Jeff Kramer and I represent Hawker Pacific Aerospace and Erik Johnson with respect to the referenced matter. I am writing to provide you with information concerning Hawker's operations and conduct in the spirit of amicably resolving the matter, and in the context of settlement discussions. It is our understanding that the statements provided herein are for settlement purposes only and will not be used as evidence in the referenced proceeding. It is our sincere hope and belief that your office will conclude, as we believe the record shows, that Hawker Pacific and Erik Johnson have not engaged in criminal conduct, that any potential violations of law were mistaken, unintended and could not have been reasonably expected by them. We understand that regulators and law enforcement often "assume the worst," but believe that you will agree that the conduct here is benign. We would further hope that your office would recognize that this is a case that should be amicably resolved without criminal convictions against either Hawker Pacific or Erik Johnson, and with a minimum monetary penalty, if any. We look forward to discussing the matter with you further at our meeting scheduled for November 9, 2005.

Relevant Operational and Regulatory History

Prior to the late 1980's Hawker operated an industrial clarifier system to treat plating rinse waters prior to discharging the treated water to the sewer. In late 1989, it abandoned the clarifier system in favor of an ionic exchange system. The ionic exchange system proved to be somewhat unreliable, causing periodic discharges into the sewer above acceptable standards, according to regulatory officials. In June, 1993, the company received a Notice of Violation from the U.S. EPA

alleging a violation of discharge standards measured in April of 1993. (See, Exhibit 1, enclosed) At the time the company had received the 1993 Notice, it had already been embarked on a redesign of its waste water treatment system with the object of adopting a concept that would eliminate all discharges to the sewer. The 1993 Notice was followed by a 1994 Notice of Intent to File Suit from U.S. Department of Justice. (See, Exhibit 2, enclosed) Throughout this time period the company worked with the regulatory officials with respect to the redesign of its system. (See, Exhibit 3, enclosed, April 14, 1994 letter from Hawker's counsel to U.S. Department of Justice) The company was successful in designing a closed loop evaporator system and had the system installed by July, 1994. After the installation and start up of this evaporator system Hawker determined that the quality of the distilled water produced could be reused in the plating and rinse tank operations. Accordingly, since July 15, 1994, Hawker has recycled all of its rinse waters for reuse in the plating and rinse tank operations and has not discharged industrial rinse water to the sewer. Since Hawker has been utilizing this system, substantially all of the total water distilled has been reused. The minimal amount of waste generated has been properly manifested off-site and reclaimed. As a result of this new distillation system, Hawker Pacific capped its sewer line and applied for an exemption from the tiered reporting requirements. It documented the capping of its discharge point and the cancellation of its industrial waste discharge permit with the City. On November 30, 1994 the City found that its industrial waste discharge point was properly capped and its industrial waste discharge permit was closed. (See, Exhibits 4 through 8, enclosed) In 1996, subsequent to the installation of the closed loop system, the company entered into a Consent Decree with the Department of Justice, U.S. EPA and the City of Los Angeles wherein the company agreed to pay stipulated penalties to the City and U.S. government and to perform certain actions, including cessation of industrial waste water discharge. (See, Exhibit 9, enclosed) All actions required by the Consent Decree were timely completed. (See, Exhibits 10 through 12, enclosed)

From a regulatory and prior discipline standpoint, the following points need to be emphasized: First, the 1996 Consent Decree arose from alleged 1993 violations, which preceeded Hawker's implementation of the closed loop recycling system. Second, Hawker has not been cited for any unlawful discharges to the sewer since the closed loop system was installed in 1994.

Recent Events and the Current Complaint

Hawker has been inspected and audited by the City and others on a consistent basis over the years. It has always been cooperative, providing manifests and other information requested. (See, e.g., Exhibits 13, 14, enclosed) In December of last year, Inspector Wong requested copies of recent hazardous waste manifests during a visit to the facility. Those documents were provided. (See, Exhibit 15, enclosed) In January 2005, Hawker was informed by an inspector that it had allegedly discharged cyanide to the sewer system in July, 2004. Hawker requested information concerning the alleged incident. (See, Exhibits 16, 17, enclosed) None was provided. Company officials made numerous attempts throughout 2005 to contact officials with the City and U.S. EPA to pursue information concerning the sampling which allegedly demonstrated releases from the facility. No information was provided. In fact, to this date, Hawker still has not been provided with the sampling results, the sampling location, or any documents related to the alleged releases. Hawker has, however, investigated its operations and, as discussed below, has discovered what may

have accounted for the releases identified by the City, assuming the City's data is accurate and sampling points are as represented.

In April, 2003 Hawker installed a new scrubber system for the chrome tanks. The make-up water for the scrubber wash down tank was designed to have been supplied with de-ionized water. Apparently, it had been incorrectly plumbed, so that the make-up water was supplied with the treated water from the closed loop water treatment system. The treated rinse water would contain certain metals and other constituents from the plating operations. While this would not under normal operating circumstances lead to a discharge of water to the sewer, an overfilling event could have led to treated water overflowing onto the floor, into a drain, and then into the sewer.

Hawker's investigation shows that in March, 2005, maintenance staff discovered that the scrubber wash down tank was overfilling. Apparently, the solenoid valve which controls the filling of the tank was defective. At that time, the defective valve was replaced with a new valve.

In August, 2005, the company was experiencing a flow problem with its supply line for de-ionized water. In connection with its investigation of the cause of the low flow rate, Hawker discovered that the scrubber wash down tank was supplied with treated water and not de-ionized water as it had been designed. At that time, in August of 2005, the treated water feed line to the scrubber tank was disconnected and the scrubber tank was connected to the de-ionized water line.

Hawker received the complaint in this case at the end of September, 2005. Upon receipt of the complaint, Hawker undertook the investigation that led to the foregoing information. Hawker has since taken the additional action of sealing off the drain in the area of the scrubber wash down tank so that there is no possibility of releases to the sewer from that area.

We know of no other way that the facility could have discharged contaminants similar to those alleged in the complaint to the sewer. Since 1994, Hawker has made every effort to discharge no industrial waste to the system. To the extent overflows from the scrubber wash down tank were responsible for the detections alleged in the complaint, which we can not confirm because we have not been provided with sufficient information concerning the sampling, those releases were unintended and not reasonably expected. The root cause of the release was fixed in March, 2005, and in August, 2005, prior to the filing of the complaint. Moreover, such releases could only have occurred during a limited time period (between the installation of the new scrubber system in 2003, after the valve failure, and before the valve replacement in March, 2005). The problem could have and would have been identified and resolved earlier had Hawker been notified promptly of the July, 2004 sampling.

Conclusion

As the foregoing and enclosed documents demonstrate, to the extent Hawker was the source of the materials identified in the sampling conducted by the City in 2004, its releases were unintended, accidental and the causes addressed prior to the filing of the complaint. We know of no instances where Hawker has been accused of unlawfully discharging to the sewer since it installed its

closed loop recycling system in 1994. We therefore respectfully request that the charges be dismissed or held in abeyance for some agreed upon probationary period during which Hawker's compliance can be confirmed. We would be pleased to provide further information and arrange for an inspection of the facility. We look forward to discussing the matter with you further on November 9th. In the interim, please feel free to call with any questions or requests for additional information.

