Subject: EPA 2017 Well Sampling Results

In reply to a question you asked: Of the six private homes that exceeded the nitrate MCL in October of 2017, I am told that four of those homes were part of the Juneau and Wood Counties' sampling effort in May of 2018. EPA has reached out to the two other private homeowners and invited them to contact Matt Komiskey, Juneau County Land and Conservation to request bottled water.

Please contact Mr. Matt Komiskey to inquire as to whether or not the two private homeowners from EPA's October 2017 sampling contacted him.
