What State are these in? The PWS ID's are not valid without a 2 State label.

Hi Rita,

The Community PWS list is attached, only 5 of them.

Milo

Can you send me the CWS list? It looks like I only received the NCWS list via forwarding of emails.

Hi Rita,

Could someone from your section assist Ryan? He's requesting that someone provide the PWS names for the PWSIDs in the attached Excel ss.

Thanks!

Best wishes,
Heather

Heather,
Is there someone that could pull the PWS names for us?

And here are the Non-Community PWSIDs. Only 31 of them, perhaps not too daunting for someone to add names in a separate column.

Ryan,

I'm making a map of Central Sands Dairy that includes all of the GIS layers that have been discussed thus far in a single combined map, and I'm think it would be more useful to Cheryl to have the mapped public water systems labeled by name rather than PWSID. But there is a problem in my not having access to SDWIS, I can only come up with PWSIDs. Therefore I need someone who has access to SDWIS to take the attached excel file and enter the associated name in a new column. Can you do this? Should I work with someone in GWDWB? (The attached small handful of PWSIDs are for the nearby community water systems only. The excel file for the non-community water systems will be a much longer list of PWSIDs).

Milo
