Subject: Hunters Point - call with Congressional staff

Hello Mike:

I wanted to give a very brief recap of the call with congressional staff. Brent's summary is below:

Update Call with Congressional Offices for Hunters Point with Navy, CDPH, and EPA: Brent Maier coordinated and participated in an update call today with Robert Edmonson, Dan Bernal and Sarah Jackson– Office of Congresswoman Nancy Pelosi; John Murray - Office of Senator Dianne Feinstein; and June Williams & Chris Cunnie - Office of Senator Kamala Harris regarding Hunters Point Naval Shipyard with the Navy, CDPH, and EPA. This call provided an opportunity to provide a recap of the October 3rd Navy Community meeting and provide their offices with any additional updates. Navy's Laura Duchnak and CDPH's Mark Starr along with other staff also participated. EPA participants included Superfund's Enrique Manzanilla and John Chesnutt and Office of Public Affairs Kelly Zito and Brent Maier. (SFD)

Some highlights:

The Navy's Laura Duchnak gave an update on Parcel G workplan, indicating that the Navy had incorporated regulatory agency comments. A revised Parcel G workplan will be publicly circulated at the end of October for a 30 day comment period with goal of fieldwork starting before the end of the calendar year. In addition, she committed to a complete health and safety scan for the areas beyond the trenches at Parcel G. We affirmed the Navy's public statements in that regard and supported their commitment to the health and safety scans.

The Navy also conveyed that sometime next week there will be an announcement by the US attorney regarding civil litigation issues related to a "contractor".

CDPH provided an update on their Parcel A work. They were non-committal on questions from Robert Edmondson from Rep. Pelosi's office regarding indoor testing. CDPH indicated they would like to complete outdoor testing before deciding to proceed indoors. Robert indicated that Rep. Pelosi supports the residents request for indoor testing. CDPH also has not yet committed to additional outdoor testing for Parcel A-2.

That's it in the nutshell. Of course, give me a call if you have any questions. We are having a coordination call tomorrow with DTSC, CDPH, and the Navy to prepare for the supervisors hearing on Monday. I will provide brief remarks for EPA at the hearing after the Navy and CDPH provide their updates.

Enrique
