**Subject**: Re: WDNR's press releases on nitrates in drinking water - Wood-Juneau County

Yes, this is believed to involve Central Sands Dairy and Cathy and Kurt are recused.

I will find out from Cheryl this am the latest on homeowner notifications and alternative water and the status of receiving all data.

> Thanks Linda and team, including for close coordination with WDNR and county health depts. This matter is believed to involve Central Sands, right? If yes, then my understanding is that Cathy and Kurt are recused.
>
> Any further information on whether these five homeowners, and any other affected homeowners, are using bottled water? Also, my understanding is that additional samples were taken to help identify source and plume - is the data now available? Let's be sure to confer on Wed - ie, in advance of this Thurs 8:30am check-in w Pat Stevens of WDNR - if we haven't otherwise connected.

>> Hi, Jim. Cheryl Burdett (from our enf program who reached out previously to the five private well homeowners in Juneau Co. whose wells we sampled) is going to send the 5 homeowners today via email WDNR's fact sheet on nitrates in drinking water and Juneau Co health department's phone number if they have questions on the health effects of nitrates. I called Jim Zellmer and left him a voice mail alerting him about what we are doing. Jim is in the office today but wasn't at his desk.

**Subject:** Wood-Juneau County release

Anne,

I believe our program folks will be sharing the attached news release with your program folks regarding well testing by the Wood County health department which also covers Juneau County. This is the same area where EPA did the testing back in April.

Don't know if this has actually gone out yet but it is dated today.

**We are committed to service excellence.**
