Cheryl,

Region 1 and Region 7 are sampling now.

Thanks

I'm sorry, I didn't answer your call. I was on the phone with my Supervisor.

Sure. Just need the logistics. We still need to order stuff and check the filtering apparatus for sure. Let me know.

Thanks

Ok, so does November 7 -10 work ok for you?

Sincerely,

Cheryl Burdett

Cheryl,

Also Nov 11 is Veterans Day which I believe is a holiday for us.

Subject: Phylochip

Hi Aaron:

I am not sure if you have to put in your travel through November 15 for this year, but we need to do two separate inspections up to Central Sands Dairy, LLC. One inspection would be a site visit of the facility and possibly E.coli testing at private wells that have not been tested. We would like to determine what wells have hits for E.coli prior to doing the phylochip. The second trip would be to do the phylochip testing where we had hits for E.coli.

I put my trips for November 1-3 and November 7 -10.

Hope this works for you. I plan on trying to go out on the inspections in October, but I put my travel in later for some wiggle room.

Sincerely,

Cheryl Burdett