Very truly yours,

Norman B. Berger

Dave Larkin, President
Hawker Pacific Inc.

Dear Mr. Larkin:

Pursuant to Sections 308(a) and 309(a)(3), (a)(4) and (a)(5)(A) of the Clean Water Act (the Act) as amended [33 U.S.C. Sections 1318(a) and 1319(a)(3), (a)(4) and (a)(5)(A)], enclosed is a Finding of Violation and Order issued to Hawker Pacific, Inc., Flight Accessory Services Division (Hawker Pacific) requiring all discharges from the Hawker Pacific to comply with pretreatment standards.

The enclosed Finding of Violation relates to the failure of Hawker Pacific to consistently comply with the Federal categorical pretreatment standards and Los Angeles local limits for cadmium, lead, nickel, cyanide and oil & grease in the discharges to the sewer. This Finding of Violation is based on our April 30, 1993 inspection of Hawker Pacific as well as our review of the City of Los Angeles' sample record for Hawker Pacific. The inspection report is attached as part of this Finding of Violations and Order. We appreciate your staff's cooperation during our April 30, 1993 inspection.

The Administrative Order requires Hawker Pacific to achieve and maintain consistent and permanent compliance with the Federal categorical pretreatment standards and Los Angeles local limits by **JULY 30, 1993.** Our concern is that Hawker Pacific has not demonstrated consistent compliance even with pretreatment in-place. This Order requires Hawker Pacific to submit information on the past and anticipated future pretreatment costs by July 30, 1993 and then requires Hawker Pacific to self-monitor each week through July 1993 and each month thereafter through June 1994.

Any violation of the terms of this Order or pretreatment standards could subject Hawker Pacific to a civil action for appropriate relief pursuant to Section 309(b) of the Act [33 U.S.C. Section 1319(b)] and/or penalties under Section 309(d) of the Act [33 U.S.C. Section 1319(d)] of up to $25,000 per day of

Printed on Recycled Paper

violation. In addition, under Section 309(g) of the Act [33 U.S.C. Section 1319(g)], any violation of the pretreatment standards could also subject Hawker Pacific to an administrative penalty action of up to $10,000 per day of violation not to exceed $125,000. Section 309(c)(1) of the Act [33 U.S.C. Section 1319(c)(1)] provides that negligent violations shall be punished by a fine of not less than $2,500 or more than $25,000 per day of violation, or imprisonment for not more than one year, or by both. Section 309(c)(2) of the Act [33 U.S.C. Section 1314(c)(2)] provides that knowing violations shall be punished by a fine of not less than $5,000 or more than $50,000 per day of violation, or imprisonment for not more than 3 years, or by both. Section 309(c)(4) of the Act [33 U.S.C. Section 1319(c)(4)] provides penalties for knowingly making false statements.

The request for information included in this Order is not subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act because it is not an "information collection request" within the meaning of 44 U.S.C. sections 3502(4) & (11), 3507, 3512, and 3518. Furthermore, it is exempt from OMB review under the Paperwork Reduction Act because it is directed to fewer than ten persons. 44 U.S.C. Section 3502(4), (11); 5 C.F.R §1320.5(a).

EPA has promulgated regulations to protect the confidentiality of the business information it receives. These regulations are set forth in 40 CFR Part 2, Subpart B and in the Federal Register at 41 F.R. 36902 (September 1, 1976) and 43 F.R. 40000 (September 8, 1978). A claim of business confidentiality may be asserted in the manner specified by 40 CFR Section 2.203(b) for part or all of the information requested. EPA will disclose business information covered by such a claim only as authorized under 40 CFR Part 2, Subpart B. If no claim accompanies the business information at the time EPA receives it, EPA may make it available to the public without further notice. Hawker Pacific may not withhold from EPA any information on the grounds that it is confidential.

In the Matter of Hawker Pacific Inc. Flight Accessory Services Division City of Los Angeles Industrial User Sun Valley, California Proceedings under Section 308(a) and 309(a)(3), (a)(4) and (a)(5)(A) of the Clean Water Act, as amended, 33 U.S.C. Section 1318(a) and 1319(a)(3), (a)(4) and (a)(5)(A)	)	FINDING OF VIOLATION AND ORDER Docket No. IX-FY93-37

STATUTORY AUTHORITY

The following Finding of Violation and Order (Docket No. IX-FY93-37) is issued under the authority vested in the Administrator of the U.S. Environmental Protection Agency (EPA) pursuant to Sections 308(a) and 309(a)(3), (a)(4) and (a)(5)(A) of the Clean Water Act [33 U.S.C. Sections 1318(a) and 1319(a)(3), (a)(4) and (a)(5)(A)] (hereinafter the Act). This authority has been delegated by the Administrator and the Regional Administrator to the Director of the Water Management Division of EPA Region 9.

FINDING OF VIOLATION

The Director of the Water Management Division of EPA Region 9 finds that Hawker Pacific, Inc., Flight Accessory Services Division in Sun Valley, California (dba Hawker Pacific) is in violation of Section 307(d) of the Act [33 U.S.C. Section 1317(d)]. This Finding is made on the basis of the following facts:

1. Section 307(d) of the Act [33 U.S.C. Section 1317(d)] prohibits any owner or operator of any source from introducing pollutants into publicly owned treatment works (POTWs) in violation of any effluent standard or prohibition or pretreatment standard promulgated under Section 307 of the Act.

2. Under Section 307(b) of the Act [33 U.S.C. 1317(b)], EPA promulgated general pretreatment requirements and categorical pretreatment standards which include the following:

   a. Federal categorical pretreatment standards in 40 CFR Part 413 for job shop electroplating operations which include the requirement that any existing source job shop electroplating operation comply with the daily-maximum and 4-day average standards for cadmium, lead and amenable cyanide in 40 CFR 413 after the April 27, 1984 final compliance deadline set in 40 CFR 413.01;

   b. The general pretreatment requirements in 40 CFR 403.5 and 40 CFR 403.8 for all industrial discharges into POTWs which require each significant industrial user to comply with local limits developed by the POTW.

3. Hawker Pacific Inc., Flight Accessory Services Division (dba Hawker Pacific) is a corporation and therefore is a person within the meaning of Section 502(5) of the Act, [33 U.S.C. Section 1362(5)]. Hawker Pacific owns and operates the facility at 11310 Sherman Way in Sun Valley, California, 91352. Hawker Pacific is a non-domestic source and introduces pollutants within the meaning of Section 502(6)

of the Act [33 U.S.C. Section 1362(6)], into the City of Los Angeles' Hyperion Wastewater Treatment Plant, which is a POTW within the meaning of Section 307(b) and the regulations 40 C.F.R. Section 403.3(o). Hawker Pacific is therefore subject to the provisions of the Act, [33 U.S.C. Section 1251 et seq., including Section 307, 33 U.S.C. Section 1317].

