Subject: Heads-up on Paden City, WV Residents Concern

Paul,

FYI. OSC Matlock is being contacted about drinking water contamination in Paden City, WV. We forwarded to the CICs and PA. Dennis is also working with Mark Ferrell in WV. We don't have any more info at this time. Looks like PCE contamination. Here is an article I found which probably start it.

Kevin:

I sent this to Amie Howell and Roy Seneca. Den is checking with Mark Farrell. You may want to tell Paul.

Subject: Questions on Paden City

Mr. Matlock - Hi, my name is Alex and I'm a reporter with the Intelligencer in Wheeling. I'm writing about the water contamination in Paden City and was hoping to ask you a couple additional questions after speaking with the city, WVRWA, the DEP, etc. Would you have any time today to answer them? I've listed a few below or feel free to give me a call at 304-233-0100 ext. 270.

-Could you explain what work the EPA has done in Paden City so far? What steps need to be taken moving forward?
-How concerned should residents be about this excess contamination? Are there any extra steps they should take or is the water generally safe?

Thank you,
Alex Meyer
