**Attachments**: Basewide Rad Removal Action Memo.pdf; ECSD-4808-0003-0003 Fnl Work Plan_CD.pdf; RMAC-0809-0012-0052 Fnl SUPRA NORM_CD.pdf

Dear Amy,

Thank you for your message. Attached are the following:

1-the 2006 original basewide Action memo
2 - the latest (2015) workplan w/details, and a description of .
3- description of storm drain & sewer removal progress that occurred in 2013

Unfortunately #2 & #3 don't apply to the time period when previous anomalous samples were found.

There have been earlier workplans along the way. I have one earlier one in my cube, but I'm out of the office this wk bc my kids are on spring break. If you need it urgently, you can look in my cube close to where you found the Tetra Tech internal investigation before, under the tabletop in the bottom right area. But I think it might have been 2013, though, also not covering the period of time of the anomalous sample collection. I am searching the EPA records center spreadsheet to look up older relevant workplans. If I can find them, then I'll request them to be taken out of storage.
