Re: Approval of 2010 Integrated Report Section 303(d) List

Dear Mr. Korleski:

The U.S. Environmental Protection Agency conducted a complete review of Ohio's 2010 Section 303(d) list and supporting documentation and information. Based on this review, EPA determined that Ohio's 2010 list of water quality limited segments still requiring Total Maximum Daily Load calculations meets the requirements of Section 303(d) of the Clean Water Act and EPA's implementing regulations. Therefore, EPA hereby approves Ohio's 2010 Section 303(d) list. EPA approves the State's decision to list the waters and associated pollutants identified on Ohio's 303(d) list along with the State's priority rankings for these waters and pollutants. The statutory and regulatory requirements, and EPA's review of Ohio's compliance with each requirement, are described in the enclosed decision document.

We appreciate the timely submittal of the list as required. If you have any questions please contact Mr. Peter Swenson, Chief of the Watersheds and Wetlands Branch, at 312-886-0236.

Sincerely,

Tinka G. Hyde
Director, Water Division
