| *Total Amount Shipped Pounds* | *27,660* | *0* |
| *Number of Shipments* | *1* | *0* |

**5. Waste Minimization and Toxicity Reduction Programs**

*The waste is generated from the periodic clean-outs of tanks and containers used in the terminal operations and transportation of antiknock fuel mixtures. Ethyl Corporation ceased the production of TEL at the Houston Plant in 1980. Clean-out wastes were not exported from the Houston plant for treatment and disposal prior to 1998. Waste volume is expected to trend towards zero over a period of ten years or more as worldwide sales of TEL based antiknock fuel additives continue to decline.*

**6. Certification:**

*I certify under penalty of law that I personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.*

*If you have any questions on this matter, please contact me at 713-740-8371.*

*Sincerely,*

*ETHYL CORPORATION*
