EHP 2013 - Chaumont et al.- Associations of UCd with age and urinary proteins- further evidence of physiological variations unrelated to metal accumulation and toxicity.pdf
EHP 2013 (Chaumont et al.) - Supplemental Material.pdf

Dear Michelle,

In attachment you will find my most recent publication in EHP and the Supplemental Material that goes with this paper. The link to the Suppl. Material is mentioned on the first page of the article.

I hope this example will help to reformat the air-Mn MS according to the requirements of EHP.

Best regards,

Harry

Subject: Resolution: Journal Of Exposure Science And Environmental Epidemiology - Manuscript ID JESEE-13-1727

All:

Dr. Roels and I spoke this afternoon regarding insertions to the text that he would like removed (this version inadvertently had some mention of biomarkers and a few other minor errors, which I agreed to remove/correct). I am working with him to revise the text and will resubmit by close of business Friday, September 6th. I will remove the current draft until Friday.

My apologies for the trouble.