4. Hawker Pacific violated Section 307(d) of the Act [33 U.S.C. Section 1317(d)] in that:

   a. On April 30, 1993, an EPA inspector and representatives of the City of Los Angeles conducted a compliance evaluation inspection of Hawker Pacific and determined:

      1. Hawker Pacific overhauls aircraft landing gear and hydraulic systems at its Sun Valley facility:

         i. Hawker Pacific does no manufacturing but rather is a job shop that overhauls parts from aircraft owned by someone else;

         ii. Operations include disassembly, grinding, machining, surface metals stripping, solvent degreasing, parts preparation, electroplating of cadmium, chromium and nickel, chromating, painting, paint baking, reassembly and dye penetrant testing;

         iii. Hawker Pacific discharges ~3,500 gpd of wastewater into the sewers;

iv. Hawker Pacific began operations before the August 31, 1982 publication date of the proposed rule for metal finishing and thus qualifies as an existing source job shop electroplater discharging less than 10,000 gpd subject to the pretreatment standards set in 40 CFR 413.14(b)(f), 413.54(b)(f) and 413.64(b)(f) for common metals electroplating, chemical coating and chemical etching;

v. Hawker Pacific discharges all wastewaters except dye penetrant testing rinses through a pretreatment unit involving cyanide destruction and metals removal with ion exchange. The pretreatment unit effluent and dye penetrant rinses combine prior to discharge through one discharge point into the City of Los Angeles sewer which leads to the Los Angeles Hyperion Wastewater Treatment Plant. The discharge point from Hawker Pacific is designated by EPA as IWD-456607.

2. Hawker Pacific discharges no dilution waters (such as domestic sewage and cooling tower blowdown) through IWD-456607 and thus, the Federal categorical pretreatment standards for IWD-456607 do not have to be adjusted with the combined wastestream formula to account for dilution;

3. Hawker Pacific does not discharge wastestreams from processes subject to other Federal categorical standards besides those for job shop electroplating through IWD-456607.

b. On May 27, 1993, EPA determined that the following Federal categorical pretreatment standards apply to the discharge through IWD-456607:

IWD-456607 Pollutant	Federal Categorical Standards Daily-Max (mg/l)	4-day Ave
Cadmium	1.2	0.7
Lead	0.6	0.4
Cyanide (Amenable)	5.0	2.7

c. In the 1993 review of the City of Los Angeles sample record for Hawker Pacific, EPA found documentation of samples taken from August 1, 1988 to May 10, 1993 by Hawker Pacific and the City of Los Angeles representative of the flows through IWD-456607 into the Los Angeles sewers;

d. The results of the samples for IWD-456607 show that Hawker Pacific exceeded its daily-maximum Federal categorical pretreatment standards on at least the following 14 occasions resulting in 14 days of violation:

4-day averages from consecutive 24-hour composites collected by both Hawker Pacific and Los Angeles.

5. Hawker Pacific violated Section 307(d) of the Act [33 U.S.C. Section 1317(d)] in that:

a. On May 27, 1993, EPA determined that the following local limits apply to the discharge through IWD-456607:

IWD-456607 Pollutant	Local Limits Inst-Max (mg/l)

e. Sampling required by schedule shall be representative of the discharge to the sewers and shall be taken from IWD-456607 where effluent from the pretreatment unit combines with dye penetrant testing rinses. Analyses shall be performed using EPA approved analytical methods.

7. Hawker Pacific does not have to perform duplicate self-monitoring when the requirements of this Order and the April 4, 1991 Los Angeles permit overlap. Hawker Pacific may voluntarily sample more frequently than required by item 6 of this Order as long as the voluntary sampling is conducted in accordance with 6 of this Order.

8. Hawker Pacific shall record the following for each sample:

a. The sample results and EPA analytical methods used;

b. Date, time and location of each sample;

c. Type of each sample (ie. 24-hour composite, grab);

d. The flowrate discharged into the sewer on each day of sampling or average discharge flowrate for that month;

e. A description of the operations contributing to the discharge during the collection of the sample as well as the hours of operation and estimated flow for each operation contributing to the discharge during collection of the sample;

f. The name of the laboratory used.

Total toxic organics shall be the sum of concentrations of the constituents listed in 40 CFR 413.02(i).

9. Hawker Pacific shall submit all self-monitoring results (both the results required in item 6 of this Order and any additional voluntary self-monitoring results) no later than the 28th day of the following month. The first monthly report shall be due on July 28, 1993 for the June 1993 monitoring data.

SUBMISSIONS

10. All reports submitted pursuant to this order shall be signed by a principal executive officer of Hawker Pacific and shall include the following statement:

> I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I certify that all wastewater samples analyzed and reported herein are representative of the ordinary process wastewater flow from this facility. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

11. This Order is not and shall not be interpreted to be an NPDES permit under Section 402 of the Act [33 U.S.C. Section 1342], nor a City of Los Angeles sewer discharge permit under 40 CFR 403.8(f)(iii), nor shall it in any way relieve Hawker Pacific of obligations imposed by the Act, any

Federal, State or local law, including the Los Angeles Sewer Use Ordinance. The request for information included in this Order is not subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act because it is not an "information collection request" within the meaning of 44 U.S.C. sections 3502(4) & (11), 3507, 3512, and 3518. Furthermore, it is exempt from OMB review under the Paperwork Reduction Act because it is directed to fewer than ten persons. 44 U.S.C. Section 3502(4), (11); 5 C.F.R §1320.5(a).

Re: United States v. Hawker Pacific, Inc.

Dear Mr. Larkin:

You are hereby notified that the U.S. Department of Justice, at the request of the Environmental Protection Agency, is about to file suit against Hawker Pacific, Inc. for violations of the Federal Water Pollution Control Act at Hawker Pacific's facility in Sun Valley, California. The proposed complaint seeks civil penalties and injunctive relief.

We would like to extend to you the opportunity to settle this matter before litigation, to save both your company and the federal government the burden and expense of litigation. Any settlement must include the company's agreement to comply with the injunctive relief we are seeking. In addition, we will be seeking an appropriate amount of civil penalties for the alleged violations. In that regard, you should note that the complaint alleges 43 violations of the federal pretreatment regulations, for which the statutory penalty is up to $25,000 per day, for a total statutory maximum exceeding $1,000,000.

In the government's view, a penalty of $150,000 would be an appropriate settlement for the violations in this case. Should you not agree, we reserve the right to seek the maximum allowable penalty at law in litigation in this case. Any settlement is subject to execution of a mutually agreeable consent decree, to be filed simultaneously with the government's complaint in this action.

If you are willing to make the required commitments to settle this case before litigation, please advise the undersigned immediately. Your response must include a specific settlement offer that is responsive to the government's settlement requirements outlined above.

If we do not receive what we characterize to be a good faith settlement offer from you by April 25, 1994, we will proceed to immediately file the necessary action to resolve this matter. Thank you very much for your prompt attention to this important matter.

Sincerely,

Lois J. Schiffer

Re: Hawker Pacific, San Fernando Superfund Site

Dear Gail:

Following up on our telephone conversation yesterday, this is to confirm that Hawker Pacific would like to meet to discuss a resolution of the matter described in your letter of April 11, 1994. We would like to meet in Los Angeles, and would appreciate your arranging schedules with the appropriate EPA people so we can do that. We are prepared to meet almost immediately, so please let me know when you would be available.

