Importance: High

Hi Cheryl,

To help you along with notifying residents of their private well nitrate sampling results, I have updated the two draft data memos – results above MCL and results below MCL – to include Linda's edits. Please use these versions in you hard copy notifications – and can be used for your emails as a copy/paste.

Please let me know if you have any questions.

Best wishes,
Heather

Subject: Word Version of Nitrate Data Memo and Info Packet for Private Wells sampled - CSD Case

Hi Cheryl,

I am forwarding Word versions of two drafts of the data memo to residents that is used to provide private well owners with sample results for EPA collection efforts for CSD case. One draft is for residents whose wells had nitrate levels above 10 mg/L of nitrate and the other is for residents whose wells were below 10 mg/L of nitrate.

I understand that you'll be providing us with further information on the 13 private wells that were sampled last fall and have not formally received their test results and nitrate information. It would be great if you could get their email addresses to share their results and the 3 pdf attachments but if not, the attached data memo templates would be the way to go via U.S. mail. I understand that 3 of the 13 wells tested last fall were also tested in May and have received this information from us. I appreciate you following up with the remaining 10 residences to obtain their email addresses.

Best wishes,
Heather

Subject: Final Data Memo and Info Packet just dropped in express mail to Ex. 6 Personal Privacy (PP) - copy as FYI

Hi Cheryl,

Attached is the final information packet for Ex. 6 Personal Privacy (PP) – data memo plus 4 attachments. I am also attaching the 3 general attachments as separate pdfs for your records – the 4th attachment was the lab report for the resident. We just dropped the information to be sent via express mail to Ex. 6 Personal Privacy (PP)

Please let me know if you have any questions.

Best wishes,
Heather
