Subject:	Final Inspection of creek area
Date:	08/28/2012 04:31 PM

The creek banks have been re-established and sod installed along areas next to the creek to prevent sediment from entering the creek. There are still about 75 empty tanks on site that are being cleaned before removing. At this time the City of Oklahoma City will not be inspecting the site unless called upon.

Raymond L. Melton, CSI, CPESC