As I told you, Hawker Pacific regards your letter and demand as something of a bolt out of the blue: Without admitting wrongdoing, at the time of the EPA inspection in April of 1993, the Company had already obtained the equipment and established the procedures it currently has in use -- i.e., batch discharging from the plating shop -- that have consistently met the facility's discharge requirements. The Company has been completely cooperative with the EPA staff, which cooperation is referenced in EPA's letter of June 24, 1993, and the Company believes it has met all the requirements

of the EPA administrative order accompanying that letter. No fine has been mentioned by EPA staff in the course of dealings with the Company (except in connection with any violations of the administrative order, which have not occurred). Given the proactive approach by the Company and its cooperative relations with EPA staff, and the limited nature of the problems alleged, we are particularly surprised that this was referred to the Department of Justice. We understand that several other facilities in the area have been under similar scrutiny, but have been much less proactive and cooperative with EPA staff. The Company is concerned that it not be lumped together with those other, less cooperative parties.

Nothwithstanding the foregoing, the Company would like to resolve this matter without litigation. I understand that the Company (through Dave Clark) has spoken to Greg Arthur of the EPA staff about a resolution involving installation by the Company of additional wastewater treatment equipment that would result in zero discharge from the plating shop. This is equipment not required by law and not needed to meet current discharge limitations, so it is a true "additional" act by the Company. We are assembling the cost data on that matter and will be prepared to present it to you either at, or if appropriate, in advance of our meeting.

I will await word from you on a meeting time and place. We would be pleased to meet at my office or wherever is convenient for you in the area.

Very truly yours,

Michael A. Monahan

Mr. Overton

On July 5, 1994 this facility disconnected our plating shop wastewater treatment system from the Industrial Wastewater Sewer Connection at this site. Since July 5, 1994 this facility has recycled all the plating shop rinse water generated at this facility. On November 5, 1994 we applied for a permit to cap the Industrial Waste Discharge Connection. On November 30, 1994 City of Los Angeles Building and Safety Inspector Carl W. Stude issued us a M-2 form stating that this Industrial Clairifier Sysen was disconnected from the sanitary system.

I would like to schedule an inspection by your Department to verify that the discharge point as been sealed properly. Hawker Pacific is requesting that upon verification of closure, our Indusrtial Wastewater Permit # w-456607 be cancled and that this facility be removed from Significant Industrial User status.

If you have any questions please contact me at 1-818-765-6201 Ext. 297.

Mr. Horner

On Dec. 12, 1993 this facility was notified that we were an granted Conditional Autherization status. This facility treats plating shop rinsewater that is generated onsite by plating operations and discharged to the local P.O.T.W. . In March 1994 Hawker Pacific purchased a new Single Effect Evaporator/Distiller to replace an older atmospheric evaporator that was used to concentrate wastewaters. After the installation and startup of this evaparator we determined that the quality of the distilled water produced could be reused in the plating and rinse tank operations. As of July 15, 1994 this facility has recycled 100 % of our rinsewaters for reuse in the plating and rinse tank operations.

This facility has not discharged to the local P.O.T.W. since July 15, 1994. On Nov. 30, 1994 Hawker Pacific was issued an Approved M-2 form from the City of Los Angeles, Department of Building and Safety stating that this facilities Industrial Waste Discharge Point was capped as outlined in Section 1119 of the Uniform Plumbing Code.

On Nov. 17, 1994 I meet with Gregory Sweel at the Region 3 office. We discussed the exemotion of this facility from the Tiered Permitting Requirments.

Hawker Pacific is requesting to be exempt from the Tierd Permitting Requirments as outlined in California Health and Safety Code .section 25143.2 . under the Recycled Materials.

I have enclosed copies of the M-2 Form an a letter submitted to the City of Los Angeles, Bureau of Sanitation for the cancelation of this facilities Industrial Waste Discharge Permit. If you have any questions please contact me at 1-818-765-6201 ext.297.

Dear Onsite Treatment Facility:

The Department of Toxic Substances Control (Department) has received your letter notifying the Department of the closure of your facility or treatment unit(s).

The Department considers your facility or unit to be closed and no longer subject to the standards of your treatment authorization tier. The Department will change your facility or unit status in our tiered permitting database to "closed". Note, however, that a business is assessed the appropriate fee for being authorized under one of the onsite hazardous waste treatment tiers if it was authorized during any portion of a reporting period; a reporting period is a calendar year.

Please note that your facility may be inspected by the Department or a local environmental agency to ensure that the closure of your facility or unit was carried out in a manner consistent with the standards for closure under your treatment tier. Any violations of these standards, omissions, or misrepresentation may subject your business to enforcement action including, but not limited to, imposition of substantial fines and penalties.

CENTRAL DISTRICT OF CALIFORNIA

UNITED STATES OF AMERICA, and CITY OF LOS ANGELES, Plaintiffs, v. HAWKER PACIFIC, INC., Defendant.	CIVIL NO. <u>CONSENT DECREE</u>

WHEREAS the United States of America, on behalf of the U.S. Environmental Protection Agency (EPA), and the City of Los Angeles filed complaints against Defendant Hawker Pacific, Inc. (Hawker Pacific) with respect to the facility owned and operated by Hawker Pacific in Sun Valley, California; and

WHEREAS, the complaints initiating this civil action were brought pursuant to Sections 307 and 309 of the Clean Water Act (the Act), 33 U.S.C. §§ 1317 and 1319, Sections 54739 and 54740 of the California Government Code and Section 64.30E.7.(c) of the Los Angeles Municipal Code for assessment of civil penalties against Hawker Pacific for violations of Section 307(d) of the Act, 33 U.S.C. § 1317(d), and Los Angeles Municipal Code Section 64.30. The complaints alleged Hawker Pacific's failure to comply with the Act and with applicable pretreatment standards and prohibitions governing the introduction of pollutants into the Hyperion Treatment Plant, a publicly-owned treatment works (POTW), owned and operated by the City of Los Angeles, California; and

WHEREAS, the parties agree and the Court finds that settlement of this civil matter without further litigation is in the public interest, and that the entry of this Consent Decree is the most appropriate means of resolving these matters; and

WHEREAS, the parties, without the necessity of trial or adjudication of any issues of fact or law and without any admission of liability by Hawker Pacific, consent to entry of the following Consent Decree resolving Plaintiffs' claims.

NOW, THEREFORE, it is adjudged, ordered and decreed as follows:

1. Jurisdiction. The parties agree and consent that this Court has jurisdiction over the subject matter and over the parties pursuant to Section 309(b) of the Act, 33 U.S.C. § 1319(b), and also pursuant to 28 U.S.C. §§ 1331, 1345, 1355 and 1367. Venue properly lies in this District pursuant to Section 309 of the Act, 33 U.S.C. § 1319, and 28 U.S.C. §§ 1391 and 1395. The complaints filed herein state claims for which relief could be granted.

2. Parties Bound. The provisions of this Consent Decree shall apply to and be binding upon the United States, the City of Los Angeles and upon Hawker Pacific and its successors and assigns.

3. Civil Penalty. Hawker Pacific shall, as set forth below, pay a civil penalty of sixty thousand dollars ($60,000.00) to the United States and the City of Los Angeles in settlement of the civil violations alleged in the complaint. Hawker Pacific shall pay $30,000.00 to the United States and $30,000.00 to the City of Los Angeles within thirty days of the date of entry of this Decree.

