Subject: Draft weekly item Hunters Pt

Here is a draft weekly item I entered into the Lotus Notes database:

Hunters Point Naval Shipyard, San Francisco, CA: On December 7, 2016, EPA and other regulators joined a scoping meeting to discuss the technical and community involvement needs to develop a workplan to evaluate past radiological sampling by Tetra Tech EC, Inc. The Nuclear Regulatory Commission recently concluded an enforcement action against the company because its employees deliberately falsified radiological soil samples. In the evening, EPA will participate in a community meeting about a proposal to change the land use for much of Parcel G from industrial to residential. San Francisco had hoped the 49ers football team would build a stadium there, but that fell through, so the City/County want to build housing instead. On December 15, Superfund Division Director Enrique Manzanilla will join the Navy and State regulators in a meeting called by San Francisco Mayor Edwin Lee and Supervisor Malia Cohen about the Tetra Tech EC, Inc., issue. (Jackie Lane X2-3236 and Lily Lee, X7-4287)
