Andy,
See attached for lat/long location data for: Tidal Surface Water, Groundwater (potable wells) and Non-Tidal surface water (ponds).
Note: the Tidal surface water locations are co-located with the sediment sample locations.

Erica and Sandra,

Could you please send us the latitude and longitude for all of the water samples for the study?

James would like to make a map that complements John Washington's soil data.

I've attached what I have for locations for the soil data as a reference.

Thank you very much,

Andy

I can definitely summarize the water results. It would be great if someone could get me the spatial coordinates for all the water sampling sites so I can update my maps.

John,

Yes, all good points.

James, would you be able to briefly summarize the SolvX water results? This would round out the presentation and speak directly to NJ DEP's primary concern – water quality.

Thank you,

Andy

Hey Andy,

I agree on adding the structure.

Couple of other thoughts:

1)
2)

Ex. 5 Deliberative Process (DP)

3 Ex. 5 Deliberative Process (DP)

Sound ok with you?
Thanks!
John

John,

Tim was talking about the need for a premeeting briefing so he could get up to speed on what's been going on, but given that he's not coming back until the 23rd, I think it is unlikely he will have time.

Erica and NJ DEP are eager to learn everything they can about the study so they are trying to have this happen on the 24th. There next free date where everyone in NJ DEP would be available is August 27 and that's kind of too long to wait. As far as what to cover during the briefing, I don't think we'll be able to go much further than the PowerPoint that you recently shared with us before the 4th of July. We'll only have an hour.

Ex. 5 Deliberative Process (DP)

I talked with Sandra this morning about using New Jersey as a test case for the GIS Tools would we've also been talking about. I sent her the abstract I wrote last week and she seemed very interested in working with us to more completely catalog the occurrence of PFAS in NJ.

Judging by my most recent conversations with Erica, Sandra, and Gloria, the information you convey will be very highly valued and will lead to much more important interactions as we develop a better idea of what's going on there.

I'm happy to talk with you about any of this anytime.

Thank you very much,

Andy

When: Tuesday, July 24, 2018 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: calling Number Ex. 6 Personal Privacy (PP) Code Ex. 6 Personal Privacy (PP)

Nidal and Andy,

I am available at 2 PM on July 24.

Andy, should we coordinate on what we prepare for presentation?

Thanks,
John