The civil penalty called for by the previous Paragraph is a penalty within the meaning of Section 162(f) of the Internal Revenue Code, 26 U.S.C. § 162(f), and Hawker Pacific shall not treat such penalty as a tax deductible expenditure for purposes of federal, state, or local law, or as an allowable cost pursuant to the Federal Acquisition Regulation, 48 CFR Part 31.

4. Supplemental Environmental Project. In addition to paying the civil penalty as set forth in paragraph 3, Hawker

Pacific shall perform a supplemental environmental project to cease its discharge of industrial process wastewater to the City of Los Angeles' sewer system. Hawker Pacific certifies that it will expend at least $140,000 for the implementation of this project. Hawker Pacific acknowledges that this project is being performed in consideration of settlement of this litigation and in partial mitigation of penalties due for the violations alleged in the Complaint. Hawker Pacific agrees that it will not use its implementation of this project for any advertising or promotional purposes, unless Hawker Pacific expressly states in such advertisement or promotion that the project was implemented as part of the Consent Decree and in response to an enforcement action brought by the United States and the City of Los Angeles for alleged violations of the Clean Water Act.

Hawker Pacific shall cease its discharge of industrial process wastewater to the City of Los Angeles' sewer system. Hawker Pacific shall achieve this result through the installation of vacuum evaporation technology that will eliminate the generation of industrial process wastewater at the facility. Hawker Pacific shall implement this project pursuant to the following schedule:

a. **Purchase Vacuum Evaporator.** Hawker Pacific shall purchase the vacuum evaporator no later than 30 days after entry of this consent decree. Hawker Pacific shall give notice of its purchase of the vacuum evaporator no later than 30 days after purchase.

b. **Install Vacuum Evaporator.** Hawker Pacific shall

complete installation of its vacuum evaporator and commence start up of the system no later than 60 days after entry of this consent decree. Hawker Pacific shall give notice of the commencement of start up no later than 30 days after the commencement of start up.

c. **Cease Discharge of Industrial Process Wastewater.** Hawker Pacific shall cease its discharge of industrial process wastewater no later than 120 days after entry of this consent decree. Hawker Pacific shall give notice of the ceasing of its discharge no later than 30 days after discharge has ceased.

d. **Certification of Continued Compliance.** Three hundred days after entry of the consent decree, Hawker Pacific shall give notice certifying that it has discharged no industrial process wastewater after the deadline in subparagraph c.

5. Stipulated Penalty. If Hawker Pacific violates the terms of Paragraphs 3 or 4, Hawker Pacific shall pay a stipulated penalty of $1,000 for each day during which the violation continues. All stipulated penalties begin to accrue on the day after performance is due and continue to accrue until the day of correction of the noncompliance. Stipulated penalties shall be paid 50% to the United States and 50% to the City of Los Angeles.

6. Manner of Payment. All payments made to the United States under this Consent Decree shall be by certified check made payable to "Treasurer, United States of America," and shall be sent to the United States Attorney for the Central District of California. Correspondence submitted therewith shall include a reference to the case caption and index number of this action.

All payments made to the City of Los Angeles under this consent decree shall be by certified check made payable to City of Los Angeles, Bureau of Sanitation. A copy of all checks and correspondence tendering such checks shall be sent to the City of Los Angeles, EPA Region IX and the United States Department of Justice, in accordance with Paragraph 12.

7. Failure to Pay Penalties. Re: People v. Hawker Pacific, et al.
Case No. 5CR02646

Dear Ms. Ruden:

I am writing to respond to the concerns you raised at our meeting of November 9, 2005, as well as to respond to the settlement proposal you outlined during our telephone conference on November 16, 2005. Our sincere hope is that we can present a final settlement to the Court on December 29, 2005, if not shortly thereafter.

Responses to Your Concerns

The biggest concern you articulated at our meeting related to the presence of an open "illegal" drain to the sewer in the process area where the chrome scrubber wash down tank is located. You were very concerned that there could have been an open drain in a processing area of this zero discharge facility. Well, it turns out that there is no drain there. My understanding of the situation and my November 4, 2005 letter to you was inaccurate in this regard. There is no open floor drain in that area. The overflow from the containment tank had been plumbed to a sewer vent pipe, not a drain. In August, 2005 when the re-plumbing took place to supply the deionized water, the connection to the vent pipe was sealed. I enclose for your review narrative descriptions and photos which show both the tank as plugged and the sealed vent pipe (Exhibit A).

The second set of concerns you raised related to the nature and fate of wastes generated by the water treatment system and the manifesting of these wastes. You expressed concern over 1) the disposal of "spent cartridges" used in the treatment system; 2) the connection between the volume of waste generated by the treatment system and the waste manifested off-site; and 3) manifesting of constituents, specifically metals.

As to "spent cartridges", there are none. There are no cartridges associated with the water treatment system. The closed loop water treatment system (in use since 1993) uses a vacuum distillation process for recycling plating shop rinse water. The vacuum distillation system operates by heating the rinse waters in a vessel to a temperature where it turns from a liquid to water vapor (steam). The water vapor (steam) is collected and is passed through a condenser designed to lower the temperature of the water vapor and re-condense it back in to a liquid form (clean water). After this process most of the impurities (wastewater concentrate) have been removed and the re-condensed water is pumped to the clean water holding tank to be reused as needed. The impurities (wastewater concentrate) that were in the rinse waters remain in the heating vessel, and are pumped out to a container for shipment off site for treatment, disposal or recycling. They are in a liquid form. The impurities (wastewater concentrate) are normally dissolved salts, metals, cyanide and other materials or chemicals. They normally have a ph of 6.5 to 7.5, which is basically neutral; it is not acidic or alkaline. The vacuum distillation system processes plating rinse water at a flow rate of 16 to 20 gallons per hour, 384 to 480 gallons per day. The recovery is approximately 98%. This system generates approximately 8.0 to 9.6 gallons of impurities (wastewater concentrate) a day (3504 gallons a year). The clean water will contain approximately 250 PPM of total dissolved solids. Some of these total dissolved solids will be metals, salts, cyanide, organics, etc. As to volume, the treatment system wastewater concentrate accounts for far less than half of the waste generated by the plant.

By way of example, we have collected the waste date for calendar year 2004. During 2004, the facility shipped approximately 12,309 gallons of liquid waste. The figures for 2004 are outlined below:

Spent Bath	Anode Cleaner	959	Gallons	8% of total
Spent Bath	Alkaline Waste Solution	1552	Gallons	13% of total
Spent Bath	Sulfa-matic Acid	2000	Gallons	16% of total
Spent Bath	Nickel Solution	2700	Gallons	22% of total
	wastewater concentrate (combined with other liquid wastes)	5098	Gallons	41% of total
		12,309	Gallons	100%

This facility ships cyanide waste off-site for treatment, disposal or recovery, approximately once every 10 to 15 years. It did not do so in 2004. To manifest a waste stream as a cyanide waste it must contain at least 1000 Mg of cyanide per liter. The Company's regular waste streams that contain some cyanide normally have a concentration of 5 to 150 Mg/per liter, far below the 1000 Mg/per liter threshold.

The 2004 manifests are enclosed for your review (Exhibit B). You will see that metals used in the Company's plating process, including cadmium, nickels, chrome, lead and cyanide are referenced in the manifests.

