3. **Consignee**
   Xstrata Canada Corporation
   Horne Smelter
   156 Marcel-Baril Avenue
   Rouyn-Noranda (Quebec)
   J9X 7C1 Canada

4. **Hazardous Waste Exported**
   Foundry Sand
   EPA Waste Code: D008
   DOT Shipping Name: Hazardous Waste, Solid, NOS
   DOT Hazard Class: 9
   DOT I.D. No. NA3077

5. **Transporter**
   ProNorth Transportation
   EPA I.D. No. CAR000152355

6. **Waste Shipments**
   Total Waste Shipments: 28
   Total Waste Amount: 1,755,209 lbs.

7. **Efforts During Year to Reduce Volume and Toxicity of Waste Generated**
   In late 2001, Conbraco implemented a program (chemical Lead stabilization) to render approximately twenty percent of the subject facility's hazardous waste (otherwise exported) non-hazardous under RCRA. Conbraco continued that program in 2011. Conbraco is presently exploring additional opportunities to reduce the volume and toxicity of hazardous wastes generated at the subject facility.

8. **Changes in Volume and Toxicity of Waste Achieved During Year in Comparison to Previous Years**
   The waste volume generated at the subject facility in 2011 increased because of an increase in sales, as compared to the volume generated in the previous calendar year. The waste toxicity was similar.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.

Sincerely,

CONBRACO INDUSTRIES, INC.