Response to Your Settlement Proposal

Hawker and Eric Johnson appreciate your proposal as one made in good faith and would like to resolve the matter along the lines proposed. We have three proposed modifications. We believe that they are justified in this case for the reasons we've previously presented, as supplemented by the information herein, all of which demonstrate an innocent mistake made by an otherwise careful and compliant facility.

First, we would propose that the Company plead (no contest) to one, but not both, of the California Health and Safety Code Counts (Counts One or Two), the other to be dismissed as to the Company along with all Los Angeles Municipal Code Counts. (We understand that all charges will be dismissed as to Erik Johnson). Second, we would propose that the Company pay a $50,000 fine on that Count, rather than the $70,000 fine you propose. This remains a substantial fine. Together with the statutory court imposed penalties, the cost to the Company would be significant and would certainly serve as a deterrent. The Company is willing to reimburse the costs in the amount of $22,733.99, as requested. The Company would be willing to make a lump sum at one time within a reasonable time period after entry of the Order (e.g. 14 days). Third, we would propose a 24-month probation period rather than the 36-month period you propose. We understand that there would be no probation officer. We would also be pleased to facilitate an inspection to show that the problem has been corrected.

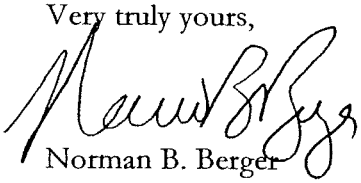
Conclusion

We trust that we have answered your concerns, and that the answers further demonstrate that the Company's conduct here is less egregious than you had feared. We further trust that you will find our counterproposal respectful of your proposal, and reasonable under the circumstances.

Please contact me at your earliest convenience if you feel that we need to discuss this further, or simply send me a draft agreement for my review.

We appreciate your consideration.

Very truly yours,



Norman B. Berger

Section 1: Introduction

A. Objectives of the Investigation

The purpose of this document is to present results from Hawker Pacific Aerospace and the Wagner and Basinger Trusts' subsurface environmental investigation at the Hawker Pacific Aerospace facility in Sun Valley, California. The investigation was designed to evaluate whether or not elevated concentrations of hexavalent chromium are present in shallow soil underlying portions of the site where hexavalent chromium is (or was in the past) used or stored. The investigation was conducted in accordance with the June 14, 2004 work plan (Shaw Environmental, 2004) which was approved by the California Regional Water Quality Control Board, Los Angeles Region (RWQCB) on August 27, 2004. The work was initiated in response to a request from the RWQCB to the Wagner and Basinger Trusts in a letter dated March 15, 2004 and a subsequent request to both Hawker Pacific Aerospace and the Wagner and Basinger Trusts in a letter dated September 30, 2004.

B. Site Description

The Hawker Pacific Aerospace site is located on Sherman Way, near the Burbank Airport (Figure 1). Administrative offices and Buildings 4, 5,6, 7 and 8 are located at 11240 Sherman Way. Buildings 1, 2 and 3 are located on an adjacent parcel at 11310 Sherman Way. The Wagner and Basinger Trusts own the real property at 11310 Sherman Way. Hawker Pacific Aerospace repairs and overhauls aircraft landing gears and hydraulic components.

Site Location Map

The repair and overhaul of landing gears has been the principal operation at the site since October 1966; although different business entities have operated at the site since that time. The Wagners and Basingers purchased the real property parcel located at 11310 Sherman Way in May 1966, and Stellar Hydraulics commenced operations on that portion of the current site in October 1966. Stellar Hydraulics was purchased by Canoga Industries in August 1968, and Canoga Industries operated on the site until 1977. In 1977, Canoga Industries merged with Zero Corporation and the landing gear overhaul business continued under the Zero Corporation name. In 1979, Zero Corporation sold the Sherman Way operation to Bertea Corporation which—in turn—merged with Parker-Hannifin in 1980. Parker-Hannifin operated at the site until 1982 when Flight Accessory Services purchased the operation. In 1987, Hawker Pacific Aerospace purchased substantially all of the assets of the landing gear overhaul operation at the site and Hawker Pacific Aerospace operates at the site to this day. The current operation occupies eight buildings as shown on Figure 2.

C. Use of Heavy Metals at Hawker Pacific Aerospace

As part of the process of overhauling aircraft landing gears, Hawker Pacific Aerospace conducts plating operations involving chromium as well as other metals such as nickel and cadmium. No chromium spills or leaks have been reported at this site and no chromium subsurface investigations have been conducted in the past. Chromium for the plating operation is purchased and stored as solid chips. According to purchasing records, Hawker Pacific Aerospace's chromium usage in recent years has been as follows:

2003	10,400 pounds chromium trioxide chips
2002	9,400 pounds chromium trioxide chips
2001	4,600 pounds chromium trioxide chips

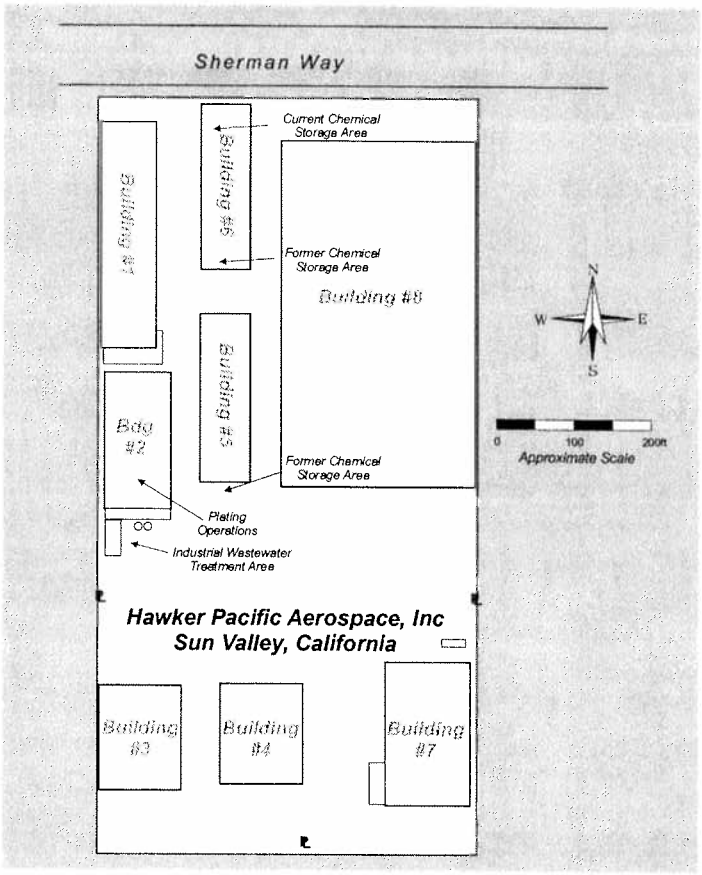

Figure 2
Facility Map

Because no spills or leaks have been reported at this site, sampling locations for this investigation consisted of process areas (in particular, Building 2 where chromium plating operations are conducted) and all known current or past chemical and waste storage locations.

Plating operations were first conducted at the site by Canoga Industries, starting in late 1968, and have always been located in Building 2. The plating tanks currently consist of (from south to north) a rinse water tank (previously used as an iridite tank), a caustic solution tank, a nickel plating tank, a cadmium plating tank and four chromium plating tanks (Figure 3). These tanks are mounted in a 6-foot deep concrete pit which contains a small sump at its northwestern corner. Directly north of the plating tanks is a 5-stage clarifier which is no longer in use. The clarifier was connected to the City sewer line until 1994 when the connection was capped and cemented. Process wastewater is now piped to a closed-loop vacuum distillation unit located immediately south of Building 2 for treatment and recycling. Building 2 also contains the NITAL area which consists of seven tanks containing: iridite, nitric acid, hydrochloric acid, caustic solution and rinse water tanks.

Raw materials (including chromium trioxide chips in 100 lb. containers) are currently stored in the north end of Building 6. Over the years, raw materials have been stored in two other areas at the site: the southern portion of Building 6 and outside the southern end of Building 5.

All liquid waste streams from the plating operation are treated in Hawker Pacific Aerospace's vacuum distillation unit. The only waste from this operation is a liquid concentrate which accumulates in a small tank in the treatment compound. The liquid concentrate is periodically emptied from the accumulation tank and transported under manifest to an offsite treatment and recycling facility.

Section 2. Previous Environmental Work

Hawker Pacific Aerospace and the Wagner and Basinger Trusts have conducted a number of environmental investigations at the Sherman Way site. In response to a regulatory request (RWQCB, 1988) Hawker Pacific Aerospace conducted a series of investigations in 1988 and 1989 (Law Environmental, 1989a; 1989b, 1990a). These investigations focused on assessing the presence or absence of volatile organic compounds (VOCs) in soil underlying the site. Soil borings were advanced and soil samples were analyzed for VOCs at or near the chemical storage sheds, an above-ground trichloroethene (TCE) tank, an above-ground waste oil tank, a flammable liquid shed, two private septic systems, and the industrial waste clarifier. Upon review of data from these investigations, the RWQCB concluded that no further action was necessary at the site with respect to the Well Investigation Program (RWQCB, 1990).

In 1989, Hawker Pacific Aerospace personnel discovered a previously unknown 280-gallon underground storage tank (UST) and sump on the western edge of the property between Buildings 1 and 2. Hawker Pacific Aerospace notified RWQCB of this discovery by letter (Hawker Pacific Aerospace, 1989). In August 1990, Law Environmental conducted a soil investigation in the UST and sump area. Petroleum hydrocarbons and chlorinated compounds—principally tetrachloroethene (PCE)—were detected in a very limited zone of shallow soil and no PCE was detected deeper than 30 feet below ground surface (bgs). With representatives of the RWQCB and Los Angeles County Fire Department in attendance, the tank and sump were removed in August 1991 (Law Environmental, 1991).

In 1993 the US Environmental Protection Agency (USEPA) notified Hawker Pacific Aerospace that the agency considered it to be a potentially responsible party (PRP) for regional groundwater contamination in the San Fernando Valley (USEPA, 1993). USEPA demanded a large financial payment from Hawker Pacific Aerospace as its share of cleanup costs. While Hawker Pacific Aerospace negotiated this claim with the federal government, the RWQCB notified Hawker Pacific Aerospace that it was necessary to implement a soil vapor extraction program to mitigate VOC impacts to soil. Hawker Pacific Aerospace believed the soil vapor extraction program was unnecessary. In particular, data collected in the early 1990s showed that remaining impacts to shallow soil were small to nonexistent. For example, in June 1992, Law/Crandall, Inc. had collected soil samples while installing four vapor extraction wells (Law/Crandall, 1993). Similarly Geraghty & Miller collected soil samples in January 1994 in the vicinity of the former UST and sump. The results of both sampling efforts showed only scattered and low concentrations of VOCs (of the samples collected by Law, only one of eight contained PCE, at a concentration of 31 μg/kg; of the samples collected by Geraghty & Miller, none of 17 samples contained PCE).

Geraghty & Miller also conducted neutron logging at the site to a depth of approximately 84 feet bgs and analyzed soil samples for a suite of physical soil tests that showed—among other things—that the vadose zone is heterogeneous with continuous perched (saturated) zones in the vadose zone. This was a fundamental finding because it showed that barriers to vertical flow of both soil moisture and soil vapor exist in the subsurface that serve to minimize the risk of shallow soil impacts to the underlying groundwater.

In its March 1996 report to the RWQCB, Geraghty & Miller (1996a) summarized and interpreted the available subsurface data and concluded that PCE impacts to the soil consisted of a localized zone with low concentrations. Geraghty & Miller found that PCE concentrations in soil fell below cleanup thresholds for protection of groundwater quality (using the methodology promulgated in the RWQCB's 1995 Interim Guidance Document). Geraghty & Miller concluded that the vapor extraction program was not necessary and recommended that it not be implemented

The RWQCB responded (RWQCB, 1996a) with a request for additional investigative work in the vicinity of the former UST and sump in order to confirm the limited extent of PCE in shallow soil. Geraghty & Miller submitted a work plan (Geraghty & Miller, 1996b) and conducted additional work in June 1996, consisting of soil sampling, soil vapor sampling and analysis of the organic carbon content in soil samples. Integrating this new data with existing information, Geraghty & Miller used RWQCB methodology (RWQCB, 1995) to recalculate the potential for groundwater impact from the minor occurrence of shallow soil contamination. The combination of low VOC concentrations, heterogeneous vadose zone lithology, and the great depth to groundwater (237.5 feet bgs in 1996 and nearly 300 feet bgs today) demonstrated the validity of Geraghty & Miller's earlier conclusion that the known soil impact at the Hawker Pacific Aerospace site did not constitute an unacceptable threat to groundwater quality. The RWQCB (1996b) concurred with this interpretation (essentially reaffirming its 1990 opinion) in a November 1996 letter: "we have no further requirements with respect to the Well Investigation Program for the subject site."

Section 3 Field Activities

A. Soil Sampling

This investigation consisted of collection of 81 soil samples at depths ranging from 1 to 25 feet below ground surface at the Hawker Pacific Aerospace site in Sun Valley, California. As discussed in Section 1, sampling locations were chosen based on the current or former existence of chrome plating operations and material or waste storage areas and were approved by a RWQCB representative during a pre-drilling site walk on December 1, 2004. During the site visit, 15 soil boring locations were agreed upon (13 targeted locations and 2 background locations) from which soil samples were subsequently collected at 5-foot intervals. In some cases, the locations differed somewhat from those proposed in the June 14, 2004 work plan thus, the locations marked during the site walk superseded the locations proposed in the work plan.

Health and Safety Considerations

The investigation was conducted in adherence with the Health and Safety Plan which can be found in Appendix A of the Work Plan. The Health and Safety Plan describes in detail the procedures for maintaining a safe workplace and precautions that were employed by Shaw personnel to protect against potential exposure to chemical and physical hazards.

Soil Sampling

Soil sampling was accomplished by advancing 15 soil borings: 13 in areas related to chromium use or storage at the site and two at background locations as shown on Figure 4. The location of each soil boring was measured with a hand-held GPS unit, as required in the RWQCB's *General Workplan Requirements for a Heavy Metal Soil Investigation*, and the coordinates of each boring are provided in Table 1. Nine soil borings were located adjacent to plating operations in Building 2. Three borings were located in the chemical storage areas (one current storage area and two former areas: see Figure 4). One boring was located directly adjacent to the industrial wastewater treatment system south of Building #2. Finally, the two background borings were located near the eastern boundary of the Hawker Pacific Aerospace site, in locations remote from any known current or former chemical storage or handling areas.

Prior to beginning field activities, Shaw marked all boring locations with spray paint and notified Underground Services Alert of the intent to conduct a subsurface investigation at the site.

Sample locations within buildings required concrete coring to access the underlying soil. A concrete coring subcontractor cut a 6-inch diameter core at each location. Soil borings were then advanced using a direct-push drilling system. Drilling and soil sampling were conducted in accordance with Shaw's standard operating procedure for direct push drilling (see Appendix B of the Work Plan)

In accordance with the RWQCB's *General Workplan Requirements for a Heavy Metal Soil Investigation* soil samples from plating and material and waste storage areas were collected at depths of approximately 1, 5, 10, 15, 20 and 25-feet bgs. Soil samples from background locations were collected at depths of 1 and/or 10-feet bgs. No significant lithologic heterogeneity was encountered so it was concluded that additional background samples were not needed to capture any natural compositional variability of metal concentrations in soils at this site.

Soil samples were collected at the desired intervals using a direct-push sampling device fitted with acetate or brass sample sleeves. Once the sleeve was extracted from the sampling device, it was immediately capped with Teflon and a plastic cap, labeled and stored on ice in a cooler. The samples were delivered each day to

Severn Trent Laboratory, a State of California-certified laboratory for chemical analysis. Chain of custody records were maintained from the time of collection through receipt of the samples by the laboratory. During sampling, a California-registered Shaw geologist logged soil profiles using the Unified Soil Classification System (see Appendix A for the soil boring logs) and samples were also screened using a photoionization detector.

Once again, following standard operating procedures, the soil borings were backfilled with Portland cement. Finally, the surface was patched with concrete or asphalt to match surrounding grade.

Quality Assurance/Quality Control

Internal quality control checks were performed for the soil sampling and analytical procedures by collecting, analyzing, and evaluating field quality control samples. The laboratory followed its own QA/QC program in compliance with its state-approved Quality Assurance Plan. Field-based quality control procedures included collection of the following data:

- Field rinsate blanks – field equipment blanks were collected using laboratory-provided water to assess the effectiveness of decontamination procedures (see below) for soil sampling equipment and to evaluate any potential cross contamination between soil samples. One field equipment blank was collected for each of the two days of soil sampling and was be tested for the same analyses as soil samples.
- Trip blanks – trip blanks are used to identify any potential sample contamination during handling and transport to the analytical laboratory. The trip blanks were provided by the laboratory and each day, one trip blank accompanied the cooler containing soil samples to be analyzed for metals.
- Temperature blanks – temperature blanks are used to assess soil sample storage procedures and accompanied each soil sample cooler.

Decontamination of Field Equipment

Field equipment that comes into contact with soil was decontaminated in accordance with Shaw's standard operating procedure for decontamination (Appendix B of the Work Plan). For metals, an important component of the decontamination procedure is to rinse equipment with an acid desorbing wash. Wastewater from the decontamination process was directed to the industrial wastewater treatment system operating at the site.

B. Laboratory Analysis of Samples

All soil samples were initially tested for Title 22 metals using EPA Method 6020. If the concentration of total chromium from a specific sample exceeded EPA Region IX's SSL (soil screening level) of 38 mg/kg *or* otherwise appeared to be elevated, then a split of that sample was further analyzed for hexavalent chromium using EPA Method 7199. Samples from background borings and other selected locations were also analyzed for hexavalent chromium in spite of the fact that total chromium levels were low (less than 10 mg/kg) in these samples. This sampling protocol is reasonable because the SSL is EPA's estimate for threshold concentrations that constitute a potential threat to underlying groundwater. It follows that if total chromium is less than 38 mg/kg, hexavalent chromium must also be less than 38 mg/kg and that particular sample would not represent a likely threat to groundwater quality (thus negating the usefulness of running the costly hexavalent chromium test). All tests were conducted within the appropriate EPA-specified holding times.

Section 4. Results and Conclusions

The upper 25 feet of the soil column underlying Hawker Pacific is quite homogeneous, consisting of coarse sand and sandy gravel (see boring logs in Appendix A). The finer-grained units noted in Section 2 are encountered at a greater depth.

We observed no evidence of staining or unusual occurrences of soil moisture that might have signified a release. Laboratory results are tabulated in Table 2 and displayed on Figure 4. Full laboratory reports are included in Appendix B. At the background sampling locations, hexavalent chromium was not detected (the laboratory detection limit was 0.4 mg/kg) and total chromium concentrations varied between 1.9 to 3.9 mg/kg. In the targeted sampling locations, no samples were found to contain hexavalent chromium in excess of EPA Region IX's soil screening level of 38 mg/kg. However, there are occurrences of total and hexavalent chromium near the plating tanks in Building 2 at levels above natural background concentrations. These occurrences are limited to shallow soil horizons. For example, the highest chromium detection was in the 1-foot sample at soil boring DP-4 (total chromium = 180 mg/kg; hexavalent chromium = 34 mg/kg) but the next deeper sample at 5-feet has no indication of elevated chromium (total chromium = 3.0 mg/kg; hexavalent chromium = nondetect). The deeper samples from this boring exhibit similarly low chromium levels indicative of natural background concentrations. A similar pattern prevails at DP-2 where the 1-foot sample contained 48 mg/kg total chromium but all the deeper samples (5-25 feet) contained less than 10 mg/kg.

A reasonable interpretation of this finding is that over the years, small drips and spills from the plating operation have diffused through the concrete floor and impacted the soil directly underlying the floor. The low volume of such drips and spills and the lack of infiltration due to the presence of the concrete slab have combined to limit the vertical extent of total and hexavalent chromium occurrences in the soil. Groundwater is nearly 300 feet deep in this area, thus, we believe limited infiltration and the extensive depth of the vadose zone provide sufficient protection against groundwater impact from this surficial occurrence. This conclusion is reinforced by Geraghty & Miller's work between 1994 and 1996 (see Section 2) in which the vadose zone was carefully mapped and found to contain occasional, continuous fine-grained layers. Just as these barriers to vertical soil moisture flow served to minimize the risk of shallow VOC impacts to the underlying groundwater in the past, they provide the same protective function for chromium in shallow soil today.

In recent years, Hawker Pacific Aerospace has implemented physical improvements to the plating process that are likely to mitigate the potential for any ongoing release. In 2000 Hawker Pacific applied a rolled epoxy to the walls and floor of the plating containment pit as well as along the floor surrounding the pit where there is a seam between the sidewalls and the floor of the building. In 2004, Hawker Pacific fabricated drip pans for the building floor for the front of the tanks as well as between the tanks to catch drips from treated parts as they are moved in and out of the tanks. The drip pans are periodically vacuumed and cleaned in the rinse tanks. Finally, the entire floor in the plating area was painted in 2004 with a water-based epoxy paint to minimize infiltration of liquids into the concrete.

Considering a) the limited extent of this occurrence of elevated chromium; b) the fact that the affected soil is confined to an area under a concrete slab (i.e. there is no human exposure pathway); and c) the physical improvements recently implemented by Hawker Pacific, we recommend no action at this time.
